THE following Bill was read in the Council of the Lieutenant-Governor of Bengal for the purpose of making Laws and Regulations, on the 1st March 1862, and was referred to a Select Committee who are to report thereon after the 4th April next:—

A Bill to repeal Section XXX of Regulation II. 1819 (for modifying the provisions contained in the existing Regulations regarding the resumption of the revenue of lands held free of assessment under illegal or invalid tenures, and for defining the right of Government to the revenue of lands not included within the limits of estates for which a settlement has been made.)

WHEREAS by Section XXX of Regulation II. 1819, it is enacted that certain suits preferred in a Court of Judicature regarding lands held, or claimed to be held, free of assessment, shall be referred for investigation to the Collector, and that similar suits may be preferred in the first instance to the Collector; and whereas such reference of suits is unnecessary and causes inconvenience and delay in their decision, and it is advisable that such suits should be preferred and disposed of exclusively in the ordinary Courts of Civil Judicature; it is enacted as follows:—

Preamble.

I. Within the Provinces subject to the Government of Bengal, Section XXX of Regulation II. 1819 is hereby repealed, except as regards such suits decided by Collectors under the provisions of that Section as may be open to appeal at the date of the passing of this Act.

Section XXX of Regulation II. 1819, repealed.

II. All suits preferred by proprietors, farmers, or talookdars, to resume the revenue of any land held free of assessment, as well as all suits preferred by individuals claiming to hold land exempt from the payment of revenue, shall be instituted, heard, and determined in and by the Courts of Civil Judicature, like ordinary civil suits, and under the rules and subject to all the provisions contained in Act VIII of 1859 *(for simplifying the Procedure of the Courts of Civil Judicature not established by Royal Charter)* and not otherwise.

Suits for resumption of lands free of assessment to be tried in the ordinary Civil Courts: so also claims to hold land free of assessment.

III. This Act shall apply to all suits commenced under Section XXX of Regulation II. 1819, and pending decision under that Section in any Court (other than a Court to which such suit has come by way of appeal) or before any Collector at the time of the passing of this Act. All Collectors shall forthwith transfer to the ordinary Courts of Civil Judicature all such suits, whether originally instituted before them, or referred to them by the Civil Courts, as may be pending before them at the time of the passing of this Act; and all suits so transferred shall be heard and determined as provided for by this Act, and not otherwise.

Suits under Section XXX of Regulation II. 1819 pending before Collectors, to be transferred to the Civil Courts.

IV. This Act shall not in any way invalidate or alter the effect of any thing which shall have been done in any suit prior to the passing of this Act: and all proceedings which prior to the transfer of any suit shall have been held, or shall have taken place under, or in accordance with the provisions of Section XXX of Regulation II. 1819, shall be taken, and shall have effect, so far as circumstances will permit, as if the same had been held or had taken place in due course in the Court to which the suit shall be transferred.

This Act not to invalidate proceedings, &c. under Section XXX of Regulation II. 1819, and transfer of suit to Civil Court not to alter effect of proceedings previously had.

FINANCIAL DEPARTMENT.

No. 154.

Allahabad, the 19th February 1862.

The following orders passed by the Government of India, in the Financial Department, No. 14819, dated the 17th December 1861, is re-published for general information :—

No. 14819.

FROM C. H LUSHINGTON, ESQ.,

Secy. to the Govt. of India,

Financial Department,

TO THE OFFICIATING CIVIL PAY-MASTER,

Madras.

Fort William, Council Chamber,

The 17th December 1861.

FINANCIAL DEPARTMENT.

SIR,—I AM directed to acknowledge the receipt of your letter No. 418, dated 5th ultimo, enquiring how long after an Uncovenanted Servant has ceased to be employed under Government a Medical Certificate of unfitness for further service may be accepted in his favor as giving a claim to pension, and whether the Local Government can deal with a case of this description under the general Pension Rules, or whether it should be reported for the special sanction of the Government of India.

2. In reply, I am desired to observe that, according to the general principle laid down by the Hon'ble the late Court of Directors, in their Financial Despatch, No. 11, dated 14th August 1846, that pensions are to be granted on and not after retirement; and also with reference to the instructions subsequently issued in 1849, in respect to the details required to be specified in the Medical Certificate, "with a view to enable the Court to decide upon the *propriety of allowing the retirement upon pension* to the Uncovenanted Servants of Government," it appears to the Governor General in Council to be necessary that the Medical Certificate of unfitness for further service should be submitted *at the time* of retirement.

3. His Excellency in Council, however, observes that in practice this Rule has not been so strictly observed, especially in a case in which

an Uncovenanted Servant is discharged from the public service, in consequence of the abolition or the reduction of his office, and who produces a certificate after the lapse of some reasonable time.

4. In all such cases of deviation from the established rule, the Governor General in Council thinks it proper to require that a reference should be made to this Government for orders.

I have, &c.,

(Sd) C. H. LUSHINGTON,

Secy. to the Govt. of India.

FINANCIAL DEPARTMENT.

SIR,—I AM directed to acknowledge the receipt of your letter No. 148, dated 8th instant; and in reply to state that you were right in considering that the Rule* prescribed in the Financial Resolution of the 25th June last is only applicable in the case of an Officer holding a permanent appointment, and officiating at the same time in another *superior* to his own. An Officer holding a *subordinate* charge is not entitled to any additional allowance.

* A Military Officer in Civil employ, holding a permanent appointment, who is called upon to perform the duties of another or second office, shall be allowed to receive a moiety of the salary of the appointment in which he is officiating, in addition to the full salary of his own appointment *provided that no extra expense be entailed on Government.*

Memorandum* on Roads in the Punjab for facilitating Export Trade, particularly export of Cotton.

WITH a view to furnishing a reply to the enquiry how it is proposed to expend the money allotted to the Punjab in the present year for this object, the Cotton Statistics of the Punjab, according to the most recent Returns, *(Gazette Supplement*, August 28, 1861,) are exhibited in the accompanying Table.

The headings of the Columns sufficiently explain their contents. The most important to the present purpose are the results given in Columns VII., VIII., IX. and X.

Column VII. shows capability of soil of the several Districts for growing Cotton, under present circumstances of climate and culture.

Column VIII. shows the extent to which the Cotton capability of each District is at present turned to account.

Column IX. may be said to exhibit exporting capability after supplying home wants. Where the produce is large in proportion to the population, and the produce of neighbouring Districts small, in this relation exporting power is first expended locally. Where, after satisfying its neighbours' wants, a District has still spare produce or spare capability, it may be looked to for export in the larger sense.

The object of Column XI. is to check, in connection with IX., the confessedly imperfect Returns given in Column X.

It seems probable from the average of the results that about 2lbs. of Cotton per annum is the amount required per head.

In some Districts the home consumption of Cotton is possibly, from different causes, less than the average requirement, whatever that may be; in Delhi, for instance, from a proportion of the inhabitants using English cloths and other imported fabrics; in the opposite extremity of the Province, the Peshawur Division, from the enlarged use of the woollen garments of Afghanistan and the Hills.

Three Maps, accompanying this memorandum, illustrate the facts given in the figured Statement which are of principal importance in connection with the present question.

Districts left uncoloured in Map 2 do not produce enough of Cotton for home use, and probably all, more or less, import from their neighbours.

* With reference to Circular of Secretary to Government of India, Public Works Department, No. 90 of 9th October 1861.

Districts coloured yellow in the same Map produce the assumed average required for home use, and cannot be expected to give much to others.

Districts coloured light red should be able to export more or less.

But most is to be expected from the remaining Districts coloured in the Map dark red and purple.

The general conclusions from the Maps and Figures are—

1. That the Districts which can best export at the present time are (in this order) Rohtuk, Jhung, Hoshyarpore, Shahpore, Dera Ghazee Khan, Goordaspore, Umballa, Sealkote, Gogaira, Mozuffurgurh, Goojrat, and Hissar.

2. That certain Districts, particularly Delhi, Hissar, Thanesur, Julundhur, Hoshyarpore, and Gogaira, might produce more Cotton than they do; and those of them which do not now export might become exporting Districts.

3. That in certain other Districts, (those left uncoloured in Map 1) Kangra, Ferozepore, Rawul Pindee, Goojrat, Jhelum, Huzara, Kohat, Dera Ghazee Khan, and Mooltan, Cotton lands have not been very productive, though, in consequence of the scanty population in some of them, they have even, from their moderately productive soil, been able to furnish Cotton for export.

With regard to the most unprofitable of these, Kangra, Ferozepore, Jhelum, Huzara, and Kohat, it remains to be ascertained—have they any land naturally well suited for Cotton, and is their present unproductiveness due to want of water, or defective culture, or any other remediable cause? The answer to this question will dictate the course to be pursued with reference to the encouragement of Cotton cultivation in these Districts, or its abandonment in favor of cereals or other crops for which the soil and resources are better suited. The two Hill Districts, Kangra and Huzara, will probably never grow Cotton very successfully, and it may perhaps in those Districts gradually give place to tea.

The Districts in the second category above have greater capability for Cotton cultivation than is at present turned to account in the production of Cotton. But it may be that their culturable area is as profitably occupied with other crops:—this is probably the case in Jullundhur. Or that they have considerable extent of unproductive land, either destitute of water or incapable of cultivation:—this is probably the case with some parts of Hissar. The determination of these points will indicate what should be done with respect to Cotton in these Districts.

These collateral questions are here merely glanced at; the question under consideration relates to facilities now to be provided for present, actual or possible export of Cotton and other products.

So far with reference to Cotton only. The export of grain from the Punjab is considerable and important. Nearly the whole country has great capabilities for growing grain, and good roads should communicate with the rivers from the principal wheat growing Districts. There are no general Returns available of cereals and other produce, but the Julundhur Doab may be assumed as one of the parts of the country best capable of exporting wheat. This fertile and highly cultivated tract is also prepared to supply sugar in large quantity, but probably only to other parts of the country, not for foreign export.

Other products, flax, &c., may demand means of export hereafter.

Besides the export of products of the country, the export of goods imported from the countries on the north is important. Of these the great entrepôt is Umritsur. The Railway and rivers provide for this trade export.

Gathering these conclusions, notice will now be taken in succession of the Districts principally demanding good roads leading to the main channels of export, by land or water, existing or in course of execution.

The fourth accompanying Map shows present lines of road in the Punjab.

A Map prepared from the Returns called for in accordance with the instructions received from the Government of India, in letter No 1807 of the 28th May last, exhibits the roads in three classes, 1. High roads metalled and bridged throughout, (Lahore and Peshawur Road included, as belonging to roads of this standard though only in progress). 2. Made roads, unmetalled, partially or wholly embanked and bridged. 3. Minor roads, not embanked, unmetalled and unbridged. In the accompanying small Map the roads of the third class have, for the sake of clearness, been omitted.

The largest excess of Cotton produce is in the Districts of Rohtuk, Jhung, and Hoshyarpore.

Rohtuk.—In the *Gazette Supplement* above referred to, it is stated that "some of the exports from Rohtuk are to the Punjab, and some to the Lower Provinces." The outlet from the country, in the latter of these two directions, is the route which it is desired to facilitate. The road from the city of Rohtuk to the Jumna at Delhi is embanked and partially metalled. To the improvement and completion of this as a metalled road part of the funds now made available for this purpose may be appropriated.

Jhung has command of the rivers Chenab and Jhelum for outlet. Carriage is principally on Camels, and little is required to make the roads passable for them. To the improvement of the chief roads to the rivers from the principal Cotton localities in the interior of the District, a small sum may be allotted. Of this District, which produces at present so much in excess of its own wants, the soil is reported to be well suited for Cotton, and to be well capable of growing it more extensively if provided with the means of irrigation. At present it does not export Cotton. It produces annually more than twice the quantity of Cotton grown in the neighbouring District of Mozuffurgurh, and nearly twice the amount per head of population, but it furnishes no Cotton for export, whilst Mozuffurgurh exports 7,000 maunds. It is a manufacturing District, and instead of exporting raw Cotton, exports coarse Cotton cloths largely to Afghanistan.

Hoshyarpore stands highest of all the Districts in Cotton productiveness, and very high in regard to surplus produce.

The remark in the *Gazette Supplement* Statement regarding Trans-Sutlej States, appears at first sight inconsistent with the facts exhibited by the figures. "The exports from Julundhur are usually to Hoshyarpore and Kangra" Jullundhur, which produces very little above the apparent average demand for home use, exports that little, and is said to export it to Hoshyarpore, which produces nearly three times the amount it requires for home consumption, and, instead of largely exporting, is thus said to import from a neighbour which has smaller supply of its own.

The explanation is that Hoshyarpore manufactures extensively and exports the manufactured goods. The Deputy Commissioner in reply to enquiry on the subject has reported that above half a lakh of Rupees worth of manufactured Cotton goes yearly to the Hills and above half a lakh is sold to Cabul Merchants. The cloth made in the villages is bought up in certain towns and thence exported or sold wholesale.

The roads from Hoshyarpore to the Trunk Road, at Jullundhur for the west, and at Phugwara for the south, should receive a portion of the money now offered.

The road from Hoshyarpore to Jullundhur, twenty-four miles, is partly embanked, partially metalled twelve feet in width, with two torrent beds unbridged, and one bridge required at Amudpore.

The road from Hoshyarpore to Phugwara, twenty-three and a half miles, is not embanked, is unmetalled and unbridged. One large Bridge is required over the Beza Nullah.

The District next in order with respect to surplus produce of Cotton for export is *Shahpore*. Shahpore possesses the means of export to the sea by the rivers Jhelum and Chenab. The remark regarding interior roads, made above with respect to Jhung, is applicable to Shahpore.

Dera Ghazee Khan exports a considerable amount of Cotton,—9,000 maunds. (The annual export is by mistake given in the *Gazette Supplement* as 36,000 maunds.)

With all the advantage of abundant Canal irrigation for a Cotton crop, the productiveness of its soil is reported very low. But as Cotton is now one of its standard crops and articles of export, improved culture may increase its productiveness. This District has the Indus for its great export channel, accessible within a short distance from every part. Passable roads are easily and cheaply made, and a small sum might be devoted to roads from the principal Cotton lands to the river.

Goordaspore exports towards Lahore. The road now in progress from Pathankote to Umritsur, will supply what is required for this District, which also has the advantage of the Baree Doab Canal, both for irrigation and for export of its produce.

Next in order is *Umballa*. It is said, in the published Statement referred to, to export very little, though it would appear that it ought to be able to export. In reply to a reference on this point, it has been ascertained that the quantity exported is about one-fourth of the whole produce. Of this, about one-third goes to the Hills and two-thirds to the markets of Lahore and Umritsur. There does not appear to be any great export of manufactured Cotton. This District has the Trunk Road within a moderate distance at all parts. Nothing is proposed in connection with the present question for Umballa.

Sealkote exports towards Mooltan. Of all the Districts it has the largest proportion of its area under Cotton cultivation. Its means of export should be aided.

The road from the City of Sealkote to the Chenab at Wuzeerabad, twenty miles, is embanked and bridged, but unmetalled.

The road from Sealkote to the Trunk Road at Goojranwala, twenty-five miles, bridged, not embanked, unmetalled.

There is a constant cart traffic along both these roads.

To each of these an allotment from the money now available is recommended.

Gogaira appears to have surplus produce, but is said to export nothing. It has some canal irrigation; it has, for means of export, the Sutlej on side, and on the other, the Ravee; and will ere long have the rail to Mooltan, where produce, availing itself of this mode of conveyance so far, would take the more suitable means of export carriage by water. Encouragement should be given to the cultivation of Cotton in this District. Meantime, for roads from the Cotton growing parts of the interior to the Sutlej, funds when available should be allotted.

Mozuffurgurh, between the Chenab and the Indus, has excellent facilities for export, and does now export down those rivers. Nothing proposed at present for Mozuffurgurh.

Goojrat exports Cotton to Cashmere. For export to the sea it has the Chenab and Jhelum, and the Trunk Road running through the District communicating with both these rivers. Nothing is proposed out of this ¾ lakh for this District.

Mooltan is said to export a considerable quantity of Cotton. The amount stated appears more than it could afford to part with, if the other figures are correct. The District is well provided with the means of export by water; roads from the Cotton lands in the interior to the rivers should have attention. A small provision is recommended for them from the present allotment.

Delhi, Kurnal, Lahore, Goojranwala, export Cotton chiefly to adjoining Districts. The quantity stated is questionable in the case of Kurnal, seeing how little it would keep for its own use. These Districts are all provided with the means of export by Trunk lines of road and by the Jumna. Roads from the interior to these exporting channels should, as in the other similar cases, be aided where necessary. Nothing is proposed for them at present.

The Kussoor Pergunnah of the Lahore District grows Cotton extensively, without irrigation. It is stated by the Deputy Commissioner to be grown only in very favorable years. The produce is sent to Ferozepore and thence to Bombay by water. The Lahore and Ferozepore Road, now in course of execution, passes through Kussoor.

Dera Ismail Khan ought to be able, apparently, to export more than it does. This District manufactures and exports the goods to Afghanistan.

Goorgaon exporting its whole produce, as stated in the published paper referred to, and keeping nothing for itself, is assumed to be a mistake. It can scarcely afford at present to export any large quantity. The whole Cotton of the District is a scanty supply for its own use.

Lower in the scale of Cotton export capability it does not seem necessary to go for the present purpose.

Rawul Pindee, Peshawur, and Kohat, all said to export small quantities, cannot, it will be seen from the figures in Columns VII. and IX., be looked to for much or early increase of exporting power.

The recommended distribution of the present allotment is—

Rohtuk to Delhi, metalling and improvement,	Rs.	18,000
Hoshyarpore to Jullundhur, bridging or metalling	„	12,000
Hoshyarpore to Phugwara, ditto	„	15,000
Sealkote to Wuzeerabad, Small improvements. Funds for metalling could not be afforded	„	3,000
Sealkote to Goojranwala, out of the present allotment.	„	3,000
Roads from Cotton lands to rivers in *Mooltan Division*	„	8,000
Ditto ditto *Shahpore District*,	„	8,000
Ditto ditto *Dera Ghazee Khan District*,	„	8,000
Total Rs. ...		75,000

Cotton grown within British Territory alone has above been taken into consideration. Of the amount and value of Cotton produced in the Native States connected with the Punjab there are no Returns. Information should be obtained on this subject, and the attention of the Native Rulers might be specially directed to the encouragement of Cotton cultivation and export, as a matter of importance to their interests and to the prosperity of their people and country.*

One other measure of much importance in connection with the question of Cotton export is the establishment of Presses for packing the bales in more advantageous mode for carriage before the Cotton is started on its long journey to the Coast. When carried in the loose form, it gathers in transit much dirt and impurity before being subjected to the Press at the port of embarkation, as is now the case with the Cotton conveyed on droves of baggage animals over the hill roads from the Cotton Districts of Bombay to the sea. It would be of great value to the Cotton export trade of the Punjab to have Presses established at a few convenient Stations, which could receive the cotton of a considerable extent of country as near as possible to the place of its production.

Mr. Coates, of Ferozepore, has had a Cotton Press at work for some time, and found difficulty in getting the people to use it. In answer to an enquiry as to the cause of this, it appears that as the Cotton was not cleaned till arrival at Bombay, the Merchants objected to pressing it uncleaned, before despatch, as the Cotton was damaged by pressing with the seed. Cleaning is to be arranged for in connection with or previous to pressing.

The positions recommended for the establishment of Presses in the first instance are—

1. Delhi, for the Districts between the Sutlej and Jumna, before despatch down the latter river.
2. Umritsur, for the Jullundhur Doab, and Districts of the Umritsur Division, before despatch by rail to Lahore and Mooltan.
3. Mooltan, for the Districts on the convergent rivers of the lower Punjab, before despatch by boat or steamer for Kurrachee.

This is properly a matter for the Cotton growers or Cotton Agents to look to; but, like many other advantageous commercial or industrial arrangements in this country, it may be necessary for Government to take the lead; with the view, afterwards when all is working successfully, of making over the management to private enterprize.

* Letters have been addressed to Jummoo, Puttiala, Nabha Jheend, Bahawulpore, Muler Kotla, Kulsia, Patoudee, and Loharoo.

From LIEUTENANT-COLONEL A. G. GOODWYN, Under-Secretary to the Government of India, Public Works Department, to the Secretary to the Government of the Punjab, in the Public Works Department,—(dated the 26th February 1862.

SIR,—I AM directed to acknowledge receipt of Lieutenant Newmarch's Docket dated 28th November 1861, forwarding a Memorandum prepared by you regarding roads for facilitating the Export Trade of the Punjab, more especially the export of Cotton.

2. It is suggested that Cotton Presses should be established by Government at Delhi, Umritsur, and Mooltan, and that arrangements should be made for cleaning the Cotton previous to pressing, and His Honor the Lieutenant-Governor remarks, that, in this as in many other advantageous, commercial or industrial arrangements, it may be necessary for Government to take the lead.

3. In reply, I am directed to state that the Governor General in Council cannot recognize this necessity. It is matter in which no extraordinary risk, beyond what may attend any commercial experiment, is involved, and in which no countenance or assistance from Government authority is required. If the Government were to set the example of cleaning the Cotton and pressing it, those to whom that business really appertains in England and in India would probably be greatly misled, and anything but encouragement to the Cotton trade with England would result.

6. The Governor General in Council commends the labour and intelligence shown in the preparation of this highly interesting Report, which, together with this reply, will be published in the *Supplement to the Calcutta Gazette*.

M. WYLIE,

Depy. Secy. to the Govt. of India,

Home Department.

THE following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 28th February 1862, and is hereby promulgated for general information:—

ACT No. V. OF 1862.

An Act to provide for the payment at the Banks of Bengal, Madras, and Bombay, respectively, of Moneys payable at the General Treasuries of Calcutta, Madras, and Bombay.

Preamble.

WHEREAS, under the provisions of Act XXIV. of 1861 *(An Act to enable the Banks of Bengal, Madras and Bombay to enter into arrangements with the Government for managing the issue, payment, and exchange of Government Currency Notes and certain business hitherto transacted by the Government Treasuries)*, the Bank of Bengal has entered into an agreement with the Secretary of State for India in Council through the Governor General of India in Council that so much of the business hitherto generally transacted at the General Treasury of the Government at the Presidency of Fort William, as consists in receiving and paying money on behalf of the Supreme Government and the Government of Bengal, shall be carried on and transacted by the said Bank, subject to the provisions of the said agreement and to such orders and directions with regard to receipts and payments as may from time to time be given to the said Bank by the Governor-General in Council, or any of the Officers of the Government of India authorized in that behalf.

And whereas the Governor-General in Council has given notice in the *Calcutta Gazette* that the Treasury of the Secretary of State for India in Council and of Her Majesty's Indian Government at Calcutta shall, from and after the 1st day of March 1862, be established at the Bank of Bengal.

And whereas the Bank of Madras and the Bank of Bombay are in treaty with the Governor in Council of Madras and the Governor in Council of Bombay respectively, for the purpose of entering into similar agreements, and it is probable that such agreements will be shortly executed, and that similar notice to that hereinbefore mentioned will be given by the Governors in Council of Madras and Bombay in regard to the Banks of Madras and Bombay.

And whereas divers promissory notes and negotiable securities and other obligations for the payment of money made by or on behalf of the Secretary of State for India in Council or by the Governor-General of India in Council, the Governor of Madras in Council, and the Governor of Bombay in Council respectively, on behalf of the East India Company and of the Secretary of State for India in Council, are made payable at the General Treasury of Fort William in Bengal, the General Treasury at Madras, and the General Treasury at Bombay respectively.

And whereas divers other securities and obligations are made payable to the Secretary of State for India in Council or to the said Governor General in Council, or to the Governors in Council of Madras or of Bombay at the said General Treasuries of Fort William in Bengal, Fort St. George, and Bombay respectively.

It is therefore enacted as follows:—

On and after 1st March 1862, all sums payable by or to Government to be payable at the Bank of Bengal instead of at the General Treasury at Calcutta.

I. On and after the 1st day of March 1862, and until the expiration of fourteen days after notice shall be given in the *Calcutta Gazette* by the Governor-General of India in Council that the Treasury of the Government will be no longer held at the Bank of Bengal, all sums payable by or to the Secretary of State for India in Council or by or to the Governor-General of India in Council, or the Government of Bengal on behalf of the Secretary of State for India in Council, at the General Treasury of Fort William in Bengal, shall be payable by or to the Secretary of State in Council or by or to the Governor-General of India in Council or the Government of Bengal respectively, on behalf of the Secretary of State in Council, at the Bank of Bengal instead of at the General Treasury at Calcutta.

Presentment of Promissory Notes, &c., at the Bank of Bengal.

II. Whenever presentment of any promissory note, security, or obligation for payment or for any other purpose at the General Treasury of Fort William in Bengal would, before the said 1st day of March 1862, have been necessary or sufficient, presentment for such purpose at the Bank of Bengal shall be necessary or sufficient, as the case may be on and after the said 1st day of March 1862, and until the expiration of fourteen days after such notice as in the 1st Section mentioned shall have been given.

Payment at the Banks of Madras and Bombay of sums payable by or to Government at the General Treasuries at Madras and Bombay.

III. If the Governors in Council of Madras and of Bombay respectively shall give notice in the *Government Gazettes* of their Presidencies respectively that the Banks of Madras and Bombay respectively have entered into agreements or arrangements with the Secretary of State for India in Council through the said Governors in Council, for the purposes mentioned in the Preamble of this Act, under the provisions of the said Act XXIV of 1861, and that from and after a date to be specified in such notice, the Treasury of the Secretary of State for India in Council, and of Her Majesty's Indian Government at Madras and Bombay respectively, shall be established at the Banks of Madras and Bombay respectively, all sums payable by or to the Secretary of State for India in Council, or by or to the Governor of Madras in Council or the Governor of Bombay in Council on behalf of the Secretary of State for India in Council at the General Treasury at Madras or at the General Treasury at Bombay respectively, shall from and after the date specified in such notice, and until the expiration of fourteen days after notice shall have been given by the said Governors in Council respectively that the Treasury of the Government will be no longer held at those Banks respectively, be payable by or to the Secretary of State in Council, or by or to the Governor of Madras in Council, or by or to the Governor of Bombay in Council, on behalf of the Secretary of State in Council, at the Bank of Madras or the Bank of Bombay respectively, instead of at the General Treasury at Madras or the General Treasury at Bombay.

Presentment of Promissory Notes, &c., at the Banks of Madras and Bombay.

IV. In such case, whenever presentment of any promissory note, security, or obligation for payment or for any other purpose, at the General Treasuries at Madras or Bombay respectively, would have been necessary or sufficient, if such notice had not been given and this Act had not been passed, presentment for such purpose, at the Banks of Madras and Bombay respectively, shall be necessary or sufficient, as the case may be, on and after the date specified in such notice by the Governors in Council of Madras and Bombay respectively, and until the expiration of fourteen days after such notice as aforesaid that the said Treasury will be no longer held at those Banks respectively shall have been given.

Proviso as to presentment at the several Banks.

V. Nothing in this Act shall render necessary the presentment at the Banks of Bengal, Madras, and Bombay respectively, of any security or other obligation which it would not have been necessary to present at the General Treasuries of Bengal, Madras, and Bombay respectively, if this Act had not been passed.

M. WYLIE,

Depy. Secy. to the Govt. of India,

Home Department.

THE following Report of a Select Committee was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 26th February 1862, and the Bill, as proposed to be amended by the Select Committee, was ordered to be published in the *Official Gazettes* of the several Presidencies, and taken into consideration on the 9th of April next:—

HOME DEPARTMENT.

LEGISLATIVE.

WE, the undersigned, the majority of the Members of the Select Committee of the Council of the Governor General of India for the purpose of making Laws and Regulations, to whom the Bill to consolidate and amend the Law relating to Stamp Duties was referred, have the honor to report that we have considered the Bill, and have suggested several amendments in its details, which will appear in Italics in the re-printed copies.

A Petition to the Governor General in Council from certain Secretaries and Agents of Marine Insurance Offices in Calcutta, objecting to the Stamp on letters of cover, having been referred to us, we have come to the conclusion that, as the Policy of Insurance, to which the letter of cover is only initiatory, is required to bear the full Stamp, the letter of cover may be properly exempted, subject to a provision by which such letter of cover is prevented from doing the duty of a Policy unless stamped with a full Policy Stamp in cases in which no Policy is issued.

The Sudder Fouzdaree Adawlut of Bombay having thrown doubts on the authority of Collectors under Section XXXVII of Act XXXVI of 1860 when only acting under general instructions of the superior Revenue Authorities, and having ruled that the words "any Magistrate" in Section XXXVIII of that Act could not be construed to mean persons having powers less than the full powers of a Magistrate, we have proposed to amend Sections XLVIII and XLIX of the Bill so as to meet the difficulty which has thus arisen.

The Hon'ble Rajah Dinkar Rao Rugonauth Bahadoor does not concur in this Report: a separate paper recorded by him is annexed.

The 26th February 1862.

Separate Report of the Hon'ble Rajah Dinkar Rao Rugonauth Bahadoor.

I ENTIRELY disagree to the passing of this Bill. It is my opinion that Taxation should be simple; a great variety of kinds of Duties and Taxes should not be imposed on the people. The detailed objections that occur to me are as follows:—

1. It is said that this Bill is a consolidation and amendment of the former Acts; but this is not its meaning, for in it, to a greater or less extent, the Stamp Duty is increased. It is plain that this Bill is not for consolidation and amendment only, but for increasing the Stamp Duty.

2. It is only a short time since three Stamp Acts (XXXVI, XL, and LI of 1860) have come into force. It is proper to alter Laws when essentially required. The object of this Bill is supposed to be to explain the Stamp Laws to the people. But before the people can have made themselves acquainted with the former Acts, they will receive another on the same subject. Some of the people are learned, and some are ignorant. How are they all to get themselves acquainted with all these new Acts, and on what should they place their confidence as a settled Law? If in this matter they make any mistake in using the Stamps, they will have to pay a fine. In such a state of things they must be bewildered and harassed.

3. The Government, in consideration of the comfort of the people, and that there should not be any obstruction to Commerce, has dispensed with Road Taxes, and Customs Duty on many articles, and levied it only on a few things. This is a sound policy; but it is clear that such Taxes as these Stamp Duties and other similar Taxes are opposed to this policy, because they lead to constant interference and will not leave the people free to perform their occupations.

4. It is well known how much all classes of people complained against the Income Tax, though they submitted to it from the necessity of the case. The Stamp Duty is a kind of Tax open to the same class of objections, that it constantly interferes with the Tax-payers.

5. The people are required to pay several kinds of Taxes, such as Income Tax, License Tax, Land Tax, Municipal Tax, Customs Duty, Chowkedaree, and many others. The present Bill not only leaves all these, but also taxes many of the transactions connected with them, such as receipts, leases, &c.

6. It will be seen from the above that very few are left free to perform their occupations without perpetual taxation.

7. Though the Income Tax is on a larger scale in comparison to the Stamp Duties, yet the effect of both to obstruct a man's business is the same. It will also be seen that the Income Tax is a temporary impost; but these Stamp Duties will perhaps be permanent.

8. It is said that people in England pay willingly numerous kinds of Taxes. I should doubt if this be true of direct Taxes. But even if it be so, it is to be observed that there is a difference between their customs in this respect and those of the people in Hindoostan who have a special dislike to direct taxation.

9. It is evident that the Subjects will not be pleased to pay any such Taxes. But the Government has to provide for the extraordinary expenses of the State. It is therefore compelled for a temporary purpose to impose such Taxes. For this reason it has already levied the Income Tax wherein all sorts of incomes are included. As all man's profits are embraced in the Income Tax, it is not consistent to impose on him any other Tax. When it is incumbent on the Government, in order to make up a deficiency, to increase such taxation, the people no doubt must obey. But they will, I think, deem it better and more easy to pay once for all, any Tax which may be right in principle and properly assessed, rather than be harassed with several kinds of Taxes and Duties. They will wish, after having paid one Tax, to be left to follow their several occupations unmolested.

10. Though the Government is compelled to impose Taxes to make up what is deficient, yet it is right and proper that the Government should consider what Taxes may be most easily paid by its Subjects, and what will give them least cause of dissatisfaction. I do not think that the Stamp Duty on the general transactions of life, falling upon learned and ignorant people of every class, is such a Tax.

THE following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 5th March 1862, and was referred to a Select Committee with instructions to make a report thereon in a fortnight:—

A Bill to protect the personal dignity of His Majesty the King of Oude.

Preamble.

WHEREAS it is expedient, with a view to protect the personal dignity of the King of Oude, in accordance with the promise made to His Majesty on the part of the British Government, that His said Majesty should be partially exempted from the jurisdiction of the Civil, Criminal, and Revenue Courts; It is enacted as follows:—

King of Oude exempted from jurisdiction of Criminal Courts except for capital offences.

I. His Majesty the King of Oude is hereby declared to be, and is, exempt from the jurisdiction of the Criminal Courts, except in regard to offences punishable with death under the Indian Penal Code. Except for such offences, no Criminal Court or Magistrate shall enquire into any complaint, or issue any summons or warrant, against His said Majesty.

Police not to arrest the King without warrant, nor to enter the dwelling-house of the King for the execution of any warrant except in the presence and with the sanction of the Agent.

II. No Police Officer or other person shall arrest His said Majesty without warrant, and no Police Officer or other person, charged with the execution of a warrant either to arrest any person or to search for any thing, shall enter into or remain in any house in which His Majesty may at the time be residing, except in the presence and with the sanction of the Officer appointed to be Agent with His Majesty on the part of the British Government.

Issue of Commission for the trial of other than capital offences.

III. If any complaint be made or information preferred against His said Majesty for any offence other than the offences excepted in Section I of this Act, the Officer appointed to be Agent with His said Majesty may enquire into the case and make a report thereon to the Governor-General in Council, and the Governor-General in Council, on receipt of any such report, may issue a Commission for the trial of such offence, and may vest the said Commission with any of the powers vested in any Court by the Code of Criminal Procedure. Provided that, in case of conviction, the said Commission shall not pass sentence, but shall report its judgment to the Governor-General in Council, who may thereupon give such directions, in respect to His said Majesty, as the exigency of the case may seem to require.

No writ or process of a Civil Court to be issued against the person or property of the King without the consent of the Governor-General in Council.

IV. No writ or process shall at any time be sued forth or prosecuted against the person, goods, or property of His said Majesty, unless such writ or process shall be so sued forth or prosecuted with the consent of the Governor-General in Council, first had and obtained, such consent to be testified by the signature of a Secretary to the Government of India, and any writ or process which shall at any time be sued forth or prosecuted against the person, or goods, or property of His said Majesty, without such consent as aforesaid, shall be utterly null and void.

The King exempted from appearance in Court as a witness.

V. His said Majesty shall not be required to appear personally as a witness in any Court, or before any Commissioner appointed by any Court, to be examined or make affidavit when his evidence or affidavit is required in any Civil or Criminal suit or proceeding.

Mode of taking the King's evidence.

VI. When the evidence of His Majesty is required in any such Civil or Criminal suit or proceeding, the Court or the party requiring the same shall cause to be prepared interrogatories in writing for the examination of His said Majesty. If the case is one in which any other party in such suit or proceeding would, by law, have a right to cross-examine, such party shall be at liberty to prepare cross-interrogatories. The interrogatories and cross-interrogatories (if any) shall be transmitted to the Officer appointed to be Agent with His said Majesty, who shall exhibit the same to His said Majesty, and take down in writing His Majesty's answers thereto given on solemn affirmation. The interrogatories, with the answers thereto, shall be returned to the Court before whom the suit or proceeding is pending, together with a certificate from the said Officer appointed to be Agent, of the answers of His said Majesty having been duly taken.

Mode of taking the King's affidavit

VII. When any affidavit is required to be sworn by His said Majesty in any Civil or Criminal suit or proceeding, such affidavit shall be taken and sworn before the said Officer appointed to be Agent, who shall return such affidavit with a certificate of its having been duly sworn to the Court or Officer before whom the same is to be used.

Examinations to be taken in private.

VIII. Except with the consent of His said Majesty, no person other than the said Officer appointed to be Agent shall be entitled to be present when His said Majesty is being examined on interrogatories or sworn to any affidavit under the provisions of this Act.

IX. The answers to interrogatories or affidavit of His said Majesty taken and sworn under the provisions of this Act shall be admissible in evidence and subject to the same objections as if such answers or affidavit had been taken or sworn in open Court or under a Commission.

Examination, &c., taken under the Act, admissible in evidence.

STATEMENT OF OBJECTS AND REASONS.

AFTER the King of Oude had refused to accept the Treaty proposed to him in 1856, and had placed himself in entire dependence upon the pleasure of the British Government, a pension of twelve lakhs of Rupees a year was offered to His Majesty. This offer was coupled with certain other conditions, among which were these, that His Majesty should not be deprived of any of the titles or dignities which he had enjoyed; that he should be permitted to enjoy them during his life; and that all deference and respect and every royal honor should be paid to the King as long as he might live.

It was also proposed to His Majesty that the peculiar jurisdiction within certain limits, which had been reserved to His Majesty in the Treaty, should be reserved to His Majesty undiminished during his life-time.

But the King having come to Calcutta, and taken up his residence at Garden Reach, and having sent a deputation to England to endeavour to obtain restitution of the Kingdom which he had forfeited, did not then accept the offer made to him, or come to any arrangement with the Government.

When the Mutiny broke out, it was found necessary, as a measure of precaution, to place the King under arrest, and to keep him in confinement, as a State Prisoner in Fort William. He was released as soon as his personal liberty was thought consistent with the public safety, and he then addressed the Government, begging that his dignity and authority might be restored to him, and that he might be relieved from his pecuniary difficulties.

The following extracts from the letter of the Secretary to Government, dated the 6th September 1859, contain all that is important in the orders of Government passed upon the King's application:—

"3. You will also inform His Majesty, with respect to his wish for the restoration of his dignity and authority, that the Governor-General in Council earnestly advises His Majesty to cast from his mind all expectation whatever, that the authority of the British Government over the Province of Oude will ever be relaxed. The decision of the Government of England has been declared upon this point, and it is final.

"4. But as concerns the personal dignity of the King, you will assure His Majesty that it will not cease to be respected and protected by the Governor-General in Council, and that no suitable mark of the honor due to his rank will be wanting.

"5. On one point, however, the Governor-General in Council must depart from the former purpose of the Government as expressed to His Majesty in 1856. It was then contemplated that His Majesty should continue to exercise jurisdiction and to administer justice within the limits of his residence in which he might take up his abode. This privilege can now no longer be conceded to any person, however high his position, who is resident within British Territory. It is necessary that in every part of the British dominions the law should be paramount, and although the King may be certain that the administration of this law shall never be allowed to trench upon the respect which the Governor-General in Council desires to show to His Majesty personally, and to His Majesty's family, His Excellency can no longer sanction the exercise by His Majesty of an independent jurisdiction within the precincts of His Majesty's residence, or the immunity of any of his Officers and attendants from the ordinary operation of the law. Provision, however, will be made for serving legal process within the precincts of His Majesty's residence, through the Officer who may be appointed Agent with His Majesty on the part of the British Government.

"9. The King is aware that an income of twelve lakhs of Rupees a year was tendered to him by the British Government in 1856, and that it is in no way owing to that Government that His Majesty did not at once come into the receipt of that sum. Recent events have made no difference in the desire of the British Government that His Majesty's expenses should be amply and liberally met. Therefore the provision of twelve lakhs a year is still open for the King's acceptance, and payment of it will commence from the day on which that acceptance shall be signified."

The King accepted these proposals. It will be observed that all that was offered to the King in 1856, was offered again to His Majesty in 1859, with the one single exception of an independent jurisdiction. His Majesty is therefore entitled, under the promise of the British Government, to the continuance during life of his titles and dignities, of all deference and respect, and of every royal honor; and His Majesty has been expressly assured that, though in every part of the British dominions the law must be paramount, though he therefore cannot be allowed to exercise an independent jurisdiction, and though his Officers and attendants can have no immunity from the ordinary operation of the law, the administration of this law shall never be allowed to trench upon the respect which the Governor-General in Council desires to show to His Majesty personally and to His Majesty's family.

The only step yet taken to fulfil this assurance has been to provide by Act XIV of 1860 for the service of Civil and Criminal process within the limits of the King's residence, through the instrumentality of the Officer appointed to be Agent with His Majesty on the part of the British Government. But this Act gives no special immunity to the King, and makes his legal position precisely the same as that of the members of his family, and of his dependants. A case has recently arisen in which His Majesty having become defendant in a suit brought against him in the Civil Court, was required by the Court to answer certain interrogatories in the presence of the plaintiff and his Attorney. Such a requisition is undoubtedly legal, but it subjects the King to an indignity from which he ought to be protected. It is also reported that the King may be required to attend in person before the Judges of the Supreme Court to give evidence in a case pending in the Court of Common Pleas, a position altogether incompatible with royalty and with the respect due to His Majesty.

These circumstances have led the Governor-General in Council to consider what legislative measure is necessary, in order fully to carry out the intention with which the orders of the 6th September 1859 were conveyed to His Majesty, and to place His Majesty in a position to which his birth, his actual tenure of Sovereignty during a long period, and his misfortunes, give him a strong claim, and which has been guaranteed to him by the express terms of a promise.

This Bill is the result. It exempts the King from the jurisdiction of the ordinary Criminal Courts and from the action of the Police, in all cases except those of treason or murder; but it provides for the creation of a special tribunal to try offences of a less heinous description if His Majesty should be charged with any such offence, and, in the event of conviction, empowers the Government to deal with His Majesty as it may think proper.

It protects the person and property of the King from any process of the Civil Court issued without the consent of the Government, and places him in this respect on the same footing as that which has been conferred by law on the Nawab of the Carnatic. It exempts His Majesty also from attendance in the Courts as a witness, and prescribes the mode in which his evidence is to be taken.

It leaves untouched the members of the King's family, who, it is thought, are sufficiently protected by the existing law, and gives no exemption to his dependants beyond that which they now enjoy while residing in the premises belonging to His Majesty.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to provide for the mode of dealing with counterfeit Coin, and with Coin originally genuine, which has been tampered with or reduced in weight.

The Statutes and Acts in force in India previously to the passing of the Penal Code had provided for the punishment of certain offences against the Coin. These provisions were in many respects imperfect, and have been now superseded by the Indian Penal Code, the enactments of which provide in a most salutary manner for nearly every offence connected with the Coin for which it is desirable to provide a special punishment. But no enactment has hitherto been passed in India defining the rights or duties of the public, or of the Officers of the Government, in respect of false Coin and damaged Coin: and much uncertainty has hitherto existed on the subject, especially as to the right of private individuals to break up, in order to withdraw from circulation, Coin which has been offered to them and which they see to be counterfeit or diminished in weight, and as to the extent to which such Coin, if broken up, and the materials, are forfeited to the Government, or can be reclaimed by the persons who offered them. The present Bill seeks to define and to place on a just and convenient footing the rights and duties, both of the Government and its Officers and of the public generally, in respect to such Coin.

The first question to determine in such a case is to whom the materials of the false or deteriorated Coin belong, and how far such Coins are to be considered as forfeited to the State.

In the recent consolidation of the Statute Law relating to offences against the Coin in England, as well as in the Acts thereby consolidated, it seems to be assumed, though it is not positively enacted, that all false and counterfeit Coin shall be absolutely forfeited to the Government. For it is provided that whenever any such Coin shall be brought before a Justice of the Peace, whether any offender be charged before him or not, they shall, when they have been produced in evidence or upon seizure if they shall not be required to be produced in evidence, be delivered up to the Officers of Her Majesty's Mint, or to the Solicitors of the Treasury.

24 and 25 Vic., c. 99.

Section 27.

No such provision is made in regard to Coin originally genuine, which has been impaired or diminished by guilty means, although, where any offence has been established in respect to such Coin, there can be little doubt that it would, in England, be treated as forfeited.

There is, however, a marked distinction in practice between offences in relation to the Coin in England and in India. In England, whether from the superior skill of the false coiner, or the greater carelessness of those upon whom false Coins are passed, it is rare that a counterfeit Coin is of much intrinsic value. The metal or preparation which is made to do duty for the standard metal is there altogether base; whereas, in India, instances have occurred of coinage to a large extent of Coins of a metal comparatively but little inferior in value to that of the pure standard, so as to leave the coiner's profit but a small percentage of the actual value of the Coin passed off. The hardship therefore resulting to an innocent party who receives a false Coin, or it may be a number of false Coins, for full value, from an absolute forfeiture of the Coin to the Crown, would be greater in this country than in England. The metal used is more calculated to deceive even the vigilant, and the intrinsic value of the Coin received by him after it has been broken up is much greater.

It is proposed in the present Bill to declare all Coin which is either counterfeit or has been criminally tampered with, forfeited in the hands of any person who has committed any offence in respect of it, or who has the same in possession without lawful authority or excuse, or who has not given full value for it, or who has taken it with notice of some flaw in it.

But where the holder of the Coin has committed no offence, and has lawful authority or excuse for its possession, and has given full value for it without notice of any flaw, he will be entitled to receive it back after it has been broken up, so as no longer to be capable of being circulated as Coin. The burden of proving *both* lawful authority or excuse, and payment of full value without notice, is thrown upon the person in possession of the Coin, failing which proof, the Coin will be absolutely forfeited to the Government.

It seems obviously necessary to require proof *both* of lawful authority or excuse, and of the giving of value without notice, as a condition to the restoration of the Coin. If proof of lawful authority or excuse alone were required, a policeman or informer, who had taken possession of a false Coin, in order to bring it before a Magistrate, or the finder of such a Coin in a hidden place of deposit, might keep it. If proof of value only were required, a person who had taken the Coin in payment of goods delivered by him with a knowledge that there was something wrong about the Coin, might keep it. In all such cases the Coin ought obviously to be forfeited, whatever its value may be, and it is only in cases of complete good faith and fair vigilance that the Coin should be restored.

All dies and instruments used for the purpose of counterfeiting the Coin or for unlawful coining operations generally, and all silver filings and clippings, and other kinds of Coin illegally operated on, are declared absolutely forfeited.

The Bill provides that, where a Coin is tendered to any person who suspects it to be counterfeit or to have been altered in composition or diminished otherwise than by lawful wear (which three operations are treated as crimes by the Penal Code), he shall be at liberty to break it up or deface it, so as to prevent its further circulation. If the suspicion prove well founded, the person offering the Coin must bear the loss. If the suspicion prove unfounded, the person breaking or defacing the Coin must receive it as a Coin of full value. Where the person offering the Coin asserts its genuineness, the dispute may be settled at once summarily by any Magistrate, who will, if the Coin prove bad, see that it is broken up. These provisions agree in substance with those which have been for many years in force in England, and which have been lately re-enacted in the Consolidation Act of last Session. I propose, however, to extend this provision to one case which is not provided for by the English Statute, that of the Queen's Coin current and a legal tender in British India, which has been so diminished, whether by lawful wear and tear, or by unlawful means, as not to be a legal tender. The reason for causing such Coin to be defaced so as to withdraw it from circulation, appears to be as strong as that applicable to Coin diminished by the process commonly called sweating, for the chemical means of diminishing the weight of the Coin, without leaving

any apparent trace on the Coin itself of any operation having been performed, are now so potent and so subtle, that if the person to whom Coin is tendered which he sees to be short of weight be justified in breaking it up, or in taking the person offering it before a Magistrate only in case of its turning out that some unlawful operation has been performed upon it, there will be every inducement to avoid the trouble and risk attendant on such a course.

These provisions are, under the present Bill, optional with regard to the public generally, as they appear to be in England. To impose a positive obligation on all to whom a suspicious Coin may be tendered in the course of business, and in good faith, will be burdensome on the individual, however useful it might be for the protection of the circulation But they are rendered compulsory on all Revenue Officers, and all Officers receiving payment on account of the Government. It clearly ought to be the duty of such Officers to do their utmost to prevent the circulation of false or dishonest Coin, not merely by refusing it, but by seeing that steps are taken to punish the offender, where there is proof of an offence, and by causing the withdrawal of the Coin from circulation. In fact, the practice now proposed to be enacted has been followed at the General Treasury for some years, as will be seen by the correspondence which took place in 1859: but the absence of any simple mode of determining dispute by going before a Magistrate, exposes such a course of proceeding in doubtful cases to some difficulty.

The powers conferred by the English Consolidation Act, on individuals or Police Officers to search for or bring before a Magistrate without warrant false Coin or Coin altered in composition or unlawfully diminished in weight, or gold or silver filings, bullion, or solution, the proceeds of Coin tampered with, are conferred by this Bill.

The 22nd January 1862.

From the Sub-Treasurer, Fort William, to the Secretary to the Government of India, Financial Department, No. 308, dated the 21st January 1859.

SIR,—I HAVE the honor to state that much inconvenience and risk is experienced at this Office from the constant tender of plugged and counterfeit Rupees in payment of money by the public into the General Treasury, and that as the practice of allowing such Rupees, after they have been tendered, to be returned to the holders, leads to the same base Coins being brought to the Treasury over and over again, I have the honor to solicit that you will be so good as to obtain the orders of Government, should Government consider with me that such orders are necessary, empowering the Sub-Treasurer to mutilate and divide into two all plugged and counterfeit Rupees that may be tendered in the General Treasury, in the same manner as the Collectors of Land Revenue are empowered, under the Circular of the Accountant, Revenue Department, No. 431, dated 14th July 1832, issued in compliance with the orders of the Sudder Board of Revenue, to mutilate all base Coins found in remittances from one Government Treasury to another.

2. In connection with the above subject, I have the honor to state for the consideration of Government, that a large number of light weight Rupees are in circulation in Calcutta, and which are frequently tendered by the public for payment into the General Treasury. These Coins have been either clipped or filed and silver taken from them, or, from the recent system of electro-plating, a considerable quantity of silver is extracted from Rupees by means of chemical process without this being so apparent as to admit of ready detection. Under the above circumstances, I would submit that it is desirable that the matter should receive the consideration of Government with a view to very stringent rules being enacted for the preservation of the integrity of the Coin, and the safety of the public.

No. 906, FINANCIAL DEPARTMENT, FORT WILLIAM, THE 12TH FEBRUARY 1859.

FORWARDED to the Government Solicitor, with a request that he will obtain the opinion of the Advocate-General as to what powers the law confers upon the Government in dealing with the Coins referred to by the Sub-Treasurer, and with the parties who tender them at the General Treasury.

Extract from the Opinion of the Advocate-General, dated 19th February 1859.

I THINK the law now in force in India with reference to false Coins is defective, and that application should be made to the Legislature to pass an Act corresponding in substance with the Statute 2 and 3 Wm. 4, c 34, which has never been introduced into this country, and which provides for several cases wholly omitted by the 9 Geo. 4, c 74, Sections 73, 74, and 75, and Act XXXI of 1839, the Acts now in force here with respect to offences against the Mint.

2. The Act 2 and 3 Wm. 4, c. 34, (Section 13) provides expressly for the course to be adopted with reference to Coin counterfeit, or diminished otherwise than by reasonable wearing, in the possession of innocent persons, and authorizes the Teller of Her Majesty's Exchequer and Receiver of Revenue, as well as other persons, to break and deface such Coins. Such provision, as well as that contained in Section 14, authorising the seizure of counterfeit Coin in the mode therein pointed out, would be extremely useful in this country.

* * * * * *

6. The powers of the Revenue or other Officers of Government to break up or destroy genuine Coins, which have been unlawfully tampered with, but which are presented by innocent holders, are very ill defined at common law, and special provisions for breaking up counterfeit Coin or Coin unlawfully diminished have been so often introduced by Statute,* that an inference arises that some statutory authority is necessary in order to afford a complete protection to the Officers so dealing with Coins.

* *See*
6 and 7 Wm. 3, c. 17 and 18.
8 and 9 Wm. 3., c. 26, s 5.
56 Geo. 3, c. 68, s. 17.
9 Geo. 4, c. 74 and 75
2 & 3 Wm. 4, c. 34, s. 13 & 14.

7. My own opinion certainly is that any Officer of Government to whom *counterfeit* Coin is tendered even by an innocent holder, is fully justified, without any legislative authority, in cutting or breaking in two such Coin, returning the pieces to the holder, if no suspicion attach to him, or to any one who can be traced through him.

8. But the question is more difficult as to genuine Coin which has been unlawfully tampered with I am inclined to think, however, that if such Coin has been actually "fraudulently clipped, filed, drilled, defaced, or debased," within the meaning of Act XXXI of 1839 (which would include the cases of plugging referred to by Mr. Harvey), the Government Officers would be safe in cutting or breaking in two such Coins, returning the pieces (without loss of any of the particles) to the innocent holder. I cannot see that the latter could sustain any damage that the law would recognise by the act, as he could not himself make use of the Coin as a genuine Coin after being apprised of its having been unlawfully dealt with, without a crime, and the value of the Coin for any lawful purpose would not be diminished by its being broken in two.

9. Whether the course be strictly justifiable in the present state of the law or not which is very doubtful, I strongly advise its immediate adoption at the Treasury and by all Revenue Officers, as a protection to the public against the circulation of Coin illegally depreciated, which there is a strong moral obligation on the Government to afford.

10. When the Coin has been diminished or impaired otherwise than by any of the five modes specified in Act XXXI of 1839, for example by sweating through a chemical process, which does not deface or debase the standard, much greater difficulty will exist. Where it is quite certain that the diminution is owing to some chemical or unlawful process wilfully applied, I am inclined to think the Government Officers breaking it in two will be practically safe. For any subsequent uttering such Coin with knowledge of its character would, in any view, be a misdemeanor at common law, though not a statutable offence, and therefore it is difficult to see what legal damage the innocent holder in receiving back the pieces could sustain. But extreme caution will be necessary in dealing with such cases, because if the lightening or diminution of the Coin can be attributed to fair wear and tear, or to lawful means, (the burden of negativing which would be on the Officer breaking it) I think it clear that he would be exposed to an action by the innocent holder.

Statement of Objects and Reasons.

This Bill provides for two classes of offences against the Coin for which no provision is made by the Penal Code, but which are punishable in England under the English Consolidating Act, and for which the experience of those conversant with the subject in this country, as well as my own so far as it goes, leads me to think that a punishment should be provided here.

The first is the offence of unlawfully having in possession gold or silver filings or clippings, or gold or silver in solution, bullion, or otherwise, produced by diminishing or lightening genuine Coin, with the knowledge that such gold or silver was so produced.

The Penal Code contains provisions dealing with the analogous case of unlawful possession of coining instruments used as dies, &c., and it was possibly thought that the possession of the proceeds of Coin illegally impaired, would be evidence of the offence of having impaired the Coin, or of having abetted such offence, and consequently that it was not necessary to treat it as a substantive offence. Cases, however, may arise in which no moral doubt can exist of the guilt of the person found in possession of such filings or proceeds of Coin, and yet where it might be impossible to convict of any of the offences specified in the Code: and the same reasons which have long existed in England for making the possession with guilty knowledge a substantive offence exist also, perhaps still more strongly, in India. Where there is reason to suppose that the actual lightening of the Coin has been effected by one man who has brought the proceeds in the shape of filings or solution to another for sale or deposit, the possession, with guilty knowledge by the defendant, is analogous in regard to the original offence against the Coin to that of the receiver of stolen goods in regard to the original theft. Both are equally principals in crime, and the receiver is treated as a substantive offender, being generally thought a far more dangerous culprit than the man who committed the original offence.

This offence is punishable by the present Bill with imprisonment for three years, or, when the Coin defaced is a Queen's Coin, the offender is, in accordance with the principle of the Penal Code, visited with a heavier punishment extending to five years.

The second class of cases provided for by the present Bill is that of mere possession, without lawful authority or excuse, of more than a certain number of pieces of counterfeit Coin, or Coin unlawfully altered or diminished, which is rendered punishable on summary conviction before a Magistrate by fine not exceeding forty Rupees nor less than ten Rupees for each Coin, besides forfeiture of the Coin. A similar provision is still in force in the Presidency Towns, and upon charges against European British subjects throughout India, in regard to counterfeit Coin, under the 75th Section of the 9 Geo. 4, c. 74, and has been found extremely useful in practice. The punishment

being that of fine only, the burden of proving the lawful excuse or authority is thrown upon the defendant; and I have known cases of large seizures of Coin in which it would have been impossible under the ordinary criminal law to bring home an offence to the person in actual possession, but in which on his failure to prove a justification, forfeiture of the Coin and a heavy fine were enforced against him.

A similar provision exists in England in respect to the coinage of any Foreign State; and there is, I apprehend, fully as much reason for retaining the provision in India as applicable to counterfeit Coin generally, as there was in originally introducing it in 1828.

24 and 25 Vic., c. 99, s. 23.

I propose extending this provision to India generally. I also propose extending it not only to counterfeit Coin generally, but to all Coin on which any unlawful operation of impairing or diminishing has been performed. No solid ground of distinction seems to exist between the two classes of cases when once it appears that the impairing of the Coin in the latter case is the result not of fair wear and use but of a criminal operation performed on it.

I. The authority hitherto exercised by the Sheriff of Calcutta over that part of the Great Jail which is termed the House of Correction shall henceforth cease and determine; and the whole authority over the House of Correction and the prisoners confined therein is hereby vested in the Commissioner of Police for Calcutta, or in such other Officer as the Government may from time to time appoint.

Provided that no person shall be detained in prison under the provisions of this Act beyond the term of his original sentence.

Proviso

Register of persons punished.

A Register of all persons punished under this Act shall be regularly kept by the Officer in whom the control of the House of Correction shall be vested and shall be forwarded to Government once a month.

Powers specified in Section II vested in the Sheriff, or the Jailor as regards the Great Jail.

III. The powers entrusted by the preceding Section of this Act to the Officer in whom the control of the House of Correction may be vested are hereby extended to the Sheriff of Calcutta for the time being as regards criminal prisoners in that part of the Great Jail which will remain under the control of the Sheriff. In the case of mutinous or violent conduct, or where it may be necessary in order to prevent an outbreak, the Jailor shall exercise, within that part of the Great Jail which shall remain under the control of the Sheriff, the powers laid down in the preceding Section of this Act. Provided that the Jailor shall, within twenty-four hours of the exercise thereof, report every instance in which he shall exercise such powers to the Sheriff, and the Sheriff shall have power to annul or alter the order as he may think fit. The Sheriff shall be bound to keep up a Register similar to that mentioned in the preceding Section of this Act.

Certain prisoners may be ironed during removal to place of embarkation.

IV. It shall be lawful for the Jailor, or for the Keeper of the House of Correction, to cause any prisoner sentenced to transportation or penal servitude to be put in irons when it may be necessary to do so for the safe removal of such prisoner from the Jail to the place of embarkation.

Government to frame Rules for proper discipline of prisoners.

V. The Government is hereby authorized from time to time to frame rules for the proper discipline of prisoners in the House of Correction, and of Criminal prisoners within that part of the Great Jail which will remain under the Control of the Sheriff, with regard to their food, dress, hours of recreation and work, labor, classification, instruction, and all points in any way concerning the regularity and order of the said House of Correction and of such criminal prisoners as aforesaid.

Rules to be applicable to all persons confined in the House of Correction or Great Jail, under criminal sentence or awaiting trial.

VI. These rules shall be applicable to all persons confined in any part of the said Great Jail or House Correction under any judicial criminal sentence, whether such persons be confined there for the whole or for a part of their term of imprisonment, or be merely placed temporarily there pending their removal elsewhere, and also to persons awaiting their trial.

Saving of power of Sheriff to remove prisoners sentenced to death to the Great Jail, &c.

VII. Should any person under sentence of death be at any time confined in the House of Correction, the power of the Sheriff to remove the prisoner to that part of the Great Jail which will remain under the custody of

the Sheriff, or to such other place as may from time to time be fixed on as the place of execution, and to execute that sentence of death, shall not in any wise be affected by this Act.

Visiting Magistrates to be appointed.

VIII. The Magistrates of Police for the Town of Calcutta for the time being appointed under Act XIII of 1856 shall on the 1st day of June next after the passing of this Act and on the 1st day of June in every subsequent year, meet at the Calcutta Police Court for the purpose of nominating, and shall then and there nominate two or more of their number who shall consent thereto, to be Visitors of the said Great Jail and House of Correction. One or more of such Visiting Magistrates so nominated shall personally visit and inspect the said Great Jail and House of Correction at least three times in each quarter of a year, and oftener if occasion shall require, and shall examine into the state of the buildings so as to form a judgment as to any alterations or additions which may appear necessary, and into the behaviour and conduct of the Officers of the said Great Jail and House of Correction, and the treatment, behaviour, and condition of the criminal prisoners confined therein.

Visiting Magistrates to make quarterly reports to Government.

IX. The Visiting Magistrates for the time being shall once in every quarter of a year make a report in writing to the Government, through the Sheriff and the Officer in whom the control of the House of Correction shall be vested respectively, of the state of the said Great Jail and House of Correction, of what additions or alterations are required or shall have been made therein, of any abuses which have come to their knowledge in the management of the criminal prisoners, and of the general state of such prisoners as to discipline, employment, instruction, hard labor, and observance of rules.

Visiting Magistrates to investigate and punish certain offences.

X. In case any criminal prisoner within the said Great Jail or House of Correction shall be guilty of any repeated offence under Section II of this Act or against the rules to be passed under this Act, or of any greater offence than is punishable under the said Section II of this Act, the Sheriff or Officer for the time being having control of the House of Correction, as the case may be, may notify the same to the Visiting Magistrates for the time being. Such Visiting Magistrates shall thereupon have power and are required to attend at the Great Jail, or House of Correction as the case may be, and enquire upon oath and determine concerning the matter so reported, and to order the offender to be punished by separate confinement for any term not exceeding one calendar month of which six days may be ordered to be solitary confinement in periods of not more than three days each.

Punishment for taking or attempting to take prohibited articles into the Great Jail.

XI. Whoever without due permission takes or attempts to take or throws into any part of the said Great Jail any food or other article prohibited by the rules to be passed under this Act, shall be liable to be apprehended and brought before any Police Magistrate for the Town of Calcutta, and on conviction shall be liable to a fine not exceeding fifty Rupees, or to imprisonment with or without hard labor for any term not exceeding two months.

A Bill to repeal Section XXX of Regulation II. 1819 (for modifying the provisions contained in the existing Regulations regarding the resumption of the revenue of lands held free of assessment under illegal or invalid tenures, and for defining the right of Government to the revenue of lands not included within the limits of estates for which a settlement has been made.)

Preamble.

WHEREAS by Section XXX of Regulation II. 1819, it is enacted that certain suits preferred in a Court of Judicature regarding lands held, or claimed to be held, free of assessment, shall be referred for investigation to the Collector, and that similar suits may be preferred in the first instance to the Collector; and whereas such reference of suits is unnecessary and causes inconvenience and delay in their decision, and it is advisable that such suits should be preferred and disposed of exclusively in the ordinary Courts of Civil Judicature; It is enacted as follows:—

Section XXX of Regulation II. 1819, repealed.

I. Within the Provinces subject to the Government of Bengal, Section XXX of Regulation II. 1819 is hereby repealed, except as regards such suits decided by Collectors under the provisions of that Section as may be open to appeal at the date of the passing of this Act.

Suits for resumption of lands free of assessment to be tried in the ordinary Civil Courts: so also claims to hold land free of assessment.

II. All suits preferred by proprietors, farmers, or talookdars, to resume the revenue of any land held free of assessment, as well as all suits preferred by individuals claiming to hold land exempt from the payment of revenue, shall be instituted, heard, and determined in and by the Courts of Civil Judicature, like ordinary civil suits, and under the rules and subject to all the provisions contained in Act VIII of 1859 *(for simplifying the Procedure of the Courts of Civil Judicature not established by Royal Charter)* and not otherwise.

Suits under Section XXX of Regulation II. 1819 pending before Collectors, to be transferred to the Civil Courts.

III. This Act shall apply to all suits commenced under Section XXX of Regulation II. 1819, and pending decision under that Section in any Court (other than a Court to which such suit has come by way of appeal) or before any Collector at the time of the passing of this Act. All Collectors shall forthwith transfer to the ordinary Courts of Civil Judicature all such suits, whether originally instituted before them, or referred to them by the

Civil Courts, as may be pending before them at the time of the passing of this Act; and all suits so transferred shall be heard and determined as provided for by this Act, and not otherwise.

This Act not to invalidate proceedings, &c., under Section XXX of Regulation II. 1819, and transfer of suit to Civil Court not to alter effect of proceedings previously had.

IV. This Act shall not in any way invalidate or alter the effect of any thing which shall have been done in any suit prior to the passing of this Act: and all proceedings which prior to the transfer of any suit shall have been held, or shall have taken place under, or in accordance with the provisions of Section XXX of Regulation II. 1819, shall be taken, and shall have effect, so far as circumstances will permit, as if the same had been held or had taken place in due course in the Court to which the suit shall be transferred.

VICTORIA R.

27 / Genl. No. / 1312.

WHEREAS it has been represented to Us that it is expedient to cancel that part of the 27th Clause of the Pension Regulations in Our Royal Warrant of the 1st July 1848, which prescribes the conditions under which a discharged Limited Service Soldier shall be permitted, on re-enlistment, to reckon his former service: Our will and pleasure is, that instead of the before-mentioned conditions, which are hereby cancelled, any Soldier who has been, or shall hereafter be, enlisted for Limited Service, and shall hereafter be discharged before or after the expiration of the first period of service, and shall be permitted to re-engage or again enlist within twelve months from the date of his discharge, shall be allowed, under Clauses 4 and 5 of the Regulations and restrictions hereunto annexed, or such others as shall from time to time be established by Our Secretary of State for War, and the General Commanding-in-Chief of Our Army, to reckon half the period of his former service towards his future claim to Pension.

Given at Our Court at St. James', this thirtieth day of October 1861, in the twenty-fifth year of Our Reign.

By Her Majesty's Command,

G. C. LEWIS.

REGULATIONS TO BE ANNEXED TO THE ROYAL WARRANT OF 30TH OCTOBER 1861, CIRCULAR No. 722.

27 / Genl. No. / 1312

1. WITH a view to give full effect to the provisions of the Limited Enlistment Act, and at the same time to hold out every encouragement to time-expired Soldiers of good character to continue in the Service, it is hereby notified that, in addition to the privilege of being permitted, on re-engagement, to count the full period of their first term of service towards increase of Good-Conduct Pay, and to Pension on discharge, and of receiving a fresh Bounty, as well as the regulated allowance in lieu of a free Kit, and an allowance of one shilling a day for twenty days; men who re-engage at the Head-Quarters of their Regiment for a second term of service, will be granted a Furlough, if serving at Home, for a period of two months, commencing from the date of re-engagement; and if serving at either of the Stations named in the margin, will be provided with a free passage to this country at a convenient opportunity, at the discretion of the Commanding Officer, and a Furlough for two months, commencing from the date of their arrival in the United Kingdom. They will also be provided with a free passage back to their Regiments, unless directed to join the Depôts thereof at the termination of their Furloughs.

Gibraltar, Malta, Ionian Islands.

2. Soldiers, who at the time of their re-engagement may be serving in India, China, Ceylon, the

Mauritius, Australia, or New Zealand will be allowed £5, and those serving in Canada, at the Cape of Good Hope, at St. Helena, and in the West Indies £3, in addition to the usual Bounty, as an equivalent for the Furlough granted to re-engaged men serving at other Foreign Stations and at Home.

3. The Secretary of State also deems it expedient to point out, that although the re-enlistment of Limited Service Soldiers at any period within two years from date of discharge has been especially permitted under Clause 27 of the Pension Regulations in the Royal Warrant of the 1st July 1848, the Limited Enlistment Act does not contemplate such a proceeding; it is, therefore, to be understood that the system which has hitherto prevailed will be discontinued, (except as specially provided in Clause 6,) and in lieu thereof the following will be adopted, *viz.*:—

4. Soldiers who may hereafter be discharged after the completion of the first term of Limited Service will, if of good character and in possession at the time of their discharge of a Good-Conduct Badge or Badges, be permitted, as an indulgence to re-engage within twelve months from the date of their discharge, provided those who had previously served in the Infantry are not above thirty-two years of age, and those in the Cavalry, Artillery, and Engineers not above thirty-four years of age at the time of their re-engagement; but men re-engaging under this arrangement will only be allowed to count half the period of their former service towards claims to Pensions, and must be recommended for that indulgence by their Commanding Officers on account of good conduct at the expiration of one year from date of re-engagement; they must also at the time of re-engagement declare the period of their former service, and cause of discharge from their last Corps. They will, however, be allowed to reckon the whole of their previous service towards Good-Conduct Pay, but will be required to serve for one year with uninterrupted good conduct from date of re-engagement before they can be permitted to resume their previous Good-Conduct Badges, when they will, on the recommendation of their Commanding Officers, be entitled to receive Good-Conduct Pay from the date of their re-engagement.

5. Soldiers of good character who may hereafter be discharged, on reduction or on account of disability, or by purchase, &c., during the first term of Limited Service, and who may again enlist within twelve months from the date of discharge, will be allowed the benefit of the preceding provision for reckoning former service, and resuming former Good-Conduct Pay.

6. Limited Service Soldiers who may have already taken their discharges prior to the publication of the Warrant hereto annexed, and shall re-engage subsequently to such publication, will be allowed, in conformity with the Regulations in force at the time of their discharge, the whole of previous service towards pension, provided they re engage within two years from date of discharge, and are specially recommended for this indulgence after not less than six months' renewed service.

WAR OFFICE,
The 30th October 1861.

No. 261 of 1862.—The undermentioned Officer is permitted to proceed to Europe on leave of absence on Sick Certificate:—

Major Ralph Thorpe, of the Invalid Establishment ...	For eighteen months, under the new Regulations

---

No. 262 of 1862.—In continuation of Government General Order No. 125 of the 4th February, 1862, His Excellency the Governor General in Council is pleased to publish, for general information, the following observations by the Right Hon'ble the Secretary of State for India on Answers given by the Government of India to Questions connected with the late changes in the Indian Army, and published in Government General Order No. 913 of the 11th October 1861:—

Questions.	Answers by Government of India.	Remarks.
114. With reference to the reply to Question 83, published in Government General Order No. 681, in which it is stated that "all authorized leave" will reckon towards promotion under the Staff Warrant, inquiry is made if by "authorized leave" only two years in twenty, &c., is intended? The Officer has had only about one and three quarter years' leave in sixteen years' service; but sickness may send him home. Suppose under the circumstances he was obliged to spend eighteen months at home, would all in excess of two years count against him for his promotion to a Majority? If it would not count against him for promotion, what is intended by the term "authorized leave"?	114. No leave, except privilege leave, is to reckon towards promotion, except in the case of Lieutenant-Colonels. See Despatch from Secretary of State, No. 315, published in General Order No. 824, dated 17th September 1861. The Answer to Question 83, in which these words occur, has been cancelled by the Despatch above quoted.	114. If the question alludes to the time reckoned as Staff Service for promotion the reply is correct.

Questions.	Answers by Government of India.	Remarks.
118. By Government General Order No. 332, there is no rank recognized in the Staff Corps between that of General Officer on Rupees 1,295 a month, and Lieutenant-Colonel on Rupees 527-14, but that of Brevet-Colonel, the pay of which is the same as that of Lieutenant-Colonel. The Bombay Goverment ask whether an Officer of the Staff Corps, not being a General Officer, on obtaining the Colonel's allowance would receive only Lieutenant-Colonel's pay, with Colonel's allowance, or Colonel's pay as well as allowance, notwithstanding that there is no substantive rank of Colonel in the Staff Corps ?	118. No instructions have been received from the Secretary of State respecting Colonel's allowances in the Staff Corps.	118. An Officer of the Staff Corps, not being a General Officer, on obtaining Colonel's allowance would receive Lieutenant-Colonel's pay with the Colonel's allowance.

Government of India.

Abstract of the Proceedings of the Council of the Governor General of India assembled for the purpose of making Laws and Regulations under the provisions of the Act of Parliament 24 and 25 Vic., c 67

The Council met at Government House on Wednesday, the 5th March 1862.

Present :

His Excellency the Viceroy and Governor-General of India, *presiding.*
His Honor the Lieutenant-Governor of Bengal.
His Highness the Maharajah of Puttiala, K. S. I.
The Hon'ble Sir H. B. E. Frere, K. C. B.
The Hon'ble Cecil Beadon.
The Hon'ble S. Laing.
The Hon'ble W. Ritchie.
The Hon'ble H. B Harington.
The Hon'ble H. Forbes.
The Hon'ble C. J. Erskine.
The Hon'ble W. S. Fitzwilliam.
The Hon'ble D. Cowie.
The Hon'ble Rajah Deo Narain Singh Bahadoor.
The Hon'ble Rajah Dinkar Rao Rugonauth Bahadoor.

The Hon'ble Mr. Ritchie presented the Report of the Select Committee on the Bill to amend Act XLVI of 1860 (to authorize and regulate the emigration of Native Laborers to the French Colonies.)

The Hon'ble Mr. Beadon introduced the Bill to provide for the service of legal process issued against His Majesty the King of Oude, and for taking the examination of His said Majesty when required as a witness, and moved that it be referred to a Select Committee, with instructions to report in a fortnight.

The Motion was put and agreed to.

The Hon'ble Mr. Ritchie introduced the Bill for the better protection of the public against bad Coin, and moved that it be referred to a Seclect Committee.

The Hon'ble Rajah Dinkar Rao said that he did not think that this Bill should be passed, because it was improper not to restore the metal after the Coin had been reduced to the metallic state. The Bill provided that, if it was suspected that a man was knowingly in possession of counterfeit Coin, his case might be sent to a Magistrate. But it was difficult to determine whether the Coin was kept with a guilty knowledge, and he thought that the existing law for restoring debased Coin after it was reduced to metal was sufficient. The Penal Code already provided for offences respecting the Coin, and he thought it undesirable to legislate further on the subject when that Code had only been in operation for two months.

The Hon'ble Rajah Deo Narain Singh said that he thought the Bill unobjectionable, except in respect of an ambiguity in the wording of Section II. That Section left it open to doubt whether the unlawful possession of silver and gold filings, &c, was to be considered proved, and to entail their forfeiture when such filings, &c, were found alone, or only when they were found together with the instruments used in obtaining them, or instruments for making counterfeit Coin. He would suggest that such forfeiture should only occur, and the possessors of such filings should only be liable to conviction, when they were found together with such instruments.

The Hon'ble Mr. Ritchie said that the objections of the Rajah Dinkar Rao did not touch the

principle of the Bill. It was undesirable that the law here should deal more tenderly with the offence contemplated than the English law did. The principle was that every person should be entitled to receive back metal, of which counterfeit Coin consisted, if he could give a satisfactory explanation of the mode in which such Coin came into his possession. The Rajah was mistaken in supposing that the law at present authorized the breaking up of bad Coin. There was considerable doubt upon the subject, and the object of the Bill was to reduce the law on the subject to a certainty. The suggestion of the Rajah Deo Narain Singh was entitled to much consideration, and might properly be submitted to the Select Committee.

The Motion was put and agreed to.

The Hon'ble MR. RITCHIE introduced the Bill to amend Chapter XII of the Indian Penal Code and to provide for certain offences against the Coin, and moved that it be referred to a Select Committee.

The Hon'ble MR. HARINGTON said that he was compelled on this occasion, as he had been on the introduction of Mr. Beadon's Bill to provide for the punishment of whipping, to object to the form of the Bill. The present Bill he considered even more objectionable inasmuch as it mixed up substantive Criminal Law, Criminal Procedure, and provided new laws for the Straits' Settlement. At the least he considered that there should be two Bills, one to amend the Penal Code, and the other to amend the Code of Criminal Procedure. Great advantages had been conferred on the public during the administration of the present Governor-General by the passing of many Acts complete in themselves, which swept away a number of previous Regulations in which various provisions were combined in an indiscriminate mass. The good thus effected should not be undone, and the Council should be careful not to drift back to the confused legislation of former days. Turning from the form to the substance of the Bill, he enquired if the Penal Code, which had been for twenty-five years under the consideration of so many able jurists, had omitted by accident the provision contained in the second Clause of Section I of this Bill? He must reject that supposition, and conclude that the subject had been considered, and that it had been decided to omit the provision. Turning to the original Code, he found that his conjecture was correct. In their Note to the Chapter relating to Coin he found the following observations by the Law Commissioners: —

"We considered whether it would be advisable to make it an offence in a person to have in his possession at one time a certain number of counterfeit Coins without being able to explain satisfactorily how he came by them. It did not, after much discussion, appear to us advisable to recommend this or any similar provision. We entertain strong objections to the practice of making circumstances which are in truth only evidence of an offence part of a definition of an offence; nor do we see any reason for departing in this case from our general rule.

"Whether a person who is possessed of bad money knows the money to be bad, and whether, knowing it to be bad, he intends to put it into circulation, are questions to be decided by the tribunals according to the circumstances of the case, circumstances of which the mere number of the pieces is only one, and may be one of the least important. A few bad Rupees which should evidently be fresh from the stamp would be stronger evidence than a greater number of bad Rupees which appeared to have been in circulation for years. A few bad Rupees, all obviously coined with the same die, would be stronger evidence than a greater number obviously coined with different dies. A few bad Rupees placed by themselves, and unmixed with good ones, would be far stronger evidence than a much larger number which might be detected in a large mass of treasure."

These remarks applied especially to the offence in Clause 2 of Section I, but they also bore on the offence in Clause 1. He would not contend that the Penal Code was perfect. But looking to the time it had occupied, the care bestowed on it, the ability of the men engaged on it, and the short time, not amounting to three months, in which it had been in operation, he thought it was premature to add to it provisions which had been deliberately omitted by the framers. The Penal Code, as it stood, contained several provisions with respect to the possession of counterfeit Coin, and he believed that those provisions were sufficient to protect the public. The additions proposed by Mr. Beadon's Bill stood on a different footing. They were embodied in the Penal Code as amended by the Select Committee, and were taken out of it to be embodied in a separate Bill and separately considered, in order to prevent delay in the passing of the Code.

The Hon'ble RAJAH DINKAR RAO said that he objected to this Bill because he thought that the new offences enumerated in it would be difficult to be brought home to the offender, and the law, therefore, would be the case, of oppression to the people. The subject of this Bill had already been treated in the Penal Code, and that Code had only been two months in operation.

The Hon'ble MR. ERSKINE stated that he recognized the weight of many of the remarks made by Mr. Harington, and his attention also had been arrested by the Note of the Law Commissioners in the Penal Code. Mr. Harrington's objection extended to both Clauses of the 1st Section. But he did think that in the Penal Code there was a deficiency. Its provisions only extended to materials with which an offence was hereafter to be committed, but there was no provision in respect of materials with which an offence had already been committed. The case was analogous to that of the possession of stolen property. A case might arise in which a person made a trade of receiving filings from Coin; but it was doubtful if this was a matter of sufficient importance to warrant an amendment of the Penal Code. He could not at all assent to the second Clause of Section I, and entirely concurred with the Note in the Penal Code on the subject. It might not be an offence to receive the Coin or to retain it, and it was admitted that it might be right to give the possessor the material, of which the Coin he had incautiously received, consisted. Many Coins might be received in the course of a single forenoon over the counter by a large tradesman who could not prove that he had exercised caution in examining them. The provisions of the Bill respecting Procedure were very questionable. It would be well for the Council to consider how far it should legislate at all on Procedure which could be provided for by the Local Legislatures The Penal Code stood on a different footing. That Code could not be amended without the sanction of the Governor-General. But the Procedure Code might be modified by the Local Legislatures to meet the requirements of other Presidencies;

and already two Bills had been introduced into the Bombay Legislature which did affect Procedure. Section IV of this Bill provided that the offences specified in the Bill should be tried under the provisions of the Code of Criminal Procedure. But a Local Legislature might desire to modify that Code, but would be prevented from doing so by its inability to amend this Act of the Council of the Governor-General. He thought that, if they passed a Bill thus settling the Procedure, it should be restricted to those Territories in which there were no Local Legislatures.

The Hon'ble RAJAH DEO NARAIN said that he was unable to see any special cause for the proposed amendments of the Penal Code. Amendments should only be made when a law had been proved defective in practice. Sufficient time had not yet elapsed to test the Penal Code. The proposed new Section 254*a* would entail great suffering on the public, as persons innocently in possession of Coin which had been diminished in weight would be liable to punishment. A man cutting a goldmohur in halves, using one-half for an ornament, and keeping the other, would be liable to be prosecuted, though his intentions were innocent. Section 254*b* would render the possessor of five or more Coins which had been diminished in weight liable to punishment. But it appeared to him that it would be very difficult to prove whether Coin had become lighter by fair or by foul means, for Coin was constantly changing hands, and was necessarily becoming worn. Or a servant or enemy might maliciously place five false or light Coins in a larger sum in order to get the owner convicted of an offence. In his opinion it was sufficient to provide that false or light Coin should be cut or broken, as ample punishments had been provided by the Penal Code.

The Hon'ble SIR BARTLE FRERE said that, with respect to the first offence provided under Section I, he thought that it stood on the same footing as the receipt of stolen goods, and therefore it might be necessary to provide for it if no adequate provision yet existed. As to the second offence he concurred with Mr. Erskine. It appeared to him that it might be well, instead of providing for the possession of counterfeit Coin without lawful excuse, which it would be the duty of the possessor to offer, to provide for the possession of such Coin under circumstances that raised the suspicion that it had not been received *bonâ fide*, or that it was intended to make unlawful use of it. He also agreed with the Rajahs Dinkar Rao and Deo Narain that it was undesirable to alter the Penal Code prematurely. But he could not go so far as Mr. Harington. He should be glad to see a case made out of practical inconvenience, such as existed in the former case that had been before the Council.

The Hon'ble MR. RITCHIE admitted the force of the objection to amendments of the Penal Code at the present time. But it did not appear to be sufficient to prevent the Council acting in a case like that before it. Mr Harington argued as if the whole subject of offences relating to the Coin had been considered by the Law Commissioners and exhausted in Chapter XII of the Penal Code. If that were the case, no further action should be taken until some practical inconvenience arose. But he believed that such was not the case, and that the law in the Penal Code differed from that previously administered, and from the law in England, and that those who had principally to watch offences relating to the Coin found it to be insufficient. There was a law for the local jurisdictions of the Supreme Court making the possession of counterfeit Coin an offence that might be summarily punished. That offence was punishable with fine and forfeiture of the Coin, and it had enabled Magistrates to deal with such cases as the seizure of large numbers, amounting to 2,000 and 2,500 counterfeit Goldmohurs and of counterfeit Rupees, under circumstances which did not admit of any offence being brought home in the ordinary manner to any particular individual. If the law were to enable an offender in such cases to defeat a prosecution simply by holding his peace and putting his accuser to the proof, there would be no remedy at all. When the punishment was simply a fine, there was nothing revolting to the feelings in calling on the accused for an explanation if such a foundation of suspicion existed as his possession of more than a certain number of counterfeit Coins. He regretted to differ on such a question from the framers of the Penal Code, but it had recently been re-considered at home, and provisions similar to those of this Bill had been embodied in the Act of last year. The framers of the Penal Code probably considered the subject merely generally, and not as it would be considered specially by those who had much to do with the public Coin, or had frequent opportunities of discovering the circulation of counterfeit Coin. With respects to the form of the Bill, he proposed, in Select Committee, to consider generally the best mode of making amendments in the Penal Code and the Code of Criminal Procedure. He admitted that it was undesirable to mix up Procedure and Substantive Law, but in some cases it was difficult to sever them, and the mode of proceeding resolved itself into a question of convenience. He had already divided the new law of Coinage into two Bills; but if further separation were necessary, the present Bill must be divided into three, namely, for the Criminal Law, the Criminal Procedure, and the law for the Straits' Settlements, but it was very desirable to avoid the unnecessary multiplication of Acts.

The Motion was put and agreed to

The Hon'ble MR. RITCHIE moved for leave to bring in a Bill to provide for the dissolution of the Subordinate Medical Officers', Widows', and Orphans' Fund, and the distribution of the Funds belonging thereto. He stated that the Society which it was intended to dissolve had been established by the Subordinate Medical Officers of Government in 1851, at Ferozepore, the object being to provide for their Widows and Orphans, and the pensions were to be payable out of the interest on the Capital. But during the Mutiny all subscriptions stopped, and the affairs of the Society fell into so much confusion, that it was now necessary to afford relief by winding up the affairs through the medium of the Supreme Court in the manner adopted in 1856 in the case of the Bengal Mariners' and General Widows' Fund.

The Motion was put and agreed to.

The Hon'ble MR. BEADON moved that a Select Committee be appointed to consider all proposals that might be made to alter or amend the Rules for the conduct of business, and that the

Committee consist of the President, Mr. Ritchie, and Mr. Harington. He stated that there was such a Committee in the late Legislative Council, by whom all proposals for the amendment of the Standing Orders were considered prior to their introduction to the Council.

The Motion was put and agreed to.

The Hon'ble Mr. Ritchie presented a Petition from Monsieur Gustave Pietsch, Manager of the Comptoir d'escompte of Paris, which had established a Branch in Calcutta, and moved that it be referred to a Select Committee.

His Honor the Lieutenant-Governor suggested that no business could be transacted at a Meeting of Council, except in the passing of Rules, or the making of Laws and Regulations, and that this Petition did not appear to fall under either head.

His Excellency the President concurred with His Honor, and the Motion was withdrawn.

The following Select Committees were named:—

On the Bill to provide for the service of legal process issued against His Majesty the King of Oude, and for taking the examination of His said Majesty—the Hon'ble Messrs. Beadon, Ritchie, Forbes, and Erskine.

On the Bill for the better protection of the public against bad Coin—the Hon'ble Messrs. Ritchie, Harington, Erskine, Fitzwilliam, and Cowie.

On the Bill to amend Chapter XII of the Indian Penal Code and to provide for certain offences against the Coin—the Hon'ble Messrs. Ritchie, Harington, Erskine, Fitzwilliam, and Cowie.

The Council adjourned till Wednesday, the 12th instant, at 11 A. M.

Foreign Department.

Abolition of duty on Cotton in the Gwalior Territory.

From Major R. J. Meade, Agent to the Governor-General for Central India, to Colonel H. M. Durand, C. B., Officiating Secretary to the Government of India, Foreign Department,—(dated Camp Duttia, the 22nd February 1862.)

Sir,—I have the honor to forward herewith, for submission to His Excellency the Governor General of India, a Khureeta from Maharajah Scindia to His Excellency's address, intimating that he has abolished the duty on Cotton within his Territory, and has taken measures to remove all existing obstructions to the passage of this article through the Gwalior State.

2. I have, at various times within the last year, had conversations with the Maharajah on this subject, but His Highness could not hitherto make up his mind to the sacrifice of so large an item of Revenue.

That he has now done so, will, I trust, be a subject of satisfaction to the Governor-General.

3. An English translation of the Khureeta is also enclosed.

Translation of a letter from His Highness Maharajah Scindia, to His Excellency the Governor-General of India,—(dated the 18th February 1862.)

After Compliments,—Whereas the prosperity and convenience of the people in general are objects which I ever keep sincerely in view, and whereas to afford facility to trade and communication I had, in 1856, the pleasure of remitting transit duties on the three roads in my Territory leading to Etawah, Furruckabad, and over the Sindh River, Notifications of which were then issued throughout my Dominions, and information of the same conveyed, through Sir Robert Hamilton, the late Agent, Governor-General for Central India, to your Excellency, who was pleased to acknowledge the same in your letter to me dated 28th July 1856, I have now had under consideration the remission of transit duties on the staple article of Cotton, with a view to increase the trade of that article and to meet the increasing demand for it in England, and also in the hope that I shall thereby give satisfaction to your Excellency.

The carrying out of the measure will involve a loss of Revenue of about fifty thousand Rupees annually; but influenced by the abovementioned motives, I have decided to instruct my local authorities in no way to obstruct or interfere with the passage of Cotton, "duty free," within my Territory.

Agent, Governor-General for Central India.

From the Governor-General, to Mookter ool Moolk Umdatul Umra Alijah Maharajah Dheeraj Jyajee Rao Scindia Sreenath Bahadoor Munsoor Zuman, Knight of the Most Exalted Order of the Star of India, Gwalior,—(dated Fort William, the 4th March 1862.)

My honored and valued Friend,—I have received your Highness' letter of the 18th of February, informing me that, influenced by the desire to increase the trade in Cotton and to meet the demand for it in England, your Highness has remitted the transit duties on that article within your Territory at a loss of about fifty thousand Rupees to your Revenues, and that the passage of Cotton through the Gwalior State will henceforward be free of duty.

Your Highness has rightly judged that this measure would give me satisfaction. I hear of it with the greatest pleasure, and I beg your Highness to accept my sincere thanks and congratulations upon this new proof of your Highness' determination to rule your Country in a liberal and enlightened spirit.

I beg to express the high consideration I entertain for your Highness, and to subscribe myself,

Your Highness' Sincere Friend,

2. I transmit to you at the same time copy of a letter from Her Majesty's Principal Secretary of State for Foreign Affairs respecting the Rules to be observed during the existing hostilities between the United States and the States calling themselves the Confederate States of America, and I have to desire that you will issue orders in conformity thereto as regards the Ports of India.

I have the honor to be, &c.,

Foreign Office,

January 31*st*, 1862.

To the Right Hon'ble Sir Charles Wood, *Bart.*, G. C. B., &c., &c, &c.

Sir,

Her Majesty being fully determined to observe the duties of Neutrality during the existing hostilities between the United States and the States calling themselves the Confederate States of America, and being moreover resolved to prevent, as far as possible, the use of Her Majesty's Harbours, Ports, and Coasts, and the Waters within Her Majesty's jurisdiction in aid of the warlike purposes of either Belligerent has commanded me to communicate to you for your guidance the following Rules which are to be treated and enforced as Her Majesty's orders and directions. Her Majesty is pleased further to command that these Rules shall be put in force in the United Kingdom and in the Channel Islands on and after Thursday, the sixth day of February next, and in Her Majesty's Territories and Possessions beyond the Seas six days after the day when the Governor or other chief Authority of each of such Territories or Possessions, respectively, shall have notified and published the same, stating in such Notification that the said Rules are to be obeyed by all persons within the same Territories and Possessions.

1. During the continuance of the present hostilities between the Government of the United States of North America and the States calling themselves the "Confederate States of America," or until Her Majesty shall otherwise order, no Ship of War or Privateer belonging to either of the Belligerents shall be permitted to enter or remain in the Port of Nassau, or in other Port, Roadstead, or Waters of the Bahama Islands, except by special leave of the Lieutenant-Governor of the Bahama Islands, or in case of stress of weather. If any such Vessel should enter any such Port, Roadstead, or Waters, by special leave, or under stress of weather, the Authorities of the place shall require her to put to Sea as soon as possible, without permitting her to take in any supplies beyond what may be necessary for her immediate use.

If, at the time when this order is first notified in the Bahama Islands, there shall be any such Vessel already within any Port, Roadstead, or Waters of those Islands, the Lieutenant-Governor shall give notice to such Vessel to depart, and shall require her to put to Sea within such time as he shall under the circumstances consider proper and reasonable. If there shall then be Ships of War or Privateers belonging to both the said Belligerents within the territorial jurisdiction of Her Majesty, in or near the same Port, Roadstead, or Waters, the Lieutenant-Governor shall fix the order of time in which such Vessels shall depart. No such Vessel of either Belligerent shall be permitted to put to Sea until after the expiration of at least twenty-four hours from the time when the last preceding Vessel of the other Belligerent (whether the same shall be a Ship of War, or Privateer, or Merchant Ship), which shall have left the same Port, Roadstead, or Waters, adjacent thereto, shall have passed beyond the territorial jurisdiction of Her Majesty.

2. During the continuance of the present hostilities between the Government of the United States of North America and the States calling themselves the Confederate States of America, all Ships of War and Privateers of either Belligerent are prohibited from making use of any Port or Roadstead

in the United Kingdom of Great Britain and Ireland or in the Channel Islands, or in any of Her Majesty's Colonies or Foreign Possessions or Dependencies, or of any Waters subject to the territorial jurisdiction of the British Crown, as a station or place of resort for any warlike purpose, or for the purpose of obtaining any facilities of warlike equipment; and no Ship of War or Privateer of either Belligerent shall hereafter be permitted to sail out of or leave any Port, Roadstead, or Waters subject to British jurisdiction from which any Vessel of the other Belligerent (whether the same Ship be a Ship of War, a Privateer, or a Merchant Ship) shall have previously departed until after the expiration of at least twenty-four hours from the departure of such last mentioned Vessel beyond the territorial jurisdiction of Her Majesty.

3. If any Ship of War or Privateer of either Belligerent shall after the time when this order shall be first notified and put in force in the United Kingdom in the Channel Islands and in the several Colonies and Foreign Possessions and Dependencies of Her Majesty respectively, enter any Port, Roadstead, or Waters belonging to Her Majesty either in the United Kingdom, or in the Channel Islands, or in any of Her Majesty's Colonies or Foreign Possessions or Dependencies, such Vessels shall be required to depart and to put to Sea within twenty-four hours after her entrance into such Port, Roadstead or Waters, except in case of stress of weather or of her requiring provisions or things necessary for the subsistence of her crew, or repairs; in either of which cases the Authorities of the Port, or of the nearest Port, (as the case may be) shall require her to put to Sea as soon as possible after the expiration of such period of twenty-four hours without permitting her to take in supplies beyond what may be necessary for her immediate use; and no such Vessel which may have been allowed to remain within British Waters for the purpose of repair shall continue in any such Port, Roadstead or Waters for a longer period than twenty-four hours after her necessary repairs shall have been completed. Provided, nevertheless, that in all cases in which there shall be any Vessels (whether Ships of War, Privateers, or Merchant Ships) of both the said Belligerent parties in the same Port, Roadstead, or Waters within the territorial jurisdiction of Her Majesty, there shall be an interval of not less than twenty-four hours between the departure therefrom of any such Vessel (whether a Ship of War, a Privateer, or a Merchant Ship) of the one Belligerent, and the subsequent departure therefrom of any Ship of War or Privateer of the other Belligerent; and the times hereby limited for the departure of such Ships of War and Privateers respectively shall always, in case of necessity, be extended so far as may be requisite for giving effect to this proviso, but not further or otherwise.

4. No Ship of War or Privateer of either Belligerent shall hereafter be permitted while in any Port, Roadstead, or Waters subject to the territorial jurisdiction of Her Majesty to take in any supplies, except provisions and such other things as may be requisite for the subsistence of her crew; and except so much Coal only as may be sufficient to carry such Vessel to the nearest Port of her own country or to some nearer destination; and no Coal shall be again supplied to any such Ship of War or Privateer in the same or in any other Port, Roadstead or Waters subject to the territorial jurisdiction of Her Majesty, without special permission, that is after the expiration of three months from the time when such Coal may have been last supplied to her within British Waters as aforesaid.

In what cases counterfeit Coin shall be forfeited.

III. Every counterfeit Coin and every Coin on which any operation shall have been performed, which alters its composition or diminishes its weight, shall be forfeited, whenever the person in possession of the same shall have committed any offence in respect of such Coin, or shall have the same in his possession without lawful authority or excuse, or shall not have paid or given for the same the full value which the Coin, if it purport to be a Queen's Coin current in British India, imports or was apparently intended to import, or the full market value of the Coin at the place where he received the same, if the Coin do not purport to be a Queen's Coin current in British India: or shall, when he received the same, have had notice or reason to suspect that the same was not genuine, or was not of full weight, or had been in any way impaired or illegally dealt with.

VI. Disputes in such cases to be summarily determined by a Magistrate.

IX. If in such case any dispute shall arise whether such Coin be counterfeit, or whether it has been so altered or so diminished as aforesaid, it shall be heard and finally determined in a summary manner by a Magistrate, who is hereby empowered to examine upon oath or solemn affirmation as well the parties as any other person, in order to the decision of such dispute.

X. In case of such dispute as aforesaid, it shall not be necessary that the Coin in dispute shall be cut, broken, bent, or defaced before the said dispute shall be heard and determined by the Magistrate, but the said Coin shall, in all cases, be produced before the Magistrate, and if he shall determine that the same is counterfeit, or has been altered or diminished as aforesaid, he shall either cause the same to be cut, broken, bent, or defaced in his presence; or, if he shall think that the same may be required to be adduced in evidence in any criminal proceedings relating thereto, may impound and detain the same for that purpose.

Coin in dispute not necessary to be broken up before dispute is determined, but Magistrate may break up the Coin after he determines it to be counterfeit, or may impound and detain it.

XI. Every Officer of the Government to whom any Coin is delivered or offered in payment of any of the revenues of, or of any sum due to, the Government, or otherwise, on account of Government, which Coin he shall suspect to be counterfeit, or to have been so altered or diminished as in the 6th Section of this Act mentioned, is hereby required to cut, break, or deface such Coin: subject to the provisions in the 7th, 8th, 9th, and 10th Sections contained.

Officers of Government, suspecting Coin delivered or offered in payment of Government dues to be counterfeit, shall break up the same, subject to Sections VII to X.

XII. If any person shall find in any place whatever, or in the custody or possession of any person having the same, without lawful authority or excuse, (*1st*) any counterfeit Coin or metal; or (*2nd*) any Coin on which any operation shall have been performed, whereby it has been altered in composition or diminished in weight, or so altered in appearance as to resemble Coin of a different description or of higher value; or (*3rd*) any instrument or material whatever adapted or intended for the counterfeiting of Coin; or (*4th*) any filings or clippings, or any gold or silver in bullion, in dust, or solution, which shall have been produced or obtained by diminishing or lightening any gold or silver Coin, it shall be lawful for the person so finding or discovering to seize the Coin, instrument, material, filings, or clippings, or gold or silver, and carry the same forthwith before some Magistrate.

Person finding counterfeit Coin, &c. to seize and carry the same forthwith before a Magistrate.

XIII. Whenever any such instrument or material as aforesaid, or any such clippings or filings, or gold or silver in bullion, dust, solution, or otherwise as aforesaid, or any such counterfeit Coin or Coins as are hereinbefore declared to be forfeited, shall have been brought before any Magistrate, whether under the provisions of this Act, or under a search-warrant or other process issued under the Code of Criminal Procedure, or Act XIII of 1856 (*for regulating the Police of the Towns of Calcutta, Madras, and Bombay, and the several stations of the Settlement of Prince of Wales' Island, Singapore, and Malacca*), or any other Act, or otherwise, the same, after they shall have been produced in evidence, or when they shall have been produced before a Magistrate, and shall not be required to be given in evidence before any other Court, shall forthwith be delivered up as forfeited to the Government or to any person authorized by the Government to receive the same.

Disposal of Coin declared to be forfeited.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to provide for the mode of dealing with counterfeit Coin, and with Coin originally genuine, which has been tampered with or reduced in weight.

The Statutes and Acts in force in India previously to the passing of the Penal Code had provided for the punishment of certain offences against the Coin. These provisions were in many respects imperfect, and have been now superseded by the Indian Penal Code, the enactments of which provide in a most salutary manner for nearly every offence connected with the Coin for which it is desirable to provide a special punishment. But no enactment has hitherto been passed in India defining the rights or duties of the public, or of the Officers of the Government, in respect of false Coin and damaged Coin: and much uncertainty has hitherto existed on the subject, especially as to the right of private individuals to break up, in order to withdraw from circulation, Coin which has been offered to them and which they see to be counterfeit or diminished in weight, and as to the extent to which such Coin, if broken up, and the materials, are forfeited to the Government, or can be reclaimed by the persons who offered them. The present Bill seeks to define and to place on a just and convenient footing the rights and duties, both of the Government and its Officers and of the public generally, in respect to such Coin.

The first question to determine in such a case is to whom the materials of the false or deteriorated Coin belong, and how far such Coins are to be considered as forfeited to the State.

In the recent consolidation of the Statute Law relating to offences against the Coin in England, as well as in the Acts thereby consolidated, it seems to be assumed, though it is not positively enacted, that all false and counterfeit Coin shall be absolutely forfeited to the Government. For it is provided that whenever any such Coin shall be brought before a Justice of the Peace, whether any offender be charged before him or not, they shall, when they have been produced in evidence or upon seizure if they shall not be required to be produced in evidence, be delivered up to the Officers of Her Majesty's Mint, or to the Solicitors of the Treasury.

24 and 25 Vic., c. 99. Section 27.

No such provision is made in regard to Coin originally genuine, which has been impaired or diminished by guilty means, although, where any offence has been established in respect to such Coin, there can be little doubt that it would, in England, be treated as forfeited.

There is, however, a marked distinction in practice between offences in relation to the Coin in England and in India. In England, whether from the superior skill of the false coiner, or the greater carelessness of those upon whom false Coins are passed, it is rare that a counterfeit Coin is of much intrinsic value. The metal or preparation which is made to do duty for the standard metal is there altogether base; whereas, in India, instances have occurred of coinage to a large extent of Coins of a metal comparatively but little inferior in value to that of the pure standard, so as to leave the coiner's profit but a small percentage of the actual value of the Coin passed off. The hardship therefore resulting to an innocent party who receives a false Coin, or it may be a number of false Coins, for full value, from an absolute forfeiture of the Coin to the Crown, would be greater in this country than in England. The metal used is more calculated to deceive even the vigilant, and the intrinsic value of the Coin received by him after it has been broken up is much greater.

It is proposed in the present Bill to declare all Coin which is either counterfeit or has been criminally tampered with, forfeited in the hands of any person who has committed any offence in respect of it, or who has the same in possession without lawful

authority or excuse, or who has not given full value for it, or who has taken it with notice of some flaw in it.

But where the holder of the Coin has committed no offence, and has lawful authority or excuse for its possession, and has given full value for it without notice of any flaw, he will be entitled to receive it back after it has been broken up, so as no longer to be capable of being circulated as Coin. The burden of proving *both* lawful authority or excuse, and payment of full value without notice, is thrown upon the person in possession of the Coin, failing which proof, the Coin will be absolutely forfeited to the Government

It seems obviously necessary to require proof *both* of lawful authority or excuse, and of the giving of value without notice, as a condition to the restoration of the Coin. If proof of lawful authority or excuse alone were required, a policeman or informer, who had taken possession of a false Coin, in order to bring it before a Magistrate, or the finder of such a Coin in a hidden place of deposit, might keep it. If proof of value only were required, a person who had taken the Coin in payment of goods delivered by him with a knowledge that there was something wrong about the Coin, might keep it. In all such cases the Coin ought obviously to be forfeited, whatever its value may be, and it is only in cases of complete good faith and fair vigilance that the Coin should be restored.

All dies and instruments used for the purpose of counterfeiting the Coin or for unlawful coining operations generally, and all silver filings and clippings, and other kinds of Coin illegally operated on, are declared absolutely forfeited

The Bill provides that, where a Coin is tendered to any person who suspects it to be counterfeit or to have been altered in composition or diminished otherwise than by lawful wear (which three operations are treated as crimes by the Penal Code), he shall be at liberty to break it up or deface it, so as to prevent its further circulation If the suspicion prove well founded, the person offering the Coin must bear the loss. If the suspicion prove unfounded, the person breaking or defacing the Coin must receive it as a Coin of full value. Where the person offering the Coin asserts its genuineness, the dispute may be settled at once summarily by any Magistrate, who will, if the Coin prove bad, see that it is broken up These provisions agree in substance with those which have been for many years in force in England, and which have been lately re-enacted in the Consolidation Act of last Session. I propose, however, to extend this provision to one case which is not provided for by the English Statute, that of the Queen's Coin current and a legal tender in British India, which has been so diminished, whether by lawful wear and tear, or by unlawful means, as not to be a legal tender. The reason for causing such Coin to be defaced so as to withdraw it from circulation, appears to be as strong as that applicable to Coin diminished by the process commonly called sweating, for the chemical means of diminishing the weight of the Coin, without leaving any apparent trace on the Coin itself of any operation having been performed, are now so potent and so subtle, that if the person to whom Coin is tendered which he sees to be short of weight be justified in breaking it up, or in taking the person offering it before a Magistrate only in case of its turning out that some unlawful operation has been performed upon it there will be every inducement to avoid the trouble and risk attendant on such a course.

These provisions are, under the present Bill, optional with regard to the public generally, as they appear to be in England To impose a positive obligation on all to whom a suspicious Coin may be tendered in the course of business and in good faith, will be burdensome on the individual, however useful it might be for the protection of the circulation But they are rendered compulsory on all Revenue Officers, and all Officers receiving payment on account of the Government. It clearly ought to be the duty of such Officers to do their utmost to prevent the circulation of false or dishonest Coin, not merely by refusing it, but by seeing that steps are taken to punish the offender, where there is proof of an offence, and by causing the withdrawal of the Coin from circulation. In fact, the practice now proposed to be enacted has been followed at the General Treasury for some years, as will be seen by the correspondence which took place in 1859: but the absence of any simple mode of determining dispute by going before a Magistrate, exposes such a course of proceeding in doubtful cases to some difficulty.

The powers conferred by the English Consolidation Act, on individuals or Police Officers to search for or bring before a Magistrate without warrant false Coin or Coin altered in composition or unlawfully diminished in weight, or gold or silver filings, bullion, or solution, the proceeds of Coin tampered with, are conferred by this Bill.

The 22nd January 1862.

From the Sub-Treasurer, Fort William, to the Secretary to the Government of India, Financial Department, No. 3[illegible], dated the 21st January 1859.

SIR,—I HAVE the honor to state that much inconvenience and risk is experienced at this Office from the constant tender of plugged and counterfeit Rupees in payment of money by the public into the General Treasury, and that as the practice of allowing such Rupees, after they have been tendered, to be returned to the holders, leads to the same base Coins being brought to the Treasury over and over again, I have the honor to solicit that you will be so good as to obtain the orders of Government, should Government consider with me that such orders are necessary, empowering the Sub-Treasurer to mutilate and divide into two all plugged and counterfeit Rupees that may be tendered in the General Treasury, in the same manner as the Collectors of Land Revenue are empowered, under the Circular of the Accountant, Revenue Department, No. 431, dated 14th July 1832, issued in compliance with the orders of the Sudder Board of Revenue, to mutilate all base Coins found in remittances from one Government Treasury to another

2 In connection with the above subject, I have the honor to state for the consideration of Government, that a large number of light weight Rupees are in circulation in Calcutta, and which are frequently tendered by the public for payment into the General Treasury. These Coins have been either clipped or filed and silver taken from them, or, from the recent system of electro-plating, a considerable quantity of silver is extracted from Rupees by means of chemical process without this being so apparent as to admit of ready detection. Under the above circumstances, I would submit that it is desirable that the matter should receive the consideration of Government with a view to very stringent rules being enacted for the preservation of the integrity of the Coin, and the safety of the public.

No. 906, FINANCIAL DEPARTMENT, FORT WILLIAM, THE 12TH FEBRUARY 1859.

FORWARDED to the Government Solicitor, with a request that he will obtain the opinion of the Advocate-General as to what powers the law confers upon the Government in dealing with the Coins referred to by the Sub-Treasurer, and with the parties who tender them at the General Treasury.

Extract from the Opinion of the Advocate-General, dated 19th February 1859

I THINK the law now in force in India with reference to false Coins is defective, and that application should be made to the Legislature to pass an Act corresponding

in substance with the Statute 2 and 3 Wm. 4, c 34, which has never been introduced into this country, and which provides for several cases wholly omitted by the 9 Geo. 4, c. 74, Sections 73, 74, and 75, and Act XXXI of 1839, the Acts now in force here with respect to offences against the Mint.

2. The Act 2 and 3 Wm. 4, c. 34, (Section 13) provides expressly for the course to be adopted with reference to Coin counterfeit, or diminished otherwise than by reasonable wearing, in the possession of innocent persons, and authorizes the Teller of Her Majesty's Exchequer and Receiver of Revenue, as well as other persons, to break and deface such Coins. Such provision, as well as that contained in Section 14, authorising the seizure of counterfeit Coin in the mode therein pointed out, would be extremely useful in this country.

* * * * * *

6. The powers of the Revenue or other Officers of Government to break up or destroy genuine Coins, which have been unlawfully tampered with, but which are presented by innocent holders, are very ill defined at common law, and special provisions for breaking up counterfeit Coin or Coin unlawfully diminished have been so often introduced by Statute,* that an inference arises that some statutory authority is necessary in order to afford a complete protection to the Officers so dealing with Coins.

* *See*
6 and 7 Wm. 3, c. 17 and 18.
8 and 9 Wm. 3., c. 26, s. 5.
56 Geo. 3, c. 68, s. 17.
9 Geo. 4, c. 74 and 75.
2 & 3 Wm. 4, c. 34, s. 13 & 14.

7. My own opinion certainly is that any Officer of Government to whom *counterfeit* Coin is tendered, even by an innocent holder, is fully justified, without any legislative authority, in cutting or breaking in two such Coin, returning the pieces to the holder, if no suspicion attach to him, or to any one who can be traced through him.

8. But the question is more difficult as to genuine Coin which has been unlawfully tampered with I am inclined to think, however, that if such Coin has been actually "fraudulently clipped, filed, drilled, defaced, or debased," within the meaning of Act XXXI of 1839 (which would include the cases of plugging referred to by Mr. Harvey), the Government Officers would be safe in cutting or breaking in two such Coins, returning the pieces (without loss of any of the particles) to the innocent holder. I cannot see that the latter could sustain any damage that the law would recognise by the act, as he could not himself make use of the Coin as a genuine Coin after being apprised of its having been unlawfully dealt with, without a crime, and the value of the Coin for any lawful purpose would not be diminished by its being broken in two.

9. Whether the course be strictly justifiable in the present state of the law or not which is very doubtful, I strongly advise its immediate adoption at the Treasury and by all Revenue Officers, as a protection to the public against the circulation of Coin illegally depreciated, which there is a strong moral obligation on the Government to afford.

10. When the Coin has been diminished or impaired otherwise than by any of the five modes specified in Act XXXI of 1839, for example by sweating through a chemical process, which does not deface or debase the standard, much greater difficulty will exist. Where it is quite certain that the diminution is owing to some chemical or unlawful process wilfully applied I am inclined to think the Government Officers breaking it in two will be practically safe. For any subsequent uttering such Coin with knowledge of its character would, in any view, be a misdemeanor at common law, though not a statutable offence, and therefore it is difficult to see what legal damage the innocent holder in receiving back the pieces could sustain. But extreme caution will be necessary in dealing with such cases, because if the lightening or diminution of the Coin can be attributed to fair wear and tear, or to lawful means, (the burden of negativing which would be on the Officer breaking it) I think it clear that he would be exposed to an action by the innocent holder.

STATEMENT OF OBJECTS AND REASONS.

THIS Bill provides for two classes of offences against the Coin for which no provision is made by the Penal Code, but which are punishable in England under the English Consolidating Act, and for which the experience of those conversant with the subject in this country, as well as my own so far as it goes, leads me to think that a punishment should be provided here.

The first is the offence of unlawfully having in possession gold or silver filings or clippings, or gold or silver in solution, bullion, or otherwise, produced by diminishing or lightening genuine Coin, with the knowledge that such gold or silver was so produced.

The Penal Code contains provisions dealing with the analogous case of unlawful possession of coining instruments used as dies, &c., and it was possibly thought that the possession of the proceeds of Coin illegally impaired, would be evidence of the offence of having impaired the Coin, or of having abetted such offence, and consequently that it was not necessary to treat it as a substantive offence. Cases, however, may arise in which no moral doubt can exist of the guilt of the person found in possession of such filings or proceeds of Coin, and yet where it might be impossible to convict of any of the offences specified in the Code: and the same reasons which have long existed in England for making the possession with guilty knowledge a substantive offence exist also, perhaps still more strongly, in India. Where there is reason to suppose that the actual lightening of the Coin has been effected by one man who has brought the proceeds in the shape of filings or solution to another for sale or deposit, the possession, with guilty knowledge by the defendant, is analogous in regard to the original offence against the Coin to that of the receiver of stolen goods in regard to the original theft. Both are equally principals in crime, and the receiver is treated as a substantive offender, being generally thought a far more dangerous culprit than the man who committed the original offence.

This offence is punishable by the present Bill with imprisonment for three years, or, when the Coin defaced is a Queen's Coin, the offender is, in accordance with the principle of the Penal Code, visited with a heavier punishment extending to five years.

The second class of cases provided for by the present Bill is that of mere possession, without lawful authority or excuse, of more than a certain number of pieces of counterfeit Coin, or Coin unlawfully altered or diminished, which is rendered punishable on summary conviction before a Magistrate by fine not exceeding forty Rupees nor less than ten Rupees for each Coin, besides forfeiture of the Coin. A similar provision is still in force in the Presidency Towns, and upon charges against European British subjects throughout India, in regard to counterfeit Coin, under the 75th Section of the 9 Geo. 4, c. 74, and has been found extremely useful in practice. The punishment being that of fine only, the burden of proving the lawful excuse or authority is thrown upon the defendant; and I have known cases of large seizures of Coin in which it would have been impossible under the ordinary criminal law to bring home an offence to the person in actual possession, but in which on his failure to prove a justification, forfeiture of the Coin and a heavy fine were enforced against him.

A similar provision exists in England in respect to the coinage of any Foreign State; and there is, I apprehend, fully as much reason for retaining the provision in India as applicable to counterfeit Coin generally, as there was in originally introducing it in 1828.

24 and 25 Vic., c. 99, s. 23.

I propose extending this provision to India generally. I also propose extending it not only to counterfeit Coin generally, but to all Coin on which any unlawful operation of impairing or diminishing has been performed. No solid ground of distinction seems to exist between the two classes of cases when once it appears that the impairing of the Coin in the latter case is the result not of fair wear and use but of a criminal operation performed on it.

No. 266 *of* 1862.—The leave of absence to Europe, on Sick Certificate, granted to Major J. C. Scott, Deputy Commissary General, in Government General Order No. 397 of the 3rd May 1861, is extended for a period of five months.

No. 267 *of* 1862.—The following paragraphs of a Military Letter from the Right Hon'ble the Secretary of State for India, No. 1 of the 9th January 1862, are published for general information :—

PARA. 18.—I have already expressed my approval of your decision that Officers above the rank of Subaltern shall not be eligible for appointments on the Regimental Staff. Those Officers, therefore, who elected to join the Staff Corps while holding Regimental Staff appointments, and who attained to the rank of Captain on so joining, must be called upon to vacate those appointments.

19. With respect, however, to all such Officers as, being similarly situated, have not attained to the rank of Captain, I regret to be under the necessity of requesting that the General Order by the Madras Government, No. 363 of 18th October 1861, may be cancelled, and that, in the event of these Officers' services being required by the Commander-in-Chief for that purpose, they may be permitted to retain their appointments, but such Officers will vacate their position on the Regimental Staff on attaining the rank of Captain.

20. A consideration of what is due to the interests of the Public Service, no less than to the Officers themselves, has led me to this decision; but at the same time I desire that it may be distinctly understood, not only that all Officers of the Indian Army who remain with their Regiments have an equal claim to Staff employment with Officers of the Staff Corps, but also, that so long as any Subaltern belonging under the regular system to the several Regiments remain with those Regiments they should be understood to have, on all occasions of future vacancies among the Regimental Staff, the same amount of prior claim to such appointments as they have hitherto been allowed to possess.

21. In such cases the nomination to Regimental Staff Appointments will rest as heretofore with the Commander-in-Chief who, should he find it necessary to appoint an Officer of the Staff Corps, will apply to the Government for his services, should those services not be already at his disposal.

Fort William, the 11th March 1862.

The following Notification issued by the Government of India, in the Home Department, is re-published for general information:—

No. 845.

The following Despatch from the Right Hon'ble the Secretary of State is published by order of the Governor General in Council:—

India Office, London, 9th December 1861.

TO HIS EXCELLENCY THE RIGHT HON'BLE THE GOVERNOR-GENERAL OF INDIA IN COUNCIL,

MY LORD,—I have to acknowledge paragraphs 2 and 3 of your Public Despatch, No. 42 of 1861, which forward a Memorial from Messrs. Woodrow, Lodge, and other Members of the Education Department, praying that they may be placed upon the same footing as Principals and Head Masters of Colleges and Schools in regard to their being eligible to pensions if incapacitated by age or infirmity after the same length of services as Law Officers and Native Judges.

2. The appointments held by these gentlemen are those of Inspectors, Principals, Professors, and Head Masters, and as Professors are of a grade higher than Head Masters and Inspectors than either Principals or Head Masters, I sanction the grant to the Memorialists of pensions on the same terms and conditions as were authorized for the last named grades in paragraph 4 of the Financial Despatch, dated 20th July 1853, No. 23, subject to the usual limitation applicable to the pensions of the Uncovenanted Service.

Servants of Government employed in the Education Department.

Extract from the Financial Despatch from the late Court of Directors, No. 23 of 1853, dated 20th July.

Para. 4.—"Our attention has again been given to the subject and we have resolved now to withdraw the restriction as respects this valuable class of public servants and to sanction their being admitted to participate in the privileges of the Pension Rules of 1831. We have also determined, with a view of shewing our estimation of the importance of their services, that the Principals and Head Masters of Colleges or Schools shall be ranked in the same class with Law Officers and Native Judges, and in a manner with them be qualified, if incapacitated by age or infirmity, to receive pensions equivalent to one-third of their average monthly salary after fifteen years' service, and to one half after a service of twenty years or upwards. The privilege must be confined to Principals and Head Masters. With regard to all other educational servants a service of twenty years will be a necessary qualification for the minimum rate of pension.

The current charges on account of Telegraph Messages should be paid out of the advance. At the end

Her Majesty is pleased further to command that these Rules shall be put in force in the United Kingdom and in the Channel Islands on and after Thursday, the sixth day of February next, and in Her Majesty's Territories and Possessions beyond the Seas six days after the day when the Governor or other chief Authority of each of such Territories or Possessions, respectively, shall have notified and published the same, stating in such Notification that the said Rules are to be obeyed by all persons within the same Territories and Possessions.

1. During the continuance of the present hostilities between the Government of the United States of North America and the States calling themselves the "Confederate States of America," or until Her Majesty shall otherwise order, no Ship of War or Privateer belonging to either of the Belligerents shall be permitted to enter or remain in the Port of Nassau, or in other Port, Roadstead, or Waters of the Bahama Islands, except by special leave of the Lieutenant-Governor of the Bahama Islands, or in case of stress of weather. If any such Vessel should enter any such Port, Roadstead, or Waters, by special leave, or under stress of weather, the Authorities of the place shall require her to put to Sea as soon as possible, without permitting her to take in any supplies beyond what may be necessary for her immediate use.

If, at the time when this order is first notified in the Bahama Islands, there shall be any such Vessel already within any Port, Roadstead, or Waters of those Islands, the Lieutenant-Governor shall give notice to such Vessel to depart, and shall require her to put to Sea within such time as he shall under the circumstances consider proper and reasonable. If there shall then be Ships of War or Privateers belonging to both the said Belligerents within the territorial jurisdiction of Her Majesty, in or near the same Port, Roadstead, or Waters, the Lieutenant-Governor shall fix the order of time in which such Vessels shall depart. No such Vessel of either Belligerent shall be permitted to put to Sea until after the expiration of at least twenty-four hours from the time when the last preceding Vessel of the other Belligerent (whether the same shall be a Ship of War, or Privateer, or Merchant Ship), which shall have left the some Port, Roadstead, or Waters, adjacent thereto, shall have passed beyond the territorial jurisdiction of Her Majesty.

2. During the continuance of the present hostilities between the Government of the United States of North America and the States calling themselves the Confederate States of America, all Ships of War and Privateers of either Belligerent are prohibited from making use of any Port or Roadstead

in the United Kingdom of Great Britain and Ireland or in the Channel Islands, or in any of Her Majesty's Colonies or Foreign Possessions or Dependencies, or of any Waters subject to the territorial jurisdiction of the British Crown, as a station or place of resort for any warlike purpose, or for the purpose of obtaining any facilities of warlike equipment; and no Ship of War or Privateer of either Belligerent shall hereafter be permitted to sail out of or leave any Port, Roadstead, or Waters subject to British jurisdiction from which any Vessel of the other Belligerent (whether the same Ship be a Ship of War, a Privateer, or a Merchant Ship) shall have previously departed until after the expiration of at least twenty-four hours from the departure of such last mentioned Vessel beyond the territorial jurisdiction of Her Majesty.

3. If any Ship of War or Privateer of either Belligerent shall after the time when this order shall be first notified and put in force in the United Kingdom in the Channel Islands and in the several Colonies and Foreign Possessions and Dependencies of Her Majesty respectively, enter any Port, Roadstead, or Waters belonging to Her Majesty either in the United Kingdom, or in the Channel Islands, or in any of Her Majesty's Colonies or Foreign Possessions or Dependencies, such Vessels shall be required to depart and to put to Sea within twenty-four hours after her entrance into such Port, Roadstead or Waters, except in case of stress of weather or of her requiring provisions or things necessary for the subsistence of her crew, or repairs; in either of which cases the Authorities of the Port, or of the nearest Port, (as the case may be) shall require her to put to Sea as soon as possible after the expiration of such period of twenty-four hours without permitting her to take in supplies beyond what may be necessary for her immediate use; and no such Vessel which may have been allowed to remain within British Waters for the purpose of repair shall continue in any such Port, Roadstead or Waters for a longer period than twenty-four hours after her necessary repairs shall have been completed. Provided, nevertheless, that in all cases in which there shall be any Vessels (whether Ships of War, Privateers, or Merchant Ships) of both the said Belligerent parties in the same Port, Roadstead, or Waters within the territorial jurisdiction of Her Majesty, there shall be an interval of not less than twenty-four hours between the departure therefrom of any such Vessel (whether a Ship of War, a Privateer, or a Merchant Ship) of the one Belligerent, and the subsequent departure therefrom of any Ship of War or Privateer of the other Belligerent; and the times hereby limited for the departure of such Ships of War and Pirvateers respectively shall always, in case of necessity, be extended so far as may be requisite for giving effect to this proviso, but not further or otherwise.

4. No Ship of War or Privateer of either Belligerent shall hereafter be permitted while in any Port, Roadstead, or Waters subject to the territorial jurisdiction of Her Majesty to take in any supplies, except provisions and such other things as may be requisite for the subsistence of her crew; and except so much Coal only as may be sufficient to carry such Vessel to the nearest Port of her own country or to some nearer destination; and no Coal shall be again supplied to any such Ship of War or Privateer in the same or in any other Port, Roadstead or Waters subject to the territorial jurisdiction of Her Majesty, without special permission, that is after the expiration of three months from the time when such Coal may have been last supplied to her within British Waters as aforesaid.

Person finding counterfeit Coin, &c. to seize and carry the same forthwith before a Magistrate.

XIII. Whenever any such instrument or material as aforesaid, or any such clippings or filings, or gold or silver in bullion, dust, solution, or otherwise as aforesaid, or any such counterfeit Coin or Coins as are hereinbefore declared to be forfeited, shall have been brought before any Magistrate, whether under the provisions of this Act, or under a search-warrant or other process issued under the Code of Criminal Procedure, or Act XIII of 1856 *(for regulating the Police of the Towns of Calcutta, Madras, and Bombay, and the several stations of the Settlement of Prince of Wales' Island, Singapore, and Malacca)*, or any other Act, or otherwise, the same, after they shall have been produced in evidence, or when they shall have been produced before a Magistrate, and shall not be required to be given in evidence before any other Court, shall forthwith be delivered up as forfeited to the Government or to any person authorized by the Government to receive the same.

Disposal of Coin declared to be forfeited.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to provide for the mode of dealing with counterfeit Coin, and with Coin originally genuine, which has been tampered with or reduced in weight.

The Statutes and Acts in force in India previously to the passing of the Penal Code had provided for the punishment of certain offences against the Coin. These provisions were in many respects imperfect, and have been now superseded by the Indian Penal Code, the enactments of which provide in a most salutary manner for nearly every offence connected with the Coin for which it is desirable to provide a special punishment. But no enactment has hitherto been passed in India defining the rights or duties of the public, or of the Officers of the Government, in respect of false Coin and damaged Coin: and much uncertainty has hitherto existed on the subject, especially as to the right of private individuals to break up, in order to withdraw from circulation, Coin which has been offered to them and which they see to be counterfeit or diminished in weight, and as to the extent to which such Coin, if broken up, and the materials, are forfeited to the Government, or can be reclaimed by the persons who offered them. The present Bill seeks to define and to place on a just and convenient footing the rights and duties, both of the Government and its Officers and of the public generally, in respect to such Coin.

The first question to determine in such a case is to whom the materials of the false or deteriorated Coin belong, and how far such Coins are to be considered as forfeited to the State.

In the recent consolidation of the Statute Law relating to offences against the Coin in England, as well as in the Acts thereby consolidated, it seems to be assumed, though it is not positively enacted, that all false and counterfeit Coin shall be absolutely forfeited to the Government. For it is provided that whenever any such Coin shall be brought before a Justice of the Peace, whether any offender be charged before him or not, they shall, when they have been produced in evidence or upon seizure if they shall not be required to be produced in evidence, be delivered up to the Officers of Her Majesty's Mint, or to the Solicitors of the Treasury.

24 and 25 Vic. c. 99. Section 27.

No such provision is made in regard to Coin originally genuine, which has been impaired or diminished by guilty means, although, where any offence has been established in respect to such Coin, there can be little doubt that it would, in England, be treated as forfeited.

There is, however, a marked distinction in practice between offences in relation to the Coin in England and in India. In England, whether from the superior skill of the false coiner, or the greater carelessness of those upon whom false Coins are passed, it is rare that a counterfeit Coin is of much intrinsic value. The metal or preparation which is made to do duty for the standard metal is there altogether base; whereas, in India, instances have occurred of coinage to a large extent of Coins of a metal comparatively but little inferior in value to that of the pure standard, so as to leave the coiner's profit but a small percentage of the actual value of the Coin passed off. The hardship therefore resulting to an innocent party who receives a false Coin, or it may be a number of false Coins, for full value, from an absolute forfeiture of the Coin to the Crown, would be greater in this country than in England. The metal used is more calculated to deceive even the vigilant, and the intrinsic value of the Coin received by him after it has been broken up is much greater.

It is proposed in the present Bill to declare all Coin which is either counterfeit or has been criminally tampered with, forfeited in the hands of any person who has committed any offence in respect of it, or who has the same in possession without lawful

authority or excuse, or who has not given full value for it, or who has taken it with notice of some flaw in it.

But where the holder of the Coin has committed no offence, and has lawful authority or excuse for its possession, and has given full value for it without notice of any flaw, he will be entitled to receive it back after it has been broken up, so as no longer to be capable of being circulated as Coin. The burden of proving *both* lawful authority or excuse, and payment of full value without notice, is thrown upon the person in possession of the Coin, failing which proof, the Coin will be absolutely forfeited to the Government.

It seems obviously necessary to require proof *both* of lawful authority or excuse, and of the giving of value without notice, as a condition to the restoration of the Coin. If proof of lawful authority or excuse alone were required, a policeman or informer, who had taken possession of a false Coin, in order to bring it before a Magistrate, or the finder of such a Coin in a hidden place of deposit, might keep it. If proof of value only were required, a person who had taken the Coin in payment of goods delivered by him with a knowledge that there was something wrong about the Coin, might keep it. In all such cases the Coin ought obviously to be forfeited, whatever its value may be, and it is only in cases of complete good faith and fair vigilance that the Coin should be restored.

All dies and instruments used for the purpose of counterfeiting the Coin or for unlawful coining operations generally, and all silver filings and clippings, and other kinds of Coin illegally operated on, are declared absolutely forfeited.

The Bill provides that, where a Coin is tendered to any person who suspects it to be counterfeit or to have been altered in composition or diminished otherwise than by lawful wear (which three operations are treated as crimes by the Penal Code), he shall be at liberty to break it up or deface it, so as to prevent its further circulation. If the suspicion prove well founded, the person offering the Coin must bear the loss. If the suspicion prove unfounded, the person breaking or defacing the Coin must receive it as a Coin of full value. Where the person offering the Coin asserts its genuineness, the dispute may be settled at once summarily by any Magistrate, who will, if the Coin prove bad, see that it is broken up. These provisions agree in substance with those which have been for many years in force in England, and which have been lately re-enacted in the Consolidation Act of last Session. I propose, however, to extend this provision to one case which is not provided for by the English Statute, that of the Queen's Coin current and a legal tender in British India, which has been so diminished, whether by lawful wear and tear, or by unlawful means, as not to be a legal tender. The reason for causing such Coin to be defaced so as to withdraw it from circulation, appears to be as strong as that applicable to Coin diminished by the process commonly called sweating, for the chemical means of diminishing the weight of the Coin, without leaving any apparent trace on the Coin itself of any operation having been performed, are now so potent and so subtle, that if the person to whom Coin is tendered which he sees to be short of weight be justified in breaking it up, or in taking the person offering it before a Magistrate only in case of its turning out that some unlawful operation has been performed upon it, there will be every inducement to avoid the trouble and risk attendant on such a course.

These provisions are, under the present Bill, optional with regard to the public generally, as they appear to be in England. To impose a positive obligation on all to whom a suspicious Coin may be tendered in the course of business, and in good faith, will be burdensome on the individual, however useful it might be for the protection of the circulation But they are rendered compulsory on all Revenue Officers, and all Officers receiving payment on account of the Government. It clearly ought to be the duty of such Officers to do their utmost to prevent the circulation of false or dishonest Coin, not merely by refusing it, but by seeing that steps are taken to punish the offender, where there is proof of an offence, and by causing the withdrawal of the Coin from circulation. In fact, the practice now proposed to be enacted has been followed at the General Treasury for some years, as will be seen by the correspondence which took place in 1850: but the absence of any simple mode of determining dispute by going before a Magistrate, exposes such a course of proceeding in doubtful cases to some difficulty.

The powers conferred by the English Consolidation Act, on individuals or Police Officers to search for or bring before a Magistrate without warrant false Coin or Coin altered in composition or unlawfully diminished in weight, or gold or silver filings, bullion, or solution, the proceeds of Coin tampered with, are conferred by this Bill.

(Sd.) W. RITCHIE.

The 22nd January 1862.

From the Sub-Treasurer, Fort William, to the Secretary to the Government of India, Financial Department, No. 308, dated the 21st January 1859.

SIR,—I HAVE the honor to state that much inconvenience and risk is experienced at this Office from the constant tender of plugged and counterfeit Rupees in payment of money by the public into the General Treasury, and that as the practice of allowing such Rupees, after they have been tendered, to be returned to the holders, leads to the same base Coins being brought to the Treasury over and over again, I have the honor to solicit that you will be so good as to obtain the orders of Government, should Government consider with me that such orders are necessary, empowering the Sub-Treasurer to mutilate and divide into two all plugged and counterfeit Rupees that may be tendered in the General Treasury, in the same manner as the Collectors of Land Revenue are empowered, under the Circular of the Accountant, Revenue Department, No. 431, dated 14th July 1832, issued in compliance with the orders of the Sudder Board of Revenue, to mutilate all base Coins found in remittances from one Government Treasury to another.

2. In connection with the above subject, I have the honor to state for the consideration of Government, that a large number of light weight Rupees are in circulation in Calcutta, and which are frequently tendered by the public for payment into the General Treasury. These Coins have been either clipped or filed and silver taken from them, or, from the recent system of electro-plating, a considerable quantity of silver is extracted from Rupees by means of chemical process without this being so apparent as to admit of ready detection. Under the above circumstances, I would submit that it is desirable that the matter should receive the consideration of Government with a view to very stringent rules being enacted for the preservation of the integrity of the Coin, and the safety of the public.

No. 906, FINANCIAL DEPARTMENT, FORT WILLIAM, THE 12TH FEBRUARY 1859.

FORWARDED to the Government Solicitor, with a request that he will obtain the opinion of the Advocate-General as to what powers the law confers upon the Government in dealing with the Coins referred to by the Sub-Treasurer, and with the parties who tender them at the General Treasury.

Extract from the Opinion of the Advocate-General, dated 19th February 1859.

I THINK the law now in force in India with reference to false Coins is defective, and that application should be made to the Legislature to pass an Act corresponding

in substance with the Statute 2 and 3 Wm. 4, c. 34, which has never been introduced into this country, and which provides for several cases wholly omitted by the 9 Geo. 4, c. 74, Sections 73, 74, and 75, and Act XXXI of 1839, the Acts now in force here with respect to offences against the Mint.

2. The Act 2 and 3 Wm. 4, c. 34, (Section 13) provides expressly for the course to be adopted with reference to Coin counterfeit, or diminished otherwise than by reasonable wearing, in the possession of innocent persons, and authorizes the Teller of Her Majesty's Exchequer and Receiver of Revenue, as well as other persons, to break and deface such Coins. Such provision, as well as that contained in Section 14, authorising the seizure of counterfeit Coin in the mode therein pointed out, would be extremely useful in this country.

* * * * * *

6. The powers of the Revenue or other Officers of Government to break up or destroy genuine Coins, which have been unlawfully tampered with, but which are presented by innocent holders, are very ill defined at common law, and special provisions for breaking up counterfeit Coin or Coin unlawfully diminished have been so often introduced by Statute,* that an inference arises that some statutory authority is necessary in order to afford a complete protection to the Officers so dealing with Coins.

* *See*
6 and 7 Wm. 3, c. 17 and 18.
8 and 9 Wm. 3., c. 26, s. 5.
56 Geo. 3, c. 68, s. 17.
9 Geo. 4, c. 74 and 75.
2 & 3 Wm. 4, c. 34, s. 13 & 14.

7. My own opinion certainly is that any Officer of Government to whom *counterfeit* Coin is tendered, even by an innocent holder, is fully justified, without any legislative authority, in cutting or breaking in two such Coin, returning the pieces to the holder, if no suspicion attach to him, or to any one who can be traced through him.

8. But the question is more difficult as to genuine Coin which has been unlawfully tampered with. I am inclined to think, however, that if such Coin has been actually "fraudulently clipped, filed, drilled, defaced, or debased," within the meaning of Act XXXI of 1839 (which would include the cases of plugging referred to by Mr. Harvey), the Government Officers would be safe in cutting or breaking in two such Coins, returning the pieces (without loss of any of the particles) to the innocent holder. I cannot see that the latter could sustain any damage that the law would recognise by the act, as he could not himself make use of the Coin as a genuine Coin after being apprised of its having been unlawfully dealt with, without a crime, and the value of the Coin for any lawful purpose would not be diminished by its being broken in two.

9. Whether the course be strictly justifiable in the present state of the law or not which is very doubtful, I strongly advise its immediate adoption at the Treasury and by all Revenue Officers, as a protection to the public against the circulation of Coin illegally depreciated, which there is a strong moral obligation on the Government to afford.

10. When the Coin has been diminished or impaired otherwise than by any of the five modes specified in Act XXXI of 1839, for example by sweating through a chemical process, which does not deface or debase the standard, much greater difficulty will exist. Where it is quite certain that the diminution is owing to some chemical or unlawful process wilfully applied, I am inclined to think the Government Officers breaking it in two will be practically safe. For any subsequent uttering such Coin with knowledge of its character would, in any view, be a misdemeanor at common law, though not a statutable offence, and therefore it is difficult to see what legal damage the innocent holder in receiving back the pieces could sustain. But extreme caution will be necessary in dealing with such cases, because if the lightening or diminution of the Coin can be attributed to fair wear and tear, or to lawful means, (the burden of negativing which would be on the Officer breaking it) I think it clear that he would be exposed to an action by the innocent holder.

STATEMENT OF OBJECTS AND REASONS.

THIS Bill provides for two classes of offences against the Coin for which no provision is made by the Penal Code, but which are punishable in England under the English Consolidating Act, and for which the experience of those conversant with the subject in this country, as well as my own so far as it goes, leads me to think that a punishment should be provided here.

The first is the offence of unlawfully having in possession gold or silver filings or clippings, or gold or silver in solution, bullion, or otherwise, produced by diminishing or lightening genuine Coin, with the knowledge that such gold or silver was so produced.

The Penal Code contains provisions dealing with the analogous case of unlawful possession of coining instruments used as dies, &c., and it was possibly thought that the possession of the proceeds of Coin illegally impaired, would be evidence of the offence of having impaired the Coin, or of having abetted such offence, and consequently that it was not necessary to treat it as a substantive offence. Cases, however, may arise in which no moral doubt can exist of the guilt of the person found in possession of such filings or proceeds of Coin, and yet where it might be impossible to convict of any of the offences specified in the Code: and the same reasons which have long existed in England for making the possession with guilty knowledge a substantive offence exist also, perhaps still more strongly, in India. Where there is reason to suppose that the actual lightening of the Coin has been effected by one man who has brought the proceeds in the shape of filings or solution to another for sale or deposit, the possession, with guilty knowledge by the defendant, is analogous in regard to the original offence against the Coin to that of the receiver of stolen goods in regard to the original theft. Both are equally principals in crime, and the receiver is treated as a substantive offender, being generally thought a far more dangerous culprit than the man who committed the original offence.

This offence is punishable by the present Bill with imprisonment for three years, or, when the Coin defaced is a Queen's Coin, the offender is, in accordance with the principle of the Penal Code, visited with a heavier punishment extending to five years.

The second class of cases provided for by the present Bill is that of mere possession, without lawful authority or excuse, of more than a certain number of pieces of counterfeit Coin, or Coin unlawfully altered or diminished, which is rendered punishable on summary conviction before a Magistrate by fine not exceeding forty Rupees nor less than ten Rupees for each Coin, besides forfeiture of the Coin. A similar provision is still in force in the Presidency Towns, and upon charges against European British subjects throughout India, in regard to counterfeit Coin, under the 75th Section of the 9 Geo. 4, c. 74, and has been found extremely useful in practice. The punishment being that of fine only, the burden of proving the lawful excuse or authority is thrown upon the defendant; and I have known cases of large seizures of Coin in which it would have been impossible under the ordinary criminal law to bring home an offence to the person in actual possession, but in which on his failure to prove a justification, forfeiture of the Coin and a heavy fine were enforced against him.

A similar provision exists in England in respect to the coinage of any Foreign State; and there is, I apprehend, fully as much reason for retaining the provision in India as applicable to counterfeit Coin generally, as there was in originally introducing it in 1828.

24 and 25 Vic., c. 99, s. 23.

I propose extending this provision to India generally. I also propose extending it not only to counterfeit Coin generally, but to all Coin on which any unlawful operation of impairing or diminishing has been performed. No solid ground of distinction seems to exist between the two classes of cases when once it appears that the impairing of the Coin in the latter case is the result not of fair wear and use but of a criminal operationperformed on it.

THE following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations, on the 12th March 1862, and was referred to a Select Committee with instructions to make their Report thereon in one month:—

A Bill to repeal certain Regulations and Acts relating to Criminal Law and Procedure.

Preamble.

WHEREAS by Act XLV of 1860 a Penal Code has been prescribed for British India, and the said Code came into operation on the 1st day of January 1862; and whereas by Act XXV of 1861 a Code of Procedure is provided for the Courts of Criminal Judicature not established by Royal Charter, and the said Code likewise came into operation on the 1st day of January 1862 in the Territories subject to the general Regulations of the Presidencies of Bengal, Madras, and Bombay; and whereas it is expedient to repeal, in the manner hereinafter provided, certain Regulations and Acts, and parts of Regulations and Acts, relating to Criminal Law and Procedure; It is enacted as follows:—

Repeal of Laws.

I. In the Presidencies of Bengal, Madras, and Bombay, and in any other part of the British Territories in India in which the Indian Penal Code and the Code of Criminal Procedure came into operation on the 1st January 1862, the several Regulations and Acts, and parts of Regulations and Acts, set forth in the Schedule hereto, except in so far as they repeal the whole or any part of any other Regulation or Act, and except as to any offence committed before the said first day of January 1862, shall, to the extent expressed in the said Schedule, be repealed from the said 1st January 1862, and so far as such Regulations and Acts relate to any part of the said Territories to which the said Code of Criminal Procedure was not extended before the said 1st day of January 1862, such Regulations and Acts shall be repealed, except in so far as they repeal the whole or any part of any other Regulation or Act, from the time when the said Code of Criminal Procedure shall be extended to such part by a Notification in the *Gazette* by the Governor-General of India in Council, or by the local Government to which such Territory is subordinate, except as to any offence committed before the time when the said Code shall be extended as aforesaid. Provided that nothing in this Act shall interfere with the exercise, for the purpose of the trial or punishment of any of the offences hereinbefore excepted, of any jurisdiction or powers conferred upon any Court or Magistrate or other Officer exercising any of the powers of a Magistrate by any Regulation or Act repealed by this Act.

Saving of certain convictions.

II. No conviction shall be quashed or set aside by reason only of the Procedure at the trial of any offence committed before the 1st day of January 1862, or if the Code of Criminal Procedure shall not have taken effect in any part of India on such 1st day of January, at the trial of any offence committed in such part of India before the time when such Code shall have taken effect therein, having wholly or in part been the Procedure under the said Code of Criminal Procedure. Provided that no person tried for any such offence as aforesaid shall be deprived of any right of appeal or reference to a Sudder Court which he would have enjoyed had the trial been held under any of the Regulations or Acts hereby repealed.

STATEMENT OF OBJECTS AND REASONS.

THE Regulations and Acts which it is the object of this Bill to repeal, are chiefly those which have been superseded, and are virtually rescinded by the Indian Penal Code and the Code of Criminal Procedure, both of which Codes are now in operation. The opportunity is also taken to repeal several Regulations which have long been obsolete or superseded, but which have never yet been formally repealed.

The total number of Regulations and Acts in the three Presidencies, which will be repealed by this Act and removed from the Statute Book, is between two and three hundred.

FOREIGN OFFICE;
January 31st, 1862.

TO THE RIGHT HON'BLE SIR CHARLES WOOD, *Bart.*, G. C. B., &c., &c., &c.

SIR,—HER MAJESTY being fully determined to observe the duties of Neutrality during the existing hostilities between the United States and the States calling themselves the Confederate States of America, and being moreover resolved to prevent, as far as possible, the use of Her Majesty's Harbours, Ports, and Coasts, and the Waters within Her Majesty's jurisdiction in aid of the warlike purposes of either Belligerent has commanded me to communicate to you for your guidance the following Rules which are to be treated and enforced as Her Majesty's orders and

directions. Her Majesty is pleased further to command that these Rules shall be put in force in the United Kingdom and in the Channel Islands on and after Thursday, the sixth day of February next, and in Her Majesty's Territories and Possessions beyond the seas six days after the day when the Governor or other chief Authority of each of such Territories or Possessions, respectively, shall have notified and published the same, stating in such Notification that the said Rules are to be obeyed by all persons within the same Territories and Possessions:—

1. During the continuance of the present hostilities between the Government of the United States of North America and the States calling themselves the "Confederate States of America," or until Her Majesty shall otherwise order, no Ship of War or Privateer belonging to either of the Belligerents shall be permitted to enter or remain in the Port of Nassau, or in other Port, Roadstead, or Waters of the Bahama Islands, except by special leave of the Lieutenant-Governor of the Bahama Islands, or in case of stress of weather. If any such Vessel should enter any such Port, Roadstead, or Waters, by special leave, or under stress of weather, the Authorities of the place shall require her to put to sea as soon as possible, without permitting her to take in any supplies beyond what may be necessary for her immediate use.

If, at the time when this order is first notified in the Bahama Islands, there shall be any such Vessel already within any Port, Roadstead, or Waters of those Islands, the Lieutenant-Governor shall give notice to such Vessel to depart, and shall require her to put to sea within such time as he shall, under the circumstances, consider proper and reasonable. If there shall then be Ships of War or Privateers belonging to both the said Belligerents within the territorial jurisdiction of Her Majesty, in or near the same Port, Roadstead, or Waters, the Lieutenant-Governor shall fix the order of time in which such Vessels shall depart. No such Vessel of either Belligerent shall be permitted to put to sea until after the expiration of at least twenty-four hours from the time when the last preceding Vessel of the other Belligerent (whether the same shall be a Ship of War, or Privateer, or Merchant Ship), which shall have left the some Port, Roadstead, or Waters, adjacent thereto, shall have passed beyond the territorial jurisdiction of Her Majesty.

2. During the continuance of the present hostilities between the Government of the United States of North America and the States calling themselves the Confederate States of America, all Ships of War and Privateers of either Belligerent are prohibited from making use of any Port or Roadstead in the United Kingdom of Great Britain and Ireland or in the Channel Islands, or in any of Her Majesty's Colonies or Foreign Possessions or Dependencies, or of any Waters subject to the territorial jurisdiction of the British Crown, as a station or place of resort for any warlike purpose, or for the purpose of obtaining any facilities of warlike equipment; and no Ship of War or Privateer of either Belligerent shall hereafter be permitted to sail out of or leave any Port, Roadstead, or Waters subject to British jurisdiction from which any Vessel of the other Belligerent (whether the same Ship be a Ship of War, a Privateer, or a Merchant Ship) shall have previously departed until after the expiration of at least twenty-four hours from the departure of such last mentioned Vessel beyond the territorial jurisdiction of Her Majesty.

3. If any Ship of War or Privateer of either Belligerent shall after the time when this order shall be first notified and put in force in the United Kingdom in the Channel Islands and in the several Colonies and Foreign Possessions and Dependencies of Her Majesty, respectively, enter any Port, Roadstead, or Waters belonging to Her Majesty either in the United Kingdom, or in the Channel Islands, or in any of Her Majesty's Colonies or Foreign Possessions or Dependencies, such Vessels shall be required to depart and to put to sea within twenty-four hours after her entrance into such Port, Roadstead, or Waters, except in case of stress of weather or of her requiring provisions or things necessary for the subsistence of her crew, or repairs; in either of which cases the Authorities of the Port, or of the nearest Port, (as the case may be) shall require her to put to sea as soon as possible after the expiration of such period of twenty-four hours without permitting her to take in supplies beyond what may be necessary for her immediate use; and no such Vessel which may have been allowed to remain within British Waters for the purpose of repair shall continue in any such Port, Roadstead, or Waters for a longer period than twenty-four hours after her necessary repairs shall have been completed. Provided, nevertheless, that in all cases in which there shall be any Vessels (whether Ships of War, Privateers, or Merchant Ships) of both the said Belligerent parties in the same Port, Roadstead, or Waters within the territorial jurisdiction of Her Majesty, there shall be an interval of not less than twenty-four hours between the departure therefrom of any such Vessel (whether a Ship of War, a Privateer, or a Merchant Ship) of the one Belligerent, and the subsequent departure therefrom of any Ship of War or Privateer of the other Belligerent; and the times hereby limited for the departure of such Ships of War and Privateers respectively shall always, in case of necessity, be extended so far as may be requisite for giving effect to this proviso, but not further or otherwise.

4. No Ship of War or Privateer of either Belligerent shall hereafter be permitted while in any Port, Roadstead, or Waters subject to the territorial jurisdiction of Her Majesty to take in any supplies, except provisions and such other things as may be requisite for the subsistence of her crew; and except so much Coal only as may be sufficient to carry such Vessel to the nearest Port of her own country or to some nearer destination; and no Coal shall be again supplied to any such Ship of War or Privateer in the same or in any other Port, Roadstead, or Waters subject to the territorial jurisdiction of Her Majesty, without special permission, that is after the expiration of three months from the time when such Coal may have been last supplied to her within British Waters as aforesaid.

If it be clear that the interest on the average cash Balance at such place is not enough to make a fair contribution towards the expenses of the Branch Banks, the Governor will give such fixed annual payment as may be agreed upon in each case, not exceeding the saving of cost to the Government at such place by the Bank taking its business.

Twenty-first.—That the powers and authorities hereby given and conferred, and the covenants hereby entered into, shall come into operation from and after a day to be fixed by the Governor in Council by notification in that behalf, which shall be published in the *Bombay Government Gazette* within one calendar month from the date hereof, and shall not come into operation at an earlier day, and the same shall continue and be in force for the term of five years from the date fixed in and by such notification; at the expiration of which time the same shall and may, by notice in writing from the Governor in Council to the Directors of the said Bank for the time being, be renewed, with or without any modifications, as may be agreed on between the Governor in Council and the said Directors.

No. 136.

Fort William, the 13th March 1862.

The following Extract, from a Report of a recent Survey of the Cocos Islands by Lieutenant Jackson, I. N., Commander of the Bengal Government Steam Vessel "Krishna," is published for general information:—

"ON the morning of the 16th I hove to off Narcondam Island, with the peak bearing north (true) by Azimuth, and observed its longitude west of Fort Cornwallis Flagstaff, Penang, 6° 02′ 48″, and its latitude, deduced from observation at noon by means of two patent log distances, 13° 27′ 00″ north. The height above the level of the sea being 2,150 feet, and the variation 3° easterly.

From the above observations I find that Narcondam is placed about fourteen miles too far north in the Chart of the Bay of Bengal, published by Messrs. Allen and Company in London, 1st September 1857. This is obviously an oversight, as the latitude here given agrees with that of former observers."

Abstract of the Proceedings of the Council of the Governor General of India assembled for the purpose of making Laws and Regulations under the provisions of the Act of Parliament 24 and 25 Vic., c. 67.

THE Council met at Government House on Wednesday, the 12th March 1862.

PRESENT :

His Excellency the Viceroy and Governor-General of India, *presiding*.

His Highness the Maharajah of Puttiala, K. S. I.

The Hon'ble MR. RITCHIE moved that the Report of the Select Committee on the Bill to amend Act XLVI. of 1860 (to authorize and regulate the Emigration of Native Laborers to the French Colonies) be adopted, and that the Bill be passed.

The Motion was put and agreed to.

The Hon'ble MR. RITCHIE postponed the introduction of the Bill to provide for the administration of Civil and Criminal Justice at Aden.

The Hon'ble MR. HARINGTON introduced the Bill to repeal certain Regulations and Acts relating to Criminal Law and Procedure, and moved that it be referred to a Select Committee with instructions to report in one month. He stated that the Bill had already been six months before the Public, and its further delay for the usual period therefore would not be necessary.

The Hon'ble MR. RITCHIE said that he felt that a great debt of gratitude was due to Mr. Harington for the great labor he had bestowed on this Bill. It was sufficient to look at the Schedule of the Bill to observe at once how large and important a task had been accomplished.

The Motion was put and agreed to.

His Excellency the PRESIDENT moved for leave to bring in a Bill entitled "A Bill to provide for the succession to and the rights in respect of certain talookas and granted estates in Oude, and for the jurisdiction of the Courts of that Province in suits relating to land." He stated that, in moving for leave to introduce this Bill, it was necessary to explain the objects which the Government had in view. The Council would bear in mind some circumstances connected with the restoration of British supremacy in Oude. In 1858 and 1859, after the Province had been recovered from rebellion, and the authority of the Queen had been vindicated, many Grants were made of lands which had previously been confiscated to Government. In some cases those Grants were made to proprietors who had forfeited their rights, but to whom the favor of Government was extended, and who were permitted to re-enter upon their estates; in other cases, to proprietors who had remained in possession of their own estates and received additions thereto in consideration of their services; and in

numerous instances, to persons who had had no previous connection with the soil of Oude, but who were brought into the Province there to receive the rewards which they had earned. The terms on which those Grants were made were recorded, and a Summary Settlement was effected. The terms declared that each grantee had received a permanent, hereditary, and transferable right in his estate. The Governor-General, who was then exercising all the powers of the Governor-General in Council, sanctioned those conditions which the present Bill would now re-affirm. After the Grants had been made, and by a subsequent order of the Governor-General, the principle of succession by the rule of primogeniture, in respect both of the talookas which had been restored and of estates newly granted, was introduced. The principle was affirmed, but was not accompanied by any details. But as being an act of the Government of India done previously to the passing of the Indian Council's Act of 1861, he believed that there could be no doubt of its having the full force of law. The present Bill, therefore, would only declare the principle more formally and provide in detail for the manner in which the rule of primogeniture should take effect. It would provide that, in case of intestacy, the estate or talooka should go to the natural-born heir, that is, to the eldest son; that failing such heir, it should go to an heir by adoption; and failing an adopted heir, to the nearest collateral male heir: in default of all of these, it would provide that the estate should go to the widow for her life, and at her death to such son as she might adopt according to the custom of her family: and lastly, if all these should fail, that the estate should pass to such persons as would inherit if this Act were not made law. The object in view was to combine the principle of primogeniture with other principles and usages traditional in this country and dear to the people. In the Province of Oude the operation of the Hindoo and Mahomedan Laws was peculiarly confused and conflicting—so much so, that it might have been a question whether on that account alone some legislative interposition and correction were not expedient. And probably it would not be contended that, such being the case, the introduction of a law of primogeniture, with the generally warm approval of the Talookdars (the parties most concerned), was an unwise divergence from the laws which the English Government had found established there.

The Bill gave power to the Government to declare from time to time what estates should be considered as talookas or granted estates under the operation of the Act, and it provided that none of these estates, after enrolment on a list as such, should be liable to seizure or sale in satisfaction of decrees of Court, except under sanction of the Local Government confirmed by the Governor-General in Council. The placing of an estate on the list would be subjected to certain checks and precautions which would prevent this being done without the knowledge or to the detriment of any who might have claims upon, or interest in, the estate. The removal of an estate from the list would also take place under precautions, and only with the consent of the Local Government and of the Governor-General in Council.

The Bill would also provide for the descent in the same line as the landed estate of such personal property as might fitly be recognized as heir-looms, upon application to that effect by the possessor. This provision would be gratifying to those legislated for, and would entail no inconvenience; but it formed no essential part of the Bill. The Bill further provided that disputed claims to succession or right of inheritance to the estates subject to the Bill should be determined by the Local Government, subject to the confirmation of the Governor-General in Council; thus giving the Government the charge of watching over these inheritances, and rendering their protection a matter of Governmental policy rather than of Law. This as regards the estates on the talooka list: but the Bill went farther and dealt with suits of whatever description relating to the title to lands in Oude. In regard to these it restored the state of things subsisting in Oude prior to the introduction of Act VIII. of 1859. Before that time all such suits were adjudicated by the Revenue Authorities, subject to appeal to the Chief Commissioner as Financial Commissioner. Act VIII. had been understood to alter the procedure and to place such questions under the cognizance of the Civil Courts. There had been, however, doubts as to the operation of that Act in this respect, and it was therefore desirable that the Law should be clearly defined. He deemed it far preferable that in a country in the condition of Oude, where our laws and system of legal procedure were not familiar to the people, where the settlement was still a summary and temporary one, and where the Government had yet to feel its way to a wise, encouraging, and beneficial settlement, questions relating to land should, as far as possible, continue to be dealt with as revenue questions and not be brought within the scope of our Courts and Law. These were all the particulars of the Bill which it was necessary to mention. He laid it on the table in the hope that it would preserve to the people of Oude that without which no people could long prosper politically or socially,—an aristocracy connected with the land.

The Motion was put and agreed to.

His Excellency the PRESIDENT moved for leave to bring in a Bill entitled "A Bill to provide for the sale of Waste Land and for the redemption of the Land Revenue." He said that the Bill which he had now to propose was not inferior in importance to that which he had already submitted to the Council. The scope of it would need little explanation to the Council, all of whom were familiar with the Resolution of Government of the 17th of October 1861 relative to the sale of Waste Land and the redemption of the Land Revenue. The Bill was in fact an embodiment of that Resolution. It had been in the contemplation of Government, as might be gathered from the last paragraph of the Resolution, that the first legislative action on this great subject should be taken by the Local Governments; and it must not be understood that the present Bill was introduced from any apprehension of a want of promptness or earnestness in the proceedings of those Governments. Quite the contrary. It had appeared to the Governor-General in Council, upon further consideration, that it was desirable in itself, and that it would probably be convenient to the Local Governments that a measure of such wide and imperial application should start into law from the Governor-General in Council. Even when this Act was passed, if the Local Governments desired to make modifications or additions in the application of the principles of the Resolution to their

own Presidencies, the Act would create no difficulty in their way—though it might in some cases be necessary to revoke or suspend particular clauses of it with reference to particular parts of the country, in order that the true spirit of the Resolution might be carried out under the special circumstances of particular Districts. The measure was designed to help the Local Governments, and to afford facilities and encouragements in carrying out the common object. One particular matter required notice. The Resolution of Government contemplated the security of the public creditor by the investment of the purchase-money of Waste Lands and money paid for the redemption of the Land Revenue. This Bill would charge the Currency Commissioners with that duty. No distinction was made in the Bill, any more than in the Resolution, between the two sources of Revenue; and it was his decided opinion that no such distinction ought to be made, though this was a point upon which some difference of view existed.

It was true that, hitherto, in India and in the Colonies, the proceeds of sales of Waste Lands had been carried to the Current Account of Income. Of the Colonies it was unnecessary to speak; but in India there was a special reason against this. For although at present Waste Lands in India yielded no Revenue, and although in selling them it could not be said that we parted with daily income, yet having regard to the Indian system of deriving Revenue directly from land, we most assuredly did part with dormant Revenue; and as our Civil administration extended over lands that now lay waste and needed no administration, new charges would come upon the Government. It might be confidently expected that the increasing prosperity of the country would enable us to meet such charges; but we should still be in the position of having sold for an immediate price a certain future income from those lands, and therefore we ought to treat that price as capital. For this reason, and also to guard against the possible objection of those who thought that they saw improvidence in the measure, and therefore did not regard it with favor, the Bill would provide for the investment, as Capital, of the whole proceeds, whether from redemption of the Land Revenue, or from sale of Waste Lands. He need not describe in detail the manner in which the Resolution of Government had been put into legal shape The terms of the Resolution were known to all, and they were in no way altered in the Bill. He would only express an earnest hope that the Bill, in the shape in which it had been framed, or as nearly so as might be found expedient, would soon become the law of India.

The Motion was put and agreed to.

The Hon'ble Mr. Ritchie moved for leave to bring in a Bill to annex a Schedule to Act IV. of 1862 (for regulating the Bank of Bengal). He stated that the sole object of this Bill was to add to that Act Schedule A. which had been inadvertently omitted.

The Motion was put and agreed to.

The Hon'ble Mr. Ritchie then applied to His Excellency the President to suspend Rules 15 and 16 for the conduct of business in order that he might introduce the Bill.

His Excellency the President declared those rules to be suspended, and the Bill was accordingly introduced.

The Hon'ble Mr. Ritchie then applied to His Excellency the President to suspend the Rules subsequent to Rules 15 and 16, which related to the publication of a Bill and the referring of it to a Select Committee, with a view to enable him to move that the Bill be passed.

His Excellency the President declared the Rules in question to be suspended, and the Bill was then passed.

The Hon'ble Mr. Ritchie moved for leave to bring in a Bill for constituting certain Officers of the Banks of Bengal, Madras, and Bombay, respectively, ex-officio Assessors of certain of the duties payable under Act XXXII. of 1860 (for imposing duties on the profits arising from Property, Professions, Trades, and Offices). He stated that the object of the Bill was simply to substitute the Secretaries and other Officers of the Banks of Bengal, Madras, and Bombay for the Sub-Treasurers as Assessors for the Income Tax payable on the interest on Government Paper which would henceforth be payable at the Banks.

The Motion was put and agreed to.

The Hon'ble Mr. Ritchie then applied to His Excellency the President to suspend the Rules 15 and 16 in order that the Bill might at once be introduced. He stated that he would then move that the Bill be referred to a Select Committee with instructions to report in a week. If the Committee did not hear that the agreement with the Bank of Bombay was agreed to, some alteration in the form of the Bill would be necessary.

His Excellency the President declared Rules 15 and 16 suspended.

The Hon'ble Mr. Ritchie then introduced the Bill, and moved that it be referred to a Select Committee with instructions to report in a week.

The Motion was put and agreed to.

The following Select Committees were named:—

On the Bill to repeal certain Regulations and Acts relating to Criminal Law and Procedure—the Hon'ble Messrs. Ritchie, Harington, Forbes, and Erskine.

On the Bill for constituting certain Officers of the Banks of Bengal, Madras, and Bombay, respectively, ex-officio Assessors of certain of the Duties payable under Act XXXII. of 1860 (for imposing Duties on the profits arising from Property, Professions, Trades, and Offices)—the Hon'ble Messrs. Laing, Ritchie, Fitzwilliam, and Cowie.

The Hon'ble Mr. Ritchie moved that the Select Committee on the Bill for the better protection of the public against bad Coin be instructed to report in two months.

The Motion was put and agreed to.

The Hon'ble Mr. Ritchie moved that the Select Committee on the Bill to amend Chapter XII. of the Indian Penal Code and to provide for certain offences against the Coin be instructed to report in two months.

The Motion was put and agreed to.

The Hon'ble Mr. Ritchie moved that the Hon'ble Mr. Erskine be added to the Select Committee on the Bill to provide for a new Silver and a new Copper Coinage.

The Motion was put and agreed to.

The Council adjourned till Wednesday, the 19th instant, at 11 A. M.

Act No. VII of 1862.

An Act to amend Act XLVI of 1860 (to authorize and regulate the Emigration of Native Laborers to the French Colonies.)

Preamble. Whereas since the passing of Act XLVI of 1860 *(to authorize and regulate the Emigration of Native Laborers to the French Colonies)* the Convention therein recited between Her Majesty the Queen of Great Britain and Ireland and His Majesty the Emperor of the French has been varied in the following particulars: that is to say, by substituting for Article XXVI in the said Convention as so recited in the said Act, the following Article;

"Article XXVI.

The present Convention shall begin to take effect on the 1st of July 1862; its duration is fixed at three years and a half. It shall remain in full force if notice for its termination be not given in the course of the month of July of the third year, and then notice can be given only in the course of the month of July of each succeeding year.

In case of such notice being given it shall cease eighteen months afterwards.

Nevertheless the Governor-General of British India in Council shall, in conformity with the Act of the 19th of September 1856, relative to immigration to British Colonies, have the power to suspend at any time emigration to any one or more of the French Colonies, in the event of his having reason to believe that in any such Colony proper measures have not been taken for the protection of the Emigrants immediately upon their arrival or during their residence therein or for their safe return to India, or to provide a return passage to India for any such Emigrants at or about the time at which they are entitled to such return passage.

In case, however, the power thus reserved to the Governor-General of British India should at any time be exercised, the French Government shall have the right immediately to terminate the whole Convention if they should think proper to do so.

But in the event of the determination of the present Convention, from whatever cause, the stipulations relative to Indian subjects of Her Britannic Majesty introduced into the French Colonies shall be maintained in force in favor of the said Indian subjects until they shall either have been sent back to their own country, or have renounced their right to a return passage to India."

"ARTICLE XXVII.

The present Convention shall be ratified, and the ratifications shall be exchanged at Paris in four weeks, or sooner if possible.

ADDITIONAL ARTICLE.

His Majesty the Emperor of the French having stated that, in consequence of the order which he gave long ago that no more African Emigrants should be introduced into the Island of Re-union, that Colony has, since last year, had to obtain laborers from India and China; and Her Britannic Majesty having, by Convention signed on the 25th of July 1860, between Her Majesty and His Majesty the Emperor of the French, authorized the Colony of Re-union to recruit six thousand laborers in Her Indian possesions, it is agreed that the Convention of this date shall take effect forthwith with regard to the said Colony of Re-union.

The present Additional Article shall have the same force and validity as if it were inserted word for word in the Convention signed this day. It shall be ratified, and the ratifications shall be exchanged at the same time as those of the Convention."

And whereas the said Convention, with such alterations and additions as aforesaid, together with such additional Article, has been duly signed, ratified, and confirmed:

It is declared and enacted as follows:—

Act XLVI of 1860 to be applicable to the Convention as signed and ratified.

All the provisions of Act XLVI of 1860 *(to authorize and regulate the Emigration of Native Laborers to the French Colonies)* shall be and remain in full force notwithstanding that the Convention therein recited had been so altered and added to before the same was signed or ratified as aforesaid: and all such provisions, in so far as the same relate to the Convention recited in the said Act, shall be deemed to apply and shall apply to the said Convention as signed and ratified as aforesaid together with the additional Article thereof.

THE Regulations and Acts which it is the object of this Bill to repeal, are chiefly those which have been superseded, and are virtually rescinded by the Indian Penal Code and the Code of Criminal Procedure, both of which Codes are now in operation. The opportunity is also taken to repeal several Regulations which have long been obsolete or superseded, but which have never yet been formally repealed.

The total number of Regulations and Acts in the three Presidencies, which will be repealed by this Act and removed from the Statute Book, is between two and three hundred.

War Office Circular No. 735.

Circular No. 735.

VICTORIA R.

WHEREAS we have judged it expedient to approve of the amalgamation of the General and Field Officers of Our Indian Armies with the General and Field Officers of Our Regular Army: Our Will and Pleasure is, that such amalgamation, and the promotion of the Officers to higher rank shall be carried into effect in the manner prescribed in the Regulations hereunto annexed.

7641 / 117

Given at Our Court at St. James's this first day of January 1862, in the Twenty-fifth year of Our Reign.

By Her Majesty's Command,
G. C. LEWIS.

REGULATIONS.

1. The existing General Officers of either Army shall continue, as at present, on separate lists.

2. All Colonels of either Army who attained that rank prior to the 17th February 1861 shall be continued on separate lists as at present, and shall succeed on separate lists to the rank of Major-General, Lieutenant-General, and General, under the Regulations now in force for each Army respectively; but if all the Colonels on one of the separate lists shall have become Major-Generals, while some of the Colonels on the other separate list are still unpromoted, those Colonels shall have the benefit of vacancies occurring in the lists of Generals of either Army, and Colonels so promoted shall be placed on an amalgamated list of Major-Generals, from which promotion shall be made by seniority in succession to all vacancies in the higher grades, whether of the British or Indian Service.

3. All Officers in either Army who shall have attained the rank of Colonel on or after the 17th day of February 1861, shall at once be placed according to the dates of their commissions, as Colonels on one general list, from which, so soon as the separate lists of Colonels are exhausted, promotion shall be made according to seniority in succession to all vacancies in the establishments of General Officers, whether of the British or the Indian Service, and Colonels so promoted shall enter upon the amalgamated list above provided, from which promotion shall be made by seniority in succession to all vacancies in the higher grades, whether of the British or Indian Service.

4. All promotions in the lower grades, in consequence of vacancies amongst General Officers, shall, until the general fusion hereinafter provided, be in each case to that service to which the Officer creating the vacancy belonged; and such promotions shall be made under the Regulations now in force in either service.

5. When all the Colonels on the separate list of the Cavalry, Guards, and Line, of the British Army, and on that of the Indian Army, shall have become Major-Generals, the whole of the Field Officers, including those of the Artillery and Engineers of both Armies, as well as Field Officers of the Royal Marines, shall be placed on one general list, from which all promotions shall be made up to the rank of Lieutenant-Colonel inclusive, in succession to vacancies on the General Officers list; and from that time the senior Captain of the United Army and Royal Marines shall succeed to a Brevet Majority, under the 15th Clause of the Warrant of the 14th October 1858.

6. Promotion to the rank of General Officer in the Royal Artillery and Royal Engineers will continue to be carried on under the Regulations now in force, until all the Colonels of Artillery and Engineers, as the case may be, on the separate list of the Indian Armies, shall have become Major-Generals; then the General Officers of the Artillery of the Indian Army shall be amalgamated with those of the Royal Artillery; and, in like manner, the General Officers of the Engineers of the Indian Army, with those of the Royal Engineers; promotions to the rank of General Officer in the Ordnance Corps being made subsequently to their respective amalgamations from one list of Colonels of the Royal and Indian Artillery, and from one list of Colonels of the Royal and Indian Engineers.

7. The present Establishment of General Officers of Her Majesty's Indian Artillery and Engineers was fixed at the rate of one Officer for each Battalion,* but as these Corps are now being incorporated with the Royal Artillery and Engineers respectively, it is necessary that the proportion of Generals to combatant Officers, adopted for Her Majesty's Forces, should be extended to the Brigades and Battalions now being added to the Artillery and Engineers respectively. Eventually, therefore, the Establishment of General Officers of the Brigades and Battalions now being transferred from the Indian Service will be fixed at twenty six for the Artillery and twelve for the Engineers respectively †

8. If at the time of the amalgamation of the General Officers of Artillery and Engineers provided in the 5th paragraph of this Warrant there shall be more General Officers of the Indian Artillery or Engineers than the proportion fixed as their Establishment, *viz.*, twenty-six for the Artillery and twelve for the Engineers—(a circumstance which might arise, from all promotions to the rank of General Officer in the Indian Service being now made on one general list which includes Officers of all branches of the Service,)—the excess shall be absorbed before a Colonel of the branch concerned can be promoted. Or, if there be less than the established number, promotions shall be made to supply the deficiency, from the general lists above mentioned, of Colonels of Royal and Indian Artillery and Engineers respectively.

9. Upon the transfer of the present twelve Regiments of European Cavalry and Infantry of the Indian Army to the British Army, a like number of General Officers will be taken off the Indian Establishment, and will, as Colonels of such Regiments, be transferred according to the dates of their commissions to the fixed Establishment of General Officers of the British Army.

But as the number (12) of General Officers thus brought from the Indian Establishment is less than the proportion (15) of General Officers due to the number of combatant Officers belonging to the transferred Regiments, an addition of three General Officers shall, on this account, be made to the unattached list of the British Army at the time referred to in paragraph 8 of this Warrant.

And in making these additions to the list of General Officers, the proportions of the different grades of General Officers now on the Establishment of the British Army shall be maintained.

10. The Field Officers coming to the British Army with these Regiments shall take their position on the general list of Field Officers, according to the date of their Army rank, by which their future promotion shall be governed.

11. The amalgamation of the Lists of General Officers, in accordance with these provisions, will in no wise affect the system which regulates the succession to the Colonelcies of Regiments of the British Army, or to the Colonels' allowances of Her Majesty's Indian Forces.

12. The present Establishment of General Officers of the Indian Army, inclusive of Artillery and Engineers, consists of twenty-five Generals, fifty Lieutenant-Generals, 145 Major-Generals, which numbers are, however, liable to reduction.

But the proportion of Generals maintained on account of the Indian Establishment shall at all times be governed by the principles adopted in respect to the British Forces, both as to numbers and gradation.

And reductions shall be made by gradual absorption, and by the promotion of not less than one Colonel for three vacancies amongst General Officers, until Supernumeraries are exhausted.

No. 326 *of* 1862.—The undermentioned Officers are permitted to proceed to Europe on leave of absence on Sick Certificate:—

Lieutenant-Colonel Charles Cureton, of the Bengal Staff Corps, Commandant, 15th Bengal Cavalry ...	For twenty months.

The following Extract from a Report of a recent Survey of the Coco Islands by Lieutenant Jackson, I. N., Commander of the Bengal Government Steam Vessel "Krishna," is published for general information:—

"On the morning of the 16th I hove to off Narcondam Island, with the peak bearing north (true) by Azimuth, and observed its longitude west of Fort Cornwallis Flagstaff, Penang, 6° 02′ 48″, and its latitude, deduced from observation at noon by means of two patent log distances, 13° 27′ 00″ north. The height above the level of the sea being 2,150 feet, and the variation 3° easterly.

From the above observations I find that Narcondam is placed about fourteen miles too far north in the Chart of the Bay of Pengal, published by Messrs. Allen and Company, in London, 8th September 1857. This is obviously an oversight, as the latitude here given agrees with that of former observers."

Memorandum on Colonel Dickens's Soane Canal Scheme.

THE printed volume of this scheme was sent home some months ago, with an intimation that any remarks and proposals that were required would be sent after the Bengal Government had had time to consider the matter.

The Lieutenant-Governor has now sent it up, but without entering into any detailed discussion. He merely says that it is an admirable scheme, and should be executed; that it holds out better prospects than the Orissa schemes, and that it would be good for both the East Indian Irrigation Company and for the country, if the Company were to adopt this instead of the other.

The Chief Engineer's remarks are very short and to the same purpose; quoting from his own notes a case illustrating the great value of irrigation in Behar.

Colonel Dickens' attention was first drawn to the irrigation of Shahabad when employed on the Trunk Road in that District. He then looked to the utilization of the streams coming from the hills above Sasseram (and thereabouts) by bunding, and submitted a memoir upon that subject in 1853. In 1854 he was sent to undertake a detailed examination, which led him to look to the Soane as the main source of irrigation.

In 1855 he submitted an approximate Estimate for an anicut on the Soane, with a canal on the west (Shahabad) bank, and also for a series of reservoirs in accordance with his original idea. The total cost according to these was to be 65 lakhs (so Colonel Dickens states it, but from his details it would appear to be only 55 lakhs).

Further, materials were collected up to the time of the Mutiny, which Colonel Dickens all along continued to work up as leisure permitted, and in December 1860 he re-visited the District and devoted the rest of his time, till he left India in September last, to completing the present project.

In this the creation of reservoirs in the hills has been dropt.

The flood discharge of the Soane, at a maximum, he estimates at no less than 1¼ millions of cubic feet per second. In the dry season the lowest discharge is *usually* about 4,000 cubic feet, but last year (1861) it fell so low as 950 towards the end of May. This would be discouraging were it to occur in the irrigating season, but that terminates in the middle of March, when the river even in the exceptional drought of last year carried 3,500 cubic feet.

The discharging capacity of the Soane Channel greatly diminishes in the last twenty or thirty miles of its course, and a great overflow consequently occurs, amounting probably to half the whole amount brought down by extreme floods.

Colonel Dickens shews that the Districts of Behar, south of the Ganges, have not had that exemption from scarcity or famine which the Court of Directors, in their notice of his first project, attributed to the whole Province.

The head of his canals he proposes to establish at Telcup, about eighteen miles above the Trunk Road. In his first scheme it was at Bandoo, further up, where the channel is narrower, but he gives sufficient reasons for the change.

The general scheme is that of two main canals, one from each end of the dam, which, after a course of ten or twelve miles, are spread into two fanlike systems of irrigation channels, extending on one side to the Kurumnassa and Ganges, on the other

to the Poon Poon and Ganges, and with navigation channels to Benares, to the mouth of the Kurumnassa, to Arrah and to Patna.

The aggregate dimensions will be—

Western Irrigation Canals	...	361 miles.
Eastern „ „	...	320 „
		681 miles.
Navigation only	...	145 „
Total	...	826 miles.

And the discharge—

Western	...	1,980 cubic feet.
Eastern	...	1,144 „
Total	...	3,124 c. ft. per second,

of which 600 cubic feet is reserved for navigation.

For the channels he adopts slopes calculated to give a velocity of two miles an hour.

The dam or anicut is on the general principle of the Madras Delta Works. The chief difference is in the depth of undersunk foundations which Colonel Dickens proposes, *viz.*, two rows of blocks twenty feet deep, whereas the Madras Officers content themselves with Wells of seven to nine feet deep. He considers that this is required both by the greater slope of the Soane, and on account of the greater accumulation of water which will be produced by the obstruction to a percolating stream afforded by his deeper and more continuous foundations.

The total cost of Colonel Dickens' scheme, entire, is estimated by him at 269 lakhs of Rupees.

This includes Establishment at 12½ per cent, and an allowance of 30 per cent in excess of the best data for rates, at present attainable, for probable increase during the execution of the works. It also includes the whole cost of Rajbuhas or distributaries. He has also allowed very largely for costly foundations. Indeed, never has been before Government a more conscientious endeavor to anticipate the maximum of cost. There is none of the attempt to make things palatable with which projectors are often justly reproached.

The navigation works out of this consume 74 lakhs, a reduced scheme of navigation which he indicates would cost 24 lakhs less.

For irrigation he proposes to charge at (ultimate) rates which will give a gross payment of Rupees 900 per cubic foot of discharge per annum. This rate he shows to be fair, *1st*, by analogy of the Eastern Jumna Canal and Baree Doab Canal rates (the Ganges Canal rates are acknowledged to be very low); *2nd*, by shewing what is the present comparative assessment of highly cultivated lands, in the adjoining District of Benares, per acre and per head of population. After deducting expenses the net income would be [not Rupees 5,42,420, as mispriuted at page 98, but] Rupees 18,42,520.

As regards navigation there is great difficulty in calculating probable Returns. But the products of the adjoining country and the direct communication which will be afforded with the Ganges are very advantageous to the development of a traffic on the proposed canals. He estimates the ultimate return at two lakhs.

The whole Return is thus abstracted :—

Irrigation	Rupees ..	18,42,420
Navigation	„ ..	2,00,000
Mills	„ ...	67,500
Miscellaneous	„ ...	31,240
Total	„ ...	21,41,160

This would be 8¾ per cent on the 245 lakhs (*i. e.*, with the reduced scheme of navigation). But this revenue would be of slow growth.

For the gradual execution of the works he would propose—

That the Patna Branch be first executed with its subordinate lines For this he would make only a temporary dam at a cost of 2¼ lakhs.

The cost (with navigation) would be Rupees 63,38,000. Spreading the outlay over five years there would be required—

1st year	...	5 lakhs.
2nd „	...	10 „
3rd „	...	16 „
4th „	...	16 „
5th „	...	16 „
Total	...	63 lakhs,

on which a Return of six per cent would be available.

The Arrah Branch might then be undertaken at a cost of 51 lakhs, giving a Return of 10½ per cent.

This last would therefore be the most profitable to begin with, but he gives a preference to the Patna Branch on account of the great importance of introducing improved navigation to Patna.

It is believed that the first cost of the work might be considerably reduced by working more on the Madras system of dispensing with permanent bridges and other costly works at first, and for any one appointed to undertake the work, a first step should be the study of those works (Kistna and Godavery) on the spot. There is no doubt that they have *initiated* a revenue with much smaller means than in the Irrigation works of the North-Western Provinces. There it has not commenced until the expenditure had gone on for years, and the heaviest masonry works had been completed. To some extent Colonel Dickens does propose this in his scheme of gradual execution, but probably it could be carried further, and on this point especially it would be good to have the views of an Officer experienced in the Madras Delta System. This has been invited.

It is clear that about 10 or 12 lakhs a year at first, and probably more after the first five or six years, would have to be devoted to the work.

Nothing need be suggested in commendation of the lucid, concise, and conscientious way in which Colonel Dickens has put forward this great scheme, which is entirely his own.

Railway Feeders—Burdwan Division.

From LIEUTENANT-COLONEL J. P. BEADLE, Officiating Secretary to the Government of Bengal, in the Public Works Department, to the Commissioner of the Burdwan Division,—(dated the 6th March 1862.)

SIR,—I HAVE placed your Report, dated 18th February, with the accompanying section of country taken by Mr. Sharp, the Local Divisional Engineer, before the Lieutenant-Governor, who desires me to thank you for the clear and comprehensive way in which you have treated the subject of the important District Road, which it is proposed to complete between the Bancoorah Trunk Road, the Grand Trunk Road, the Raneegunge Branch Railway, and the Main Line of the East Indian Railway.

2. It appears that, for the completion of the above cross communication, Rupees 81,157 will be required; and that, taking two portions of the road as Railway Feeders, you have allotted Rupees 21,500 for their construction from the Funds (Amalgamated District) already placed at your disposal, leaving a balance of say Rupees 60,000 to be provided for the completion of this road.

3. The Lieutenant-Governor in his Budget Statements has proposed, out of the second allotment of the one per cent Income Tax Public Works Fund, to place Rupees 90,000 at disposal for the completion of the Bissenpore Roads, which would leave Rupees 30,000 over and above what is required for the District Road under consideration, to be applied to the metalling of the Bancoorah Imperial Road.

4. With this sum, and a further grant from the Reserve Fund of the Imperial Budget (1862-63), the Lieutenant-Governor desires to secure the early completion of the metalling to the Imperial Road through the Bancoorah District, for the execution of which preparations have been commenced, so that this highway which leads to the Madras Coast may be metalled as far as Midnapore.

5. Provision has also been made in the allotments from the first instalment of the one per cent fund, for the completion of the Cross District Road and Feeder which is to connect Soory with Raneegunge, crossing the Singaran River near to the Terminus of that Branch Railway.

6. I am instructed to recapitulate these proceedings so as to bring in one view the arrangements made for completing the system of roads in your Division which lies westward of the great Railway Fork at the Kanoo junction.

7. You will see that funds are forthcoming for the completion of the works. It only remains to arrange for the works being carried out in a substantial way, and for taking the best lines for permanent occupation.

8. In the present case there appears to be some doubt as to the best line to take in leaving the Bancoorah Road at Bissenpore; but the Lieutenant-Governor approves of the road being made direct from Bissenpore to Soonamookhee, so as to form one line from Midnapore and the Southern Coast Frontier to the East Indian Railway.

9. There seems to be no question about the direction of the road from Soonamookhee to the Railway Station at Paneeghur: the old road will be followed, but it requires to be re-constructed and completed.

10. From the Branch Railway to Ilambazaar the direction appears to be good, and the existing road is in fair order. The Lieutenant-Governor is glad to learn that the road from Ilambazaar to Ramnuggur is in such good condition. The state of this road is creditable to the Messrs. Erskine, who have acted for the Ferry Fund Committee in constructing and maintaining it.

11. The road to Soopoor requires to be completed, and a new short line has to be made from Soopoor to the Railway Station at Bhulpoor, where this cross district communication will terminate.

12. The Lieutenant-Governor approves of your having provided for the construction of the two Feeders which form portions of this road, from Soonamookhee to Paneeghur Railway Station, and from Soopoor to Bhulpoor Railway Station, from the Amalgamated District Roads' Funds.

13. The route when completed will have about the following lengths:—

Bancoorah Road to Soonamookhee, with the Dalkissore River crossing	17	miles.
Soonamookhee to Paneeghur, with the Damoodur River crossing ...	11¼	„
Paneeghur to Ilambazaar, with the Adjai River and Khareo River crossing ...	14	„
Ilambazaar to Bhulpoor ...	12	„
making a total length of ...	54¼	miles,

THE following Act of the Governor-General of India in Council received the assent of His Excellency the Governor-General on the 12th March 1862, and is hereby promulgated for general information:—

ACT No. VII OF 1862.

An Act to amend Act XLVI of 1860 (to authorize and regulate the Emigration of Native Laborers to the French Colonies.)

Preamble. WHEREAS since the passing of Act XLVI of 1860 *(to authorize and regulate the Emigration of Native Laborers to the French Colonies)* the Convention therein recited between Her Majesty the Queen of Great Britain and Ireland and His Majesty the Emperor of the French has been varied in the following particulars: that is to say, by substituting for Article XXVI in the said Convention as so recited in the said Act, the following Article:

"ARTICLE XXVI.

The present Convention shall begin to take effect on the 1st of July 1862; its duration is fixed at three years and a half. It shall remain in full force if notice for its termination be not given in the course of the month of July of the third year, and then notice can be given only in the course of the month of July of each succeeding year.

In case of such notice being given it shall cease eighteen months afterwards.

Nevertheless the Governor-General of British India in Council shall, in conformity with the Act of the 19th of September 1856, relative to immigration to British Colonies, have the power to suspend at any time emigration to any one or more of the French Colonies, in the event of his having reason to believe that in any such Colony proper measures have not been taken for the protection of the Emigrants immediately upon their arrival or during their residence therein or for their safe return to India, or to provide a return passage to India for any such Emigrants at or

about the time at which they are entitled to such return passage.

In case, however, the power thus reserved to the Governor-General of British India should at any time be exercised, the French Government shall have the right immediately to terminate the whole Convention if they should think proper to do so.

But in the event of the determination of the present Convention, from whatever cause, the stipulations relative to Indian subjects of Her Britannic Majesty introduced into the French Colonies shall be maintained in force in favor of the said Indian subjects until they shall either have been sent back to their own country, or have renounced their right to a return passage to India."

And also by the addition of the two following Articles which were not comprised in the Convention or recited in the said Act, that is to say—

"ARTICLE XXVII.

The present Convention shall be ratified, and the ratifications shall be exchanged at Paris in four weeks, or sooner if possible.

ADDITIONAL ARTICLE.

His Majesty the Emperor of the French having stated that, in consequence of the order which he gave long ago that no more African Emigrants should be introduced into the Island of Re-union, that Colony has, since last year, had to obtain laborers from India and China; and Her Britannic Majesty having, by Convention signed on the 25th of July 1860, between Her Majesty and His Majesty the Emperor of the French, authorized the Colony of Re-union to recruit six thousand laborers in Her Indian possesions, it is agreed that the Convention of this date shall take effect forthwith with regard to the said Colony of Re-union.

The present Additional Article shall have the same force and validity as if it were inserted word for word in the Convention signed this day. It shall be ratified, and the ratifications shall be exchanged at the same time as those of the Convention."

And whereas the said Convention, with such alterations and additions as aforesaid, together with such additional Article, has been duly signed, ratified, and confirmed:

It is declared and enacted as follows:—

Act XLVI of 1860 to be applicable to the Convention as signed and ratified.

All the provisions of Act XLVI of 1860 *(to authorize and regulate the Emigration of Native Laborers to the French Colonies)* shall be and remain in full force notwithstanding that the Convention therein recited had been so altered and added to before the same was signed or ratified as aforesaid: and all such provisions, in so far as the same relate to the Convention recited in the said Act, shall be deemed to apply and shall apply to the said Convention as signed and ratified as aforesaid together with the additional Article thereof.

Upon such appeal being made, the District or Sudder Court, as the case may be, may issue a precept to the Collector desiring him to stay the partition pending the decision of the appeal.

Partition may be stayed if parties are not desirous that it should proceed.

XXXV. If, at any time after an order shall have been passed for making a partition, it shall appear, either from the report of the Officer appointed to make the partition, or from any other information, that the parties are not desirous that the partition should proceed, it shall be competent to the Collector, with the sanction of the Commissioner, to stop the partition,

and to strike the case off the file, recovering from the sharers all costs and expenses incurred up to that time.

Partition of estates to be as compact as possible.

XXXVI. It shall be the duty of the Officer appointed to make the partition, so far as circumstances will admit, to take care that the estates into which the estate is divided shall consist of contiguous mehals or villages. Provided that if the estate ordered to be divided shall not consist of a sufficient number of villages to admit of one or more entire village or villages being included in each estate, the partition of the village or villages of which the estate shall consist shall be made so as to render each estate as compact as possible.

Revenue to be assessed on each divided estate.

XXXVII. The public revenue shall be assessed on each estate into which the property shall be ordered to be divided, in conformity to the rules contained in any law for the time being in force.

Circumstances to be taken into consideration in making partitions.

XXXVIII. In selecting the villages or lands to be included in each separate estate, the advantages or disadvantages arising from situation, the vicinity of roads, railways, navigable rivers, or canals, the nature and quality of the soil and produce, the quantity of culturable and unculturable waste land, the depth at which water may be procurable, the number of tanks and wells, the state of the embankments and water-courses, and any other local circumstances affecting the present or likely to influence the future value of the lands, shall be duly considered, and the villages or lands to be included in each estate shall

be fairly and impartially selected. So far as may be practicable and consistent with compactness of partition, lands held in severalty shall be left in the possession of the parties holding the same.

Rule when dwelling-house belonging to one sharer is situate on ground to be allotted to another sharer.

XXXIX. If a dwelling-house belonging to one sharer shall be situate on any land or in any village which it may be necessary to include in the share of another sharer, the proprietor of such house shall be at liberty to retain it, with the offices, buildings, and grounds immediately attached thereto, upon agreeing to pay to the proprietor of the land or village in which the same is situate an equitable rent for the ground. The limits of the ground and the rent to be paid for it shall be fixed by the Officer making the partition and shall be stated in the paper of partition.

Rule as to tanks, wells, water-courses, and embankments.

XL. Tanks, wells, water-courses, and embankments shall be considered as attached to the land for the benefit of which they were originally made. In cases in which, from the extent, situation, or construction of such works, it shall be found necessary to continue them the joint property of the proprietors of two or more of the estates into which the estate may be divided, the paper of partition shall specify, as far as circumstances may admit, the extent to which the proprietors of each of such estates may make use of the same and of the proportion of the charges for repairs to be borne by them respectively.

Rule as to places of worship.

XLI. Places of worship which shall have been held in common previous to the partition of an estate shall continue to be so held, unless the parties shall otherwise agree amongst themselves, in which case they shall state in writing the agreement into which they have entered, and the Officer making the partition shall enter a note of the agreement in the paper of partition.

Powers of Deputy Collector carrying out the partition of an estate.

XLII. The Officer appointed to make the partition of an estate, shall exercise in such estate all the powers described in Act X of 1859 *(to amend the law relating to the recovery of Rent in the Presidency of Bengal,)* and determine all suits and differences triable under that law between landlord and tenant; and any cases relating to the estate which may be depending before any Collector or Deputy Collector during the time the partition is in progress may be transferred to such Officer for disposal.

Particulars to be contained in the paper of partition to be submitted by the Deputy Collector.

XLIII. When the Officer appointed to make the partition shall have completed the partition and allotted the public Revenue on each of the estates into which it is proposed that the estate shall be divided, he shall prepare and submit to the Collector a paper of partition showing how he proposes to divide the estate and to apportion the public revenue. This paper shall specify the names of the Mehals or villages included in each separate estate, the gross produce of each Mehal and village for the three years immediately preceding the year in which the partition is ordered to be made, the names of the parties to whom the several estates are allotted, and the proportion of the public revenue proposed to be assessed on each of such estates, with any remarks regarding the mode observed in selecting the lands included in each estate, and the accounts upon which the apportionment of the public revenue assessed thereon shall have been based, as may be necessary for the information of the Collector. The paper shall further contain a detail of the adjustments, if any, which shall have been made in respect to any tanks, places of worship, or other matters, as specified in the preceding Sections. The Officer

appointed to make the partition shall also submit a map showing the several estates into which the estate is proposed to be divided.

Report to be submitted by Collector to the Commissioner.

XLIV. The Collector shall take into consideration the partition proposed by the Officer appointed to make the partition, and, after calling for any further information which he shall deem necessary and disposing of any objections which shall be taken to the partition and allotment of public revenue as proposed by such Officer, he shall submit a report to the Commissioner together with such of the papers of the case as shall appear to him essential. He shall also forward a list of the papers not sent. The Collector shall record his opinion whether the proposed partition should be confirmed or modified, and in the latter case he shall state the nature of the modification which in his opinion should be made.

Confirmation or modification of partition by Commissioner subject to appeal to the Board of Revenue.

XLV. The Commissioner shall either uphold the partition proposed by the Collector or modify the same. The decision of the Commissioner shall not be open to revision by the Civil Court, but shall be subject to appeal to the Board of Revenue. The Commissioner, before coming to a decision, may call for any additional papers, or direct any further inquiry that he shall consider necessary.

Procedure by Collector on receipt of order of Commissioner or of Board of Revenue on appeal.

XLVI. On the receipt of the order of the Commissioner, or, if an appeal be preferred to the Board of Revenue, then of the order passed on the appeal, the Collector shall cause the same to be published in his Office and in some conspicuous place in each of the estates separately constituted by such order. The Collector shall at the same time specify the date from which each of the estates shall be held to be a separate estate, and shall enter the several estates into which the estate has been divided in the Register of Estates paying revenue to Government. The Collector shall give the several proprietors possession of the estates allotted to them, and, if necessary, may avail himself of the assistance of the Magistrate in giving possession.

Procedure in cases of fraudulent or erroneous apportionment of the public revenue.

XLVII. In order to prevent collusion or error in the distribution of the public revenue assessed upon an estate which may be ordered to be divided into two or more distinct estates, if it shall be proved to the satisfaction of the Government within twelve years from and after the date of confirmation of the partition, that the public revenue was fraudulently or erroneously apportioned at the time of the partition, the Government shall have power to order a new allotment of the public revenue upon the several estates into which such estate may have been divided conformably to the principles prescribed in this Act, on an estimate

of the gross produce of each estate at the time of the partition, to be made agreeably to the best evidence and information which may be procurable respecting the same. Such order shall not be liable to be contested in the Civil Court. The parties whose estates may be declared to have been under-assessed shall be required to pay to the proprietors of the estates which shall have been over-assessed the sum in which they shall be found to have been over-assessed, and in default of payment the amount shall be leviable by the process prescribed for the recovery of arrears of rent or revenue.

Neglect or omission to bring a suit, to contest the right, title, &c., to any land while an estate is under attachment, to be a valid plea in bar of suit subsequently instituted.

XLVIII. If, during the time an estate is under attachment with a view to the partition of the same, any party shall neglect or omit to claim by a suit any right or title he may then have to the ownership or occupancy at a fixed rent of any land situated in such estate or any other interest therein, such neglect or omission shall be a valid plea in bar of any suit relating to such right, title, or interest, unless the party can satisfy the Court that there was good and sufficient reason for his neglect or omission to institute the suit at or before such time. Provided that this Section shall not bar any action for arrears of rent or the enhancement or alteration of rent.

Application for partition after decree of Court awarding proprietary right in a portion of an estate.

XLIX. Whenever any Court of Civil Judicature shall pass a decree awarding to any person the proprietary right in a portion of an estate paying revenue to Government, whether the portion so awarded shall consist of a fractional share in the whole or a part of the estate, or of specific lands, the decree-holder may apply to the Collector for a partition of the estate; and on the receipt of such application, the Collector shall proceed thereupon under the provisions of this Act, which are hereby declared applicable to such applications.

Union and separation of estates or of portions of estates in certain cases.

L. If two or more estates, which may have originally formed portions of the same estate, shall come into the possession of one person, such person shall be entitled to have such estates united and to hold them as a single estate; or if two or more persons shall have separate possession of their respective shares of an estate which was originally held as a joint undivided estate, such persons may apply to have their shares united and to hold them as one estate.

Application to be in writing, and Collector to comply with it if he sees no objection.

LI. The applications for the union of the estates or of the shares of the estate, as the case may be, shall be made in writing to the Collector of the District in which the estates or shares of the estate are situate, and the Collector (provided he see no objection) shall comply with the application and cause the necessary entries to be made in the records of his Office, reporting the case to the superior Revenue Authorities.

Certain portions of this Act made applicable to pending cases.

LII. The provisions of this Act, so far as they relate to the completion and confirmation or to the staying or quashing of the partition of an estate, may be applied at the discretion of the Collector in all cases of the partition of estates pending at the time of the passing of this Act.

Provisions of this Act may as far as applicable be applied to partition of estates held free from the payment of revenue.

LIII. The provisions of this Act may, in so far as the same are applicable, be applied by order of the local Government to the partition of any estate held free from the payment of Government revenue.

Territorial scope of Act.

STATEMENT OF OBJECTS AND REASONS

THE present law under which the partition of estates, held in joint tenancy, is made by the Revenue Officers of Government in the Presidency of Fort William in Bengal, has been found defective in respect to a very numerous class of estates in the North-Western Provinces of that Presidency, that is to say, estates the property of two or more persons the lands comprised in which are held partly in severalty and partly in common. The wording of the present law* precludes the application of its provisions to estates of this description, and even the lands in such estates which are held in common are considered not to be divisible under it.

* *Vide* Section 30 Regulation XIX. 1814 of the Bengal Code.

But a more serious objection to the existing law is to be found in the extremely dilatory character of the procedure which it lays down for the partition of a joint undivided estate. The nature of this procedure is such that it admits of constant impediments being thrown in the way of a partition by any person who has an object or an interest in obstructing or retarding the partition, and the consequence is, in the great majority of cases, almost intolerable delay.

The objects chiefly aimed at in the present Bill, are the removal of the defect in the present law, already noticed, and the introduction of a more simple and summary procedure which shall admit of the partition of an estate held in common tenancy being ordinarily effected within a comparatively short period, instead of being, as is not unfrequently the case at present, the work of several years if not of a long life.

It is a question whether the partition of very small estates should be allowed, the objection to the partition of such estates being the difficulty experienced in collecting the Revenue of Government from a number of small properties. But a Regulation was passed upwards of half a century ago (Regulation V. 1810) which seems to have recognised the right of every co-sharer in a joint undivided estate, whatever its extent, to have his share of the estate separated from the rest and to hold the same in severalty; and the right being conceded, it is only just and proper that the law should afford means for the enforcement of the right without difficulty, with reasonable expedition, and at a moderate cost. It is hoped that the present Bill will provide such means.

A table showing the arrangement and subject of the Sections of which the Bill consists is affixed to the Bill. To this table I beg to refer for the detailed provisions of the Bill.

It will be seen that Section LIII proposes to allow the provisions of the Bill to be applied, at the discretion of the local Government, to the partition of estates held free from the payment of Government revenue. The present law is restricted in its application to estates paying revenue to Government. The extension of the law, under certain circumstances, in the manner proposed, to rent-free estates is considered desirable in reference to some of the grants of estates or shares of estates which were made for services rendered during the eventful years of 1857 and 1858.

The Bill, as now framed, has been seen by the Members of the Sudder Board of Revenue at Allahabad, and is approved of by them. I believe I may say it has also the approval of the Honorable the Lieutenant-Governor of the North-Western Provinces, at whose instance the Bill is brought in.

In preparing the Bill, I received great assistance from Baboo Prosunno Coomar Tagore, the learned Clerk Assistant of the late Legislative Council.

The Bill, as it was originally drawn by me, was intended to apply to all the Regulation Districts of the Presidency of Fort William in Bengal; but on hearing that a separate Legislative Council was to be constituted for the Lower Provinces of Bengal, I at once determined to restrict the application of the Bill to the North-Western Provinces of that Presidency, and the Bill is now framed accordingly. I believe I have sufficient ground for saying that the alterations which the Bill proposes to make in the existing law as regards the North-Western Provinces are, for the most part, equally required for the Lower Provinces of Bengal; but the introduction of a Bill for Bengal obviously falls more properly within the province of the local Legislature than of the Council of the Governor General of India.

Statement of Objects and Reasons.

This Bill was prepared and brought into the late Legislative Council at the request of the Government of India, for the purpose of extending to Rangoon, Moulmein, Tavoy, and Mergui the provisions of Municipal Law which now prevail in the Presidency Towns and the Straits' Settlement.

Some slight departures from the existing Law will be found in the Bill, but they are only such as the peculiar circumstances of the Towns, which it is now proposed to bring under the Municipal Acts, have called for.

Since this Bill was originally published for general information, petitions on the subject of it have been received from the inhabitants of the Towns to which it refers. These petitions will be laid before any Select Committee that may be nominated to report on this Bill.

I. The Lieutenant-Governor of Bengal may, in each and every Zillah or District of the Provinces subject to the Government of Bengal, appoint any person whom he may think fit to be a Register of Deeds under the provisions of Regulation XXXVI. 1793, and Section XXXII of Regulation XII. 1805, and Act XXX of 1838, or of any or either of them. Every Register so appointed shall be styled the "District Register" of the District to which he is appointed, and his Office shall be styled the "District Register Office."

The Lieutenant-Governor may appoint "Deputy Registers."

II. The Lieutenant-Governor of Bengal may establish subordinate Offices of Registry at such places as shall to him seem proper, and every such subordinate Office shall

be styled a "Deputy Register Office" of the District in which it is situated: and the Lieutenant-Governor of Bengal may appoint any person whom he may think fit to superintend such "Deputy Register Office," and the person so appointed shall be styled a "Deputy Register" of the District to which the Office which he superintends belongs.

Such copy shall be furnished and attested as prescribed in Clause I Section II Regulation XX. 1812, and the District Register, on receiving such copy, shall register the same, as if it had been presented to him in the first instance by the party registering. For every such copy required for transmission to the District Register Office as aforesaid, the party registering shall pay half the fee payable for registration in the first instance. Such copies or copy shall be furnished and attested as prescribed in Clause 1 Section II of Regulation XX. 1812; and every District Register receiving a copy so forwarded, shall duly register it, as if it had been presented to him in the first instance by the party registering. For every such copy required for transmission to any other District Register Office as aforesaid, the party registering shall pay the usual fee payable on registration.

All fees received are to be credited to Government Government to pay Registers' Salaries thereout.

XI. All fees received by any District Register or Deputy Register of Deeds appointed under this Act, shall be credited to Government in such manner as the Government may direct, and out of the fees so credited, whether received by one Office or by more than one Office, the Government shall pay to the District Registers and Deputy Registers so appointed as aforesaid, such salaries as it shall think proper.

Government to allow to the Register Offices suitable Establishments and to pay for them out of the fee fund.

XII. So much of Section XIV of Regulation XXXVI. 1793 as provides that from the fees in that Section mentioned, the Register shall provide the necessary Native Officers to make the entries and copies directed as well as the required stationery, is hereby repealed as regards all District Registers and Deputy Registers appointed under this Act; and it is hereby provided that the Government may allow such Establishments to the several District Registers and Deputy Registers appointed under this Act as may be necessary for the efficient conduct of the duties of their respective offices, and the cost of such Establishments shall be paid by Government out of the fees credited as directed in the

last preceding Section, and all the expenses connected with the said District and Deputy Register Offices respectively, including the supply and safe custody of Register Books, shall be defrayed by Government out of the said fee fund.

At the close of the year the Deputy Register is to make over all books to District Register.

The 19th March 1862.

Act XIX. of 1861 having come into operation on the 1st instant, it is important to guard against any misapprehension among Treasury Officers as to the wishes of Government in regard to the action of District Officers generally in promoting the introduction of the new Currency.

The new Currency Notes are now a legal tender in certain Districts as specified in the Notification cited in the margin, and must necessarily be received, when tendered, in payment of demands of Government of every description; but Silver can only be demanded as of right in exchange for Notes at the several Presidency Towns whence they have been issued.

Financial Notification No. 1, dated 3rd January 1862.

It is the desire of Government that, as far as possible, every facility may be afforded by local Officers for cashing Notes, and that every legitimate means may be employed to promote, generally, the free circulation of the new Currency; but it is equally their wish that there may be an entire absence of any thing which could be construed into a desire to force the circulation, or in any way interfere with the free action of the community in resorting, at their own time, and in their own way, to the use of the Currency Notes. Officers will recollect that the Government have no direct interest in forcing the Paper Currency, and that any Act which leads to such a suspicion will only retard the period when confidence may be fully established, and the community reap the benefit of an improved circulating medium.

It may be expected that there will be a tendency to employ the New Notes to a considerable extent as a means of remittance and for small amounts among private parties, and, in localities distant from Banks, it may be desirable that the Government should give facilities for this purpose; but it would be very objectionable if this were carried so far as to interfere with the legitimate operations of private enterprize, or with the system of Supply Bills to which the public are accustomed.

Much, in matters of this description, must necessarily be left to the discretion of the local Officers; but without incurring risk of

inconvenience, it may be prescribed, generally, as the rule to be observed—

1*st*.—That Notes are to be received in payment of all demands of Government, but are for the present to be paid only when parties receiving payment do not object.

2*nd*.—That Notes are to be cashed at places where there are no Branch Banks acting as Agents for the Government Currency, and then only to a limited extent, and for small sums, as an accommodation to private parties or travellers at the discretion of Treasury Officers.

3*rd*.—That Supply Bills are to be paid, generally, at the option of the holders either in Coin or Notes, subject to such instructions as may, from time to time, be received from the Deputy Auditor and Accountant-General.

4*th*.—That Notes should never be returned to the Presidency except under the direct instructions of the Deputy Auditor and Accountant-General.

5*th*.—That a Report as to the progress of these measures should, from time to time, be furnished to Government, and should the local Officers foresee any difficulty as likely to arise they should at once report it.

4. Lieutenant-Colonel R. Strachey, of the Engineers, has been employed, from the 16th July 1861 to the 4th January 1862, on the defensive works now under construction in this country, and is entitled to count half the period abovementioned as service for pension.

No. 328 *of* 1862.—The following Order, issued by the Government of Bombay, is confirmed: —

No. 178, *dated 8th March* 1862.—Granting leave of absence to Europe, on Medical Certificate, to the undermentioned Officers: —

Captain Henry Ferrers Waddington, of the Bengal Staff Corps, Deputy Commissioner of the Jubbulpore Division, Mundlah ...	For twenty months.
Lieutenant Gerveys Richard Grylls, of the late 18th Regiment Native Infantry ...	For eighteen months, under the new Regulations.

No. 329 *of* 1862.—His Excellency the Governor General in Council is pleased to observe that, before the revision of the pay of European Soldiers in 1840, European Non-Commissioned Officers on detached Staff employ in the Bengal Presidency, received dry batta at Rupees (10) ten per mensem, from which they provided their own rations.

2. On the revision of pay by Government General Order No. 146, dated 8th July 1840, the sum of (Rs. 1-9-10) one Rupee, nine annas and ten pie in Garrison, and Rupees (3-2-8) three, two annas and eight pie per mensem on the Field Scale, was added to the pay of the European Soldiers of all ranks. This addition having been made applicable to those on Staff employ, a corresponding deduction, *viz.*, of Rupees (3-2-8) three, two annas and eight pie, was made from their dry batta, thus reducing it from Rupees (10) ten to Rupees (6-13-4) six, thirteen annas and four pie per month.

3. It was subsequently ordered by Government General Order No. 59 of 17th March 1843, that as the pay of European Non-Commissioned Officers and Privates, whether on Staff employ or on Regimental duty, was uniform, so those on Staff employ should receive as dry batta no more than the equivalent for the sum of (5) five pence per diem, which is stopped for rations from the pay of the Soldier doing Regimental duty. The dry batta of European Non-Commissioned Officers and Privates on Staff employ was accordingly fixed by Government General Order of 17th March 1843, No. 59, at Rupees (6-5-4) six, five annas and four pie per mensem, and it still continues at that rate.

4. It is known, however, owing to the additions made to the Soldier's ration by General Order by the Governor General No. 876, dated 28th October 1853, that the monthly cost of the Soldier's ration exceeds Rupees (6-5-4) six, five annas and four pie even at the wholesale prices at which the articles of the ration are obtained by the Commissariat, and that the Soldier on detached employ cannot provide his food on that allowance.

5. It is ruled accordingly that European Non-Commissioned Officers, Corporals, and Privates on detached Staff employ, or serving in situations where they are not rationed by the Commissariat, shall, if not drawing consolidated salaries, be allowed dry batta at Rupees (10) ten, instead of Rupees (6-5-4) six, five annas and four pie per mensem.

6. This indulgence is conceded to all who receive Military pay and dry batta.

No. 330 *of* 1862.—The following paragraphs of a Military Letter from the Right Hon'ble the Secretary of State for India, No. 51 of the 15th ultimo, are published for general information:—

1. I have received and considered in Council your letter No 337, dated 9th December 1861, forwarding copies of a letter No. 2761, dated 25th September 1861, from the Government of Bombay, and of your reply, intimating that it was intended that the three years during which an unemployed General Officer of the Staff Corps, who may not be required to remain in India, is (by p. 97 of G. 2. The reply is entirely in accordance with the intentions of Her Majesty's Government.

No. 338 *of* 1862.—In continuation of Government General Order No. 246 of the 19th March 1861, the following Rules are now issued, modifying and defining more particularly the distribution of duties between the different Departments supplying the service of the Barrack Department.

2. Barrack Masters will have charge of all complete and finished buildings, furniture, &c. Of the latter he will keep a strict account, distributing it according to the exigencies of the service.

3. The repair and supply of Barrack Furniture, ordered in the above Notification to be performed by the Public Works Department, will, in future, be provided, on requisitions, by Barrack Masters, countersigned by an Officer of the Quarter-Master General's Department, to the Commissariat Department, which will be at liberty to have the works executed by private Contractors, by Regimental Workshops, or by the Department of Public Works. The Quarter-Master General, or any Officer of his Department authorizing the work, will be responsible for its being undertaken, while the responsibility for the cost of execution will rest with the Commissariat Officer.

4. When the Commissariat indents upon the Public Works Department for the construction or repair of Barrack Furniture, the Public Works Department will comply with the Indent, each description of work being executed according to rates detailed in Schedules, which are to be prepared by the Public Works Department in the beginning of each year, and are to continue in force from the 1st May for the succeeding twelve months. These Schedules of rates will be sent to the Military Finance Department by the Local Governments or Chief Engineer, in order to enable that Department to issue Rules for the examination of charges and to control the expenditure.

5. The Executive Engineer at each Station will present his Bill to the Commissariat Officer for work executed in repairs, or supplying of Barrack Furniture during any month, immediately after the close of it; the works done will be charged for at the Schedule rates, and the Bill will be immediately discharged in cash by the Commissariat Officer.

6. Should an Indent be made by the Commissariat Department on the Executive Engineer for any work of an unforeseen nature, the cost of which has not been provided for by the Schedule rates, the Executive Engineer will furnish the Commissariat Officer with an Estimate of cost, and the responsibility of ordering the work will then rest with the Commissariat Officer. Should the Commissariat Officer authorize the work to be executed in the Public Works Department, the estimated cost is to be charged in the Bill of the Officer of the Public Works Department, whether it exceed or fall short of the actual cost incurred; the Executive Engineer in this, as in the case of Schedule rates, being responsible to the Authorities

of his own Department for not exceeding his Estimates. The Bill for the work executed will have attached to it the Estimate of the Public Works Department.

7. In order to facilitate the check over the expenditure, the annual Estimates for Barrack Supplies will be prepared by the Quarter-Master General's Department; the Officers of the Commissariat Department will obtain and give timely information of the rates to be charged in the Schedule of the Public Works Department for the following year, and when required to do so, will assist the Officers of the Quarter-Master General's Department in preparing their Estimates by supplying them with information as to rates and prices.

8. The forms for these Estimates will be prescribed by the Military Finance Department, by which Department the Estimates will be checked and passed.

9. Fire Engines will be in charge of Officers Commanding the Regiments, in whose lines the Engines are located. The Barrack Master should inspect them occasionally. They should be repaired by the Ordnance Department when practicable, and where there is no Workshop, in the manner provided above for repairs to furniture.

10. These Rules will come into force from the 1st May 1862. For the remainder of the present year the existing procedure will continue in force, detailed information of the work executed by the Public Works Department being supplied to the Military Finance Department under instructions which have been issued by the former.

11. A credit will be transferred immediately from the Military to the Public Works Department to cover the expenditure that has been, or may be, incurred during the current year on the transmission, by the Public Works Department, of an account or an approximate Statement of such expenditure.

MARINE DEPARTMENT.

No. 136.

Fort William, the 13th March 1862.

The following Extract from a Report of a recent Survey of the Cocos Islands by Lieutenant Jackson, I. N., Commander of the Bengal Government Steam Vessel "Krishna," is published for general information:—

"On the morning of the 16th I hove to off Narcondam Island, with the peak bearing north (true) by Azimuth, and observed its longitude west of Fort Cornwallis Flagstaff, Penang, 0° 02′ 48″, and its latitude, deduced from observation at noon by means of two patent log distances, 13° 27′ 00″ north. The height above the level of the sea being 2,150 feet, and the variation 3° easterly.

From the above observations I find that Narcondam is placed about fourteen miles too far north in the Chart of the Bay of Bengal, published by Messrs. Allen and Company, in London, 8th September 1857. This is obviously an oversight, as the latitude here given agrees with that of former observers."

Government of India.

Abstract of the Proceedings of the Council of the Governor-General of India assembled for the purpose of making Laws and Regulations under the provisions of the Act of Parliament 24 and 25 Vic., c. 67.

THE Council met at Government House on Wednesday, the 19th March 1862.

PRESENT :

His Excellency the Viceroy and Governor-General of India, *presiding.*
His Honor the Lieutenant-Governor of Bengal.
His Highness the Maharajah of Puttiala, K. S. I.
The Hon'ble Sir H. B. E. Frere, K. C. B.
The Hon'ble Cecil Beadon.
Major-General the Hon'ble Sir R. Napier, K. C. B.
The Hon'ble S. Laing.
The Hon'ble H. B. Harington.
The Hon'ble H. Forbes.
The Hon'ble C. J. Erskine.
The Hon'ble W. S. Fitzwilliam.
The Hon'ble D. Cowie.
The Hon'ble Rajah Deo Narain Singh Bahadoor.
The Hon'ble Rajah Dinkar Rao Rugonauth Moontazim Bahadoor.

His Excellency the PRESIDENT said that he could not take his seat at that Council for the first time, in succession to the great and good man who had hitherto presided over their deliberations, without expressing the gratification which it afforded him to find that, in the execution of the important task of legislating for India, he would have the advantage of the Counsel and assistance of gentlemen of such high character and matured experience as those whom he now saw around him, and without giving utterance to the fervent hope and prayer that their united labors might be conducive to the advancement of the moral and material interests of this vast country, and to the happiness, prosperity, and contentment of all classes of Her Majesty's subjects by whom it was inhabited.

The Hon'ble MR. BEADON presented the Report of the Select Committee on the Bill to protect the personal dignity of His Majesty the King of Oude.

His Excellency the PRESIDENT postponed the presentation of the Report of the Select Committee on the Bill for constituting certain Officers of the Banks of Bengal, Madras, and Bombay, respectively, ex-officio Assessors of certain of the duties payable under Act XXXII. of 1860 (for imposing duties on the profits arising from Property, Professions, Trades, and Offices), in consequence of the absence of the Mover.

The Hon'ble MR. HARINGTON introduced the Bill to consolidate and amend the law relating to the partition of estates paying revenue to Government in the North-Western Provinces of the Presidency of Fort William in Bengal, and moved that it be referred to a Select Committee.

The Hon'ble RAJAH DINKAR RAO said that he thought the principle of this Bill was important for those to whom it related. The little amendment it required could be made in the Select Committee. But so much of Section XXIX. which provided for the sale of an estate for the liquidation of arrears of the Government Revenue should be cancelled. He entirely disapproved of this provision. This process was not indispensably necessary for the realization of the Government arrears. But owing to this process being in force, the Government was, without any just cause, exposed to the complaints of its subjects, and many were deprived of their rights. It was evident how much regard the people of Hindoostan had for their rights and the property connected with them. He therefore thought it proper that the

Government should prevent such process being in force with the view to the preservation of the rights of its subjects.

The Hon'ble Mr. Harington said that, as he understood the objections of the Rajah Dinkar Rao, he objected to the sale, under any circumstances, of landed estates paying revenue to Government for arrears of revenue accruing thereon. He did not appear to object in particular to the sale of such estates when in the course of a partition under this Bill or any law for the time being in force. His objection appeared to be of a general nature. For his satisfaction he could tell him that, although the power to sell estates for arrears of Government Revenue was still vested by law in Government, the power was very rarely exercised in the North-Western Provinces. He believed he might say the same in respect to the territories under His Honor the Lieutenant-Governor of Bengal. Whether the power should be retained or not was, he apprehended, a question foreign to the present Bill, and was too large a question to be entered upon in settling the provisions of this Bill. But so long as the power was retained, he submitted that in the possible, though not probable, event of a sale of an estate undergoing partition under this Bill, it was necessary to provide that the consequences of the sale should fall upon the defaulting proprietors, not upon the proprietors not in default. The Section objected to by the Rajah contained a provision to this effect. The only object of the Section was to protect those who were not in arrears when the sale took place.

The Motion was put and agreed to.

The Hon'ble Mr. Forbes introduced the Bill for extending certain provisions of Acts XIV. and XXV. of 1856 to the Town and Suburbs of Rangoon and to the Towns of Moulmein, Tavoy, and Mergui, and for appointing Municipal Commissioners, and for levying rates and taxes in the said Towns, and moved that it be referred to a Select Committee with instructions to report in one month.

The Hon'ble Rajah Dinkar Rao said that though the subject of this Bill was the Conservancy and improvement of the Town of Rangoon, &c., yet such Acts were not well calculated to attain their object, and were as unpopular with the people as other Acts which imposed taxes and duties. He therefore objected to the passing of such Acts. By Section VIII. of this Bill the people were required to pay a tax on the annual value of houses and buildings at the rate of from 10 Annas to 6¼ Rupees. The average of this would be about 2½ Rupees per house. Besides this they were required to pay the Income Tax, Stamp Duty, Customs Duties, &c.; from this it would be seen how much they had to pay in taxes. There were many large houses built in former times which contained many persons, members of decayed families, who in these days were unable even to provide for their bare maintenance, but they were taxed without reference to their means. If this was the case, how could these persons be able to pay a tax for the cleaning and lighting the roads in the town? They were also to pay taxes on carriages and animals which they kept, and a fee of four annas for registering them. If they unfortunately failed to register, a fine of 10 Rupees must be paid even for an animal of less value. In case they failed in this, they would also be deprived of their unregistered animals. After the sale of those animals they were bound to accept, as the price, whatever balance might remain, after deducting all the damages and expenses. Besides the fines which the Penal Code imposed for the ordinary crimes (which were already heavy) they were required to pay fines for making mistakes in the payment of such taxes and duties. A man who had a bullock cart was required to pay 12 Rupees annually. Such a person earned his livelihood by giving his cart in hire; sometimes he got a customer, sometimes not; sometimes corn and other things were dear. In such a state of things, though he might be in want of his livelihood, still he must pay the impost of 12 Rupees annually. The same was the case with other animals and conveyances. The Government took from the Municipal income the expense of the persons and establishment employed for protecting the inhabitants of cities and towns. It was right that the subjects should pay the Government for being protected. But the Government should reckon that expense in the income from the Land Revenue and any other proper tax which it took from them. He thought such an Act as this would not be liked by the people of any country. It was to be observed that cities and towns were not found to be remarkable for their uncleanness owing to their having no such Municipal system, nor remarkably clean where that system was in force. The people themselves took an interest in the cleanliness of their cities and towns. It was often seen that the people at the time of marriage ceremonies, or when their holidays came, or when it appeared necessary for them, kept clean their houses and roads, either by employing persons, if they could afford to pay them, or by personal labor when they were unable to pay. The cleansing of cities and towns was for the benefit and comfort of all. It was therefore proper for the subjects to keep them clean and for the Government to become a sharer in the work. But it was proper that the Officers of the Government should act as Members of the Municipal body, and do their best to make the people keep the places themselves clean. By this means the people would be saved the expense of contractors, &c., and from the oppression of such Acts.

The Hon'ble Mr. Forbes, in reply to the Rajah Dinkar Rao, said that this Bill introduced no new principle of taxation, but simply extended to Towns in the Burmese Provinces the laws which were in force in Calcutta, Madras, and Bombay. The Rajah's objections to this Bill were, in effect, objections to separate taxation for Municipal purposes everywhere. Prior to introducing this Bill, he (Mr. Forbes) had read the report of the debates in the Legislative Council on the Municipal Acts for the Presidency Towns. Those debates had reference to the rate of taxation, and how the fund should be distributed in respect of lighting, cleansing, the supply of water, &c. But no objection was raised to the general principle of local taxation for such purposes. As the late Legislature had passed those Acts, and no objection to the principle of them had since been expressed, and the Executive Government had desired the introduction of this Bill, he would not now discuss that question. But his opinion was opposed to that of the Rajah Dinkar Rao. He thought that those who derived most benefit from certain public expenditure might be fairly expected specially to contribute to it; and that when the residents in any locality paid rates for,

special objects they would be induced to look after their proper application.

The Hon'ble Mr. Beadon said that this Bill had already been for a long time under consideration. It was brought forward in the Legislative Council and had been referred to the Executive and Municipal Authorities of the towns to which it related and had received their assent. Some papers had been received from Rangoon coupling the assent from that place, with a request that certain items now treated as Imperial Revenue might be added to the Municipal rates. The Government had assented to that request, so that no further objection appeared to exist.

The Hon'ble Sir Bartle Frere said that he understood the Rajah Dinkar Rao's objections to relate to the details and not to the principle of the Bill. He wished that those who were interested in the application of Local Funds should have a share in their management, and he (Sir Bartle Frere) believed that the small results which might be seen to follow great expenditure might be traced to the great defect of a want of proper amount of interest and of authority in the hands of those who paid the rates. He understood that the assent to the Bill from Rangoon had been coupled with a stipulation for a larger degree of authority than the Bill provided.

The Hon'ble Mr. Forbes said that he regretted if he had inadvertently misrepresented the argument of the Rajah Dinkar Rao. But he did understand him to say that Municipal expenditure should be defrayed out of the general taxation, particularly specifying the Land Revenue; and to object to the taxation of carriages and cattle in towns, and to all similar particular taxation for local objects. With reference to the question of Sir Bartle Frere, he stated that the Bill was drawn in the form in which it was read in the Legislative Council, and in which it had been previously published. If the inhabitants of any of the towns had made any objections they were with the Executive Government. He (Mr. Forbes) had stated, in moving for leave to bring in the Bill, that he understood that the Government would lay before the Select Committee any papers it had received relative to the Bill; and that he had no doubt they would then be fully considered. They would be printed with the Report of the Committee, and it would then be open to any Member of the Council to move any amendment which he might think necessary. But he (Mr. Forbes) had not yet seen those papers.

The Motion was put and agreed to.

The following Select Committees were named:—

On the Bill to introduce the Bill to consolidate and amend the law relating to the partition of estates paying revenue to Government in the North-Western Provinces of the Presidency of Fort William in Bengal—the Honorable Messrs. Ritchie, Harington, and Erskine, and the Rajah Deo Narain Sing.

On the Bill for extending certain provisions of Acts XIV. and XXV. of 1856 to the Town and Suburbs of Rangoon and to the Towns of Moulmein, Tavoy, and Mergui, and for appointing Municipal Commissioners, and for levying rates and taxes in the said Towns—the Honorable Messrs. Beadon, Ritchie, Forbes, and Erskine.

The Council adjourned till Wednesday, the 26th instant, at 11 A. M.

Correspondence on questions connected with the Redemption of the Land Revenue.

From Sir George Couper, Bart., & C. B., Secretary to the Government of the North-Western Provinces, to W. Grey, Esq., Secretary to the Government of India, in the Home Department, Fort William,—(dated Camp Lullutpore, the 24th December 1861.)

Sir,—With reference to Part II. of the Resolution dated 17th October 1861, regarding the redemption of the Land Revenue, I am desired to enclose, for submission to His Excellency the Viceroy in Council, the papers noted in the margin, and to solicit instruction on the points therein discussed.

Enclosure No. 1.—Draft Bill.
Enclosure No. 2.—Paragraphs 20 and 26 and 27 of the Draft Rules of Procedure, together with an Extract, paragraphs 3, 4, 5, and 6, from a letter No. 1400A. of this date, to the Sudder Board of Revenue.
Enclosure No. 3.—Paragraphs 3, 4, 5, and 6 of a letter No. 873, dated 6th instant, from the Secretary to the Sudder Board of Revenue, together with paragraphs 10 to 13 inclusive of Draft Rules of Procedure, and an Extract, paragraphs 7 to 9 inclusive, from a letter No. 1400A. of this date, to the Sudder Board of Revenue.

2. The Draft Bill has been prepared by the Sudder Board of Revenue of these Provinces, and represents their views as well on the points on which the Lieutenant-Governor thinks it necessary to ask for instruction as on all others.

3. The question considered in the papers under enclosures Nos. 1 and 2 is raised by the terms in which paragraph 13 of the Resolution is expressed. Those expressions, strictly construed, would seem to exempt the tenure obtained by redemption of the Land Revenue from all demands on account of the Government, and to confer upon it an immunity from all legal claims of the Government. In these Provinces, as His Excellency is aware, a cess of one per cent. upon the Revenue assessed upon their estates is paid by all Landholders for the construction and repair of roads in commutation of their legal liability to be called upon to construct and repair roads. And, under Rules known as the Saharunpoor Rules, which were issued by the late Lieutenant-Governor, a cess of one per cent. for educational purposes is added to the Land Revenue assessed upon all villages coming under re-settlement.

4. There appears to the Lieutenant-Governor to be no doubt, as explained in the accompanying extract from the letter to the Sudder Board of

Revenue, that the road cess of one per cent., and the educational cess also (the legality of which latter, however, the Lieutenant-Governor is disposed to doubt), are, no less than the Income Tax itself, demands on account of the Government. It is not supposed that the Governor General in Council intended that the redemption of the Land Revenue by a payment of twenty years' purchase should give immunity to the purchasers from any one of these demands. But His Honor cannot help being apprehensive that a claim to such immunity might hereafter be preferred on the ground of the expressions employed in paragraph 43 of the Resolution; and as the matter is one upon which no doubt of any kind should rest, the Lieutenant-Governor ventures to trouble the Government of India with this enquiry.

5. The papers under enclosure No 3 refer to a point which is of some importance in these Provinces, and His Honor would be glad to know that the construction which he has put upon paragraph 53 of the Resolution is in accordance with the views of the Governor-General in Council. If such should prove to be the case, he would request that a clause be inserted in the Law, to be enacted, under paragraph 55 of the Resolution, making it obligatory upon a sharer in a putteedarree estate, of which the land is entirely divided, desiring to redeem his quota of the village revenue, to demarcate the boundaries of his land, and to cause a partition to be made constituting it an independent and separate estate under the Law of Partitions for the time being in force. He would at the same time beg that Mr. Harington may be called on to produce the correspondence cited in the margin and referred to in paragraph 6 of the Board's letter enclosed, in order that the Bill discussed therein may be brought under consideration as soon after the meeting of the Council as practicable.

6. For reasons which have been stated by the Board, the Draft Bill herewith submitted does not contain any Section regarding the registration of estates purchased in fee simple, and estates of which the Land Revenue may be redeemed. The Board having regard to the proposed Law of registration, which is intended to make the registration of all transfers of landed property above a very low amount compulsory, are inclined to think that the object aimed at by the Government of India in paragraph 55 of the Resolution may be more conveniently attained by means of that general Law. But it appears to the Lieutenant-Governor that, in providing for the execution of the measures inaugurated by the Resolution, there is no need to take into consideration future possible contingencies; and that it will be better to include a Section on the point in the legal enactment to be passed under paragraph 55 of the Resolution. If in the final settlement of the general Registration Bill it should be thought desirable, it will be easy to repeal or modify the special provision which has been above recommended.

7. As the publication of the Rules regarding the redemption of the Land Revenue in these Provinces will be postponed pending the receipt of the instructions now asked for, I am desired particularly to request that the Lieutenant-Governor may be favored with the earliest practicable reply to this letter.

Enclosure No. 2.

Extract, paragraphs 20, 26, and 27, of the Draft Rules of Procedure submitted by the Officiating Secretary to the Sudder Board of Revenue, North-Western Provinces.

PARA. 20.—The effect of redemption of the Land Revenue of any estate is simply to relieve the Malgoozar for ever from any demand by Government for Land Revenue on account of such estate. It does not in any other respect alter his position or liabilities either to Government or third parties. No stronger right of property, either as regards collateral claims or subordinate tenures, than existed before is created by the redemption of the Land Revenue.

26 Excepting release from farther demand of Land Revenue, the existing obligations and responsibilities of the proprietor will remain unchanged. The maintenance of Putwarees and of the Village Police will continue as now obligatory on the proprietor. And he will be responsible as before for such cesses as were engaged for at the settlement. Of those it will be in the power of the proprietor to redeem the road cess of one per cent. and (where that has been engaged for at the settlement) the educational cess at twenty years' purchase. All sums paid on this account will be separately credited and reported, as it will be necessary to invest them in distinct funds.

27. Estates the Land Revenue of which has been redeemed shall be held liable to assessment for Income Tax under the same rules as are applicable to Muafee and Lakhiraj estates.

Extract, paragraphs 3, 4, 5, and 6, of a letter from Secretary to the Government of the North-Western Provinces, to the Officiating Secretary to the Sudder Board of Revenue, North-Western Provinces,—(No.—, dated the of December 1861.)

PARA. 3.—In Section IX. of the Draft Bill the Board have provided that "no obligations binding by "Law, or by the compact of the settlement last "made, shall be effected by the commutation of the "Land Revenue, other than the obligation to pay the "Land Revenue itself." And in paragraph 26 of the Rules the Board have declared that the maintenance of Putwarrees and of the Village Police will continue as now obligatory on the proprietor; and further, that the proprietor "will be responsible for "such cesses as were engaged for at the settlement," that is to say, the road, educational, or other cesses. No. 20 countenances the same doctrine.

4. But the terms which are used in paragraph 43 of the Resolution of the Governor-General in Council No. 3264, dated 17th October, in regard to the tenure to be obtained by redemption, raise a doubt as to the correctness of the Board's interpretation. That tenure is described to "be that of an hereditable and "transferable property held in perpetuity free of all "demand on account of Land Revenue *or of the* "*Government*;" now, it may be at once admitted, that the cost of maintaining Putwarrees and the Village Police, these being village servants paid from time immemorial by the village communities and proprietor, is not a demand "on account of the Government." But the same cannot be said of the one per cent. road cess or of the educational cess. These, of course, do not come within the category of Land Revenue; but they certainly do constitute a demand which is made by the Government and the proceeds of which are used by the Government. That these are used for the benefit of the people does not alter the fact that they are a demand on account of the Government.

5. In like manner it appears to the Lieutenant-Governor that a doubt may arise as to the liability to Income Tax, under a strict reading of paragraph 43 above referred to, of the parties who may redeem the Land Revenue assessed upon their estates on the profits derived from their redeemed lands.

6. It is proper to add that the Lieutenant-Governor does not believe that it was the intention of the Governor-General in Council by this Resolution to decree exemption from the demands above referred to; but the expressions used in paragraph 43 of the Resolution may possibly give rise to, or even justify, such an inference; and in a matter of this vast importance it is very undesirable to allow any doubt to rest upon any of the conditions of the measure. This point will be referred for the consideration of the Government of India.

Enclosure No. 3.

Extract, paragraphs 3, 4, 5 and 6, of a letter from the Officiating Secretary to the Sudder Board of Revenue, to the Secretary to the Government of the North-Western Provinces,—(No. 873, dated 6th December 1861.)

PARA. 3.—The provisions in paragraphs 10, &c., for a revision of the jumma as distributed in putteedaree villages are absolutely necessary, seeing that the sanction of Government has been given only to the jumma of the mehals, and the redemption of any puttee at an inadequate proportion of that assessment might throw an unjust burden on the rest of the village without possibility of future equalization.

Rules paragraphs 10, &c., Bill Section V.

4. Paragraph 13 includes shares on putteedaree and bhyachara estates when the distribution of land is liable to vary, because a property once redeemed must be of fixed and recognizable boundaries, as is most justly required in paragraph 41 of the Resolution.

Paragraph 13.

5. The Board are of opinion that the extension of the privilege of redemption to unseparated portions of a mehal is inexpedient; but they have proposed the rules contained in paragraphs 10 to 12 as necessary if the intent of paragraphs 53 of the Resolution is to be understood without any restriction. If the redeemed lands remained undivided from those unredeemed, it would, at any ensuing settlement, be found difficult to prevent the fraudulent inclusion of khalsa in the redeemed land. If the boundaries of the redeemed puttee were completely demarcated as required by Rule 14, there would apparently be no reason why the puttee should not be declared a distinct mehal. Moreover, the provisions of paragraphs 11 of the Rules may be held somewhat inconsistent with the declaration in Section 55 of the Resolution.

6. As the Law now stands there is no legal process for enforcing partition under Regulation XIX. of 1814. A late decision of the Sudder Dewany Adawlut* clearly shews this, and the Board would beg to remind Government of the necessity that exists for passing the proposed Law sent up some time ago on the subject. This Law is necessary to enable putteedars to separate their holdings from the responsibilities of the rest of the village.

Soolehhall and others, *versus.* Geedharee Lall.

Vide correspondence ending with Government Order No. 818A., Revenue Department, dated 16th July 1860.

Extract, paragraphs 10 to 13, from Draft Rules of Procedure, submitted by the Officiating Secretary to the Sudder Board of Revenue, North-Western Provinces.

PARA. 10.—In putteedaree estates, of which the land is entirely divided, the jumma of the entire mehal may be redeemed as above by the putteedars conjointly. If any putteedar is desirous of redeeming his share, he can proceed either by partition, thus constituting his puttee a separate and independent estate; or he may apply for permission to redeem his quota of the village revenue, still retaining his position as a member of the village community. But in this latter case as the assessment has been fixed by Government upon the entire village and not on each puttee, a careful investigation will be necessary into the equality of the distribution of the jumma. If the jumma of the puttee be found to bear its full proportion to the jumma of the village, with due regard to their relative assets, then redemption may be permitted at such jumma. Should the proportion of the puttee's assessment, on the contrary, be found to be inadequate, a fair allotment of jumma upon the puttee will be made, which, when sanctioned by Government, will form the basis of calculation.

11. Where a regular partition is not made, redemption of the revenue of a puttee will not affect the possession of the putteedar in the community. He will retain his privileges in the management of the village, and will be responsible, as before, for his share of the village expenses, and jointly responsible for any defalcation of revenue in the unredeemed portion of the village.

12. In imperfect putteedaree estates, where the division of lands is fixed and not liable to occasional or periodical alterations, the same course may be followed. In case of regular partition under the Law, the new mehal will, of course, be formed by the addition to it of its proper share of the undivided lands. Where partition does not take place, the puttee, including the putteedar's share in the common lands, will, after redemption, be free from all demand on account of its own previous revenue, but will remain, as above explained, jointly responsible in respect of the rest of the village and its revenue.

13. In putteedaree and bhyachara villages, where the division of lands is liable to change, no redemption can be allowed till the severalty of tenure becomes fixed and unalterable, either by partition under the Law or otherwise, when the property can be treated as above directed.

Extract, paragraphs 7 to 9, from a letter from the Secretary to the Government of the North-Western Provinces, to the Officiating Secretary to the Sudder Board of Revenue, North Western Provinces,—No.——, dated the of December 1861.)

PARA. 7.—Another point which seems to call for reference to the Governor-General in Council is that raised in the 5th and 6th paragraphs of your letter. The opinion of the Lieutenant-Governor is, with reference to the entire spirit of the Resolution, that paragraph 53 must be read without any restriction, that is to say, that wherever redemption is practicable without injury to the rights and interests of others, there redemption must be allowed.

8. It is undoubtedly true, as the Board have said, that the extension of the privilege of redemption to unseparated portions of a mehal is inexpedient. But the intention of the Governor General in Council clearly appears to be as above stated, and the Lieutenant-Governor cannot think that the benefit of the measure can be denied in such tenures. He does not, however, see why complete demarcation of the boundaries of the redeemed puttee and partition under the Law for the time being in force should not be made obligatory on the putteedar desirous of redeeming the revenue of his puttee, and this would do away with the inexpediency noticed by the Board. In this view the Government of India will be addressed and asked to take into consideration, at the earliest practicable date, the passing of the Bill referred to in the 6th paragraph of your letter, and also to enter a clause in the enactment proposed in in paragraph 55 of the Resolution, making demarcation of boundaries and complete separation in such cases obligatory.

9. But in any case it does not appear to the Lieutenant-Governor that paragraph 11 of the Rules is inconsistent with the declaration made in Section LV.

of the Resolution, seeing that in Section LII. it is expressly provided "that the purchaser shall remain "subject to all other customary liabilities, whether to "individuals or to communities." There can be little or no doubt that the responsibility of a putteedar "for his share of the village expenses" and his joint responsibility "for any defalcation of revenue in the "unredeemed portion of the village" are liabilities to his co-sharers in the village community. Upon this point also the ruling of the Government of India will be solicited.

From W GREY, Esq., Secretary to the Government of Inida, Home Department, to SIR GEORGE COUPER, BART, C. B., Secretary to the Government of the North-Western Provinces,—(dated the 11th March 1862.)

SIR,—I AM directed by the Governor-General in Council to acknowledge the receipt of your letter marginally noted, enclosing the Draft of a "Bill to provide for the commutation of the "Land Revenue by a present payment in full value "of the same, and for the sale of Waste Lands," and soliciting instructions on certain points connected with the redemption of the Land Revenue, in respect of which the intention of the Resolution of the 17th October last seems to the Lieutenant-Governor to require explanation.

No. 1101A., dated 24th December 1861.

2. The first point adverted to in the 2nd and 3rd paragraphs of your letter has reference to the interpretation of paragraph 43 of the Resolution, and specially of the words "free of all demand on "account of Land Revenue or of the Government."

3 From the extract of the Draft Rules of Procedure enclosed in your letter, and from Sections 8 and 9 of the Draft Bill, it appears that the Sudder Board of Revenue consider that "the "effect of redemption of the Land Revenue of "any Estate is simply to relieve the Malgoozar for "ever from any demand by Government for "Land Revenue on account of such estate," and that "it does in any other respect alter his posi-"tion or liabilities either to Government or third "parties." Under this interpretation the Board proceed to shew that the Landholder, who has redeemed the Land Revenue of an estate, will continue to be responsible for the road cess of one per cent., and also for the educational cess where that has been engaged for at the settlement, and to be "liable to assessment for Income Tax "under the same Rules as are applicable to "Maufee and Lakhiraj Estates."

4. The Lieutenant-Governor, on the other hand, though not supposing "that the Governor-General in Council intended that the redemption of the "Land Revenue by a payment of twenty years' "purchase should give immunity to the purcha-"sers from any one of those demands." is apprehensive that the terms in which paragraph 43 of the Resolution is expressed may give rise to such a claim, as he considers that the expressions strictly construed do "seem to exempt the tenure "obtained by redemption of the Land Revenue "from all demands on account of the Government," and therefore from the demands in question, which, it is remarked, are undoubtedly "demands "on account of the Government."

5. The Governor General in Council desires me to observe that there can be no doubt as to the correctness of the interpretation put upon paragraph 43 of the Resolution of the 17th October by the Sudder Board of Revenue, and this view, indeed, is acquiesced in, so far as the supposed intention of the Resolution is concerned, by the Lieutenant-Governor. Whatever may be the full grammatical force of the words "or of the Government," it is obvious that it never could have been intended that a Zemindar by redeeming the Land Revenue of his estate should acquire an exemption from all future taxation, general or local, in respect to the rental of such estate.

6. If paragraphs 37 and 43 are read together, the general meaning of the Resolution will appear more clearly. While on the one hand the tenure of waste lands granted under the Rules is to be that of an heritable and transferable property held in perpetuity free from all claims either of the Government or of third persons prior to, or inconsistent with, the grant; on the other hand the tenure of lands, of which the Land Revenue is redeemed, will be that of an heritable and transferable property held in perpetuity free of all demands on account of Land Revenue, and free from all claims of the Government (but not, as in the case of waste lands, from those of third persons) prior to, or inconsistent with, such redemption. It is clear that the words "of the Government" have the same meaning in the two Sections.

7. Now, in regard to waste lands it is elsewhere explained in detail that the deed of grant is to convey all rights of forest, pasturage, mines, fisheries, and all other property of the Government *in the soil* (Section 12); all right, except under the provisions of Act VI. of 1857, to take land or material for roads, tanks, canals, or other public improvements, except such as are named at the time of the grant, or are specifically excepted in it (Section 13); and freedom from all conditions as to the cultivation or clearance of the lands within a given period (Section 14). These are the claims of the Government from which such lands are to be exempted. But there is nothing in the Rules to indicate that either grantees or purchasers of waste lands, or persons who redeem their Land Revenue, are to be exempt from any local or municipal tax legally imposed, such, for instance, as a percentage on their rental for roads, or education, or other strictly local purpose, or from Income Tax, or any other general tax in respect to such rental.

8. The Rules, I am observe, provide for the redemption of the Land Revenue, not for that of any other kind of Revenue: and when it is said that persons who redeem their Land Revenue are to hold their lands "free of all demands on account of "Land Revenue or of the Government," it is meant not that such persons are to be exempt from local or general taxes on the income which they derive from their lands, but that they are free from all future demand on account of Land Revenue, and from all claims of a proprietary kind* which the Government may have possessed or asserted previous to redemption. There are no such claims in permanently-settled Districts, and few, if any, in the North-Western Provinces, where the proprietary rights of the persons who pay land revenue is acknowledged; but in the Central Provinces, and in Western

* There is another limitation which must be placed on the full meaning of the words used in paragraph 43. Where lands have been pledged to Government as security for the fulfilment of a contract or otherwise, or where they may be liable to sale in execution of a decree of Court given in favor of Government against the proprietor or against any one having an interest in such lands, it is clear that the claims of the Government arising in this way cannot be barred by the mere act of redeeming the revenue.

and Southern India, where the settlement is made with persons having only a right of occupancy, and where the proprietary right in the soil has hitherto been asserted by the Government, the concession of such claims is an element of vast importance in the schemes of redemption sanctioned by the Resolution.

9. The Governor-General in Council desires me to remark here, with reference to Section VIII. of the Draft Bill, and to the latter part of extract paragraph 26 of the proposed Rules of Procedure for carrying out the provisions of the Resolution of the 17th October last, for the redemption of the Land Revenue, that the Board are wrong in supposing that the road and education cesses, so far as they are paid by the Zemindars, can be redeemed with the Land Revenue. The legality or otherwise of the several cesses mentioned in the correspondence is not now in question, but all legal cesses of the kind should continue to be paid separately.

10. The second point on which the Lieutenant-Governor solicits instructions is that referred to in the 5th paragraph of your letter, relative to the construction to be put upon paragraph 53 of the Resolution. From the extract of the letter from the Board of Revenue dated 6th December, and of your reply, and also from Section V. of the Draft Bill, it appears that the Sudder Board of Revenue consider the provisions of paragraph 53, taken along with those of paragraph 44, to be quite inapplicable to putteedaree or bhyachara estates held in undivided occupancy, and to be applicable only under certain conditions to putteedaree estates in which the land is divided.

11. The Governor-General in Council agrees with the Lieutenant-Governor in thinking that paragraph 53 of the Resolution must be read without restriction. Where, for example, a village is assessed say at 800 Rupees a year, the owner of two annas in it by paying 2,000 Rupees would be able to redeem the Land Revenue of his eighth share in perpetuity. To such a case the provisions of paragraph 44 are, to a certain extent, inapplicable. The exact extent and limits of the whole village may be defined, but not those of an eighth undivided share of it; and the same is the case where the lands of a share are partly divided off, and partly not. The effect of redemption would be this, that at the next settlement, if the assessment of the whole village were raised to 880 Rupees, one-eighth would be deducted on account of the redeemed share, and the remaining seven-eighths of the village would be assessed with a jumma of 770 Rupees. In cases of this kind, however, the redemption can only be an imperfect one. It can be a redemption only of the shareholder's own separate liability for his share of the whole assessment, not of his joint liability for the Land Revenue of the whole estate. It is not until the lands of a particular share have been entirely marked off from the rest of the village and separately defined and assessed that the redemption can be complete.

12. An additional reason is thus afforded for hastening the enactment of the proposed Law to facilitate the division of estates; but the promulgation of the redemption rules need not wait for it.

13. With reference to your 6th paragraph, I am desired to state that the Governor-General in Council agrees with the Lieutenant-Governor as to the expediency of inserting in the Act for giving effect to the Resolution a Registration Clause for the purpose contemplated in paragraph 55.

14. This correspondence, I am to add, will be considered in connexion with the Bill for the introduction of which leave was given at the last Meeting of the Council for making Laws and Regulations. The Lieutenant-Governor will have an opportunity of offering his remarks on the provisions of that Bill before it is passed into Law.

Act No. VII of 1862.

An Act to amend Act XLVI of 1860 (to authorize and regulate the Emigration of Native Laborers to the French Colonies.)

Preamble.

WHEREAS since the passing of Act XLVI of 1860 *(to authorize and regulate the Emigration of Native Laborers to the French Colonies)* the Convention therein recited between Her Majesty the Queen of Great Britain and Ireland and His Majesty the Emperor of the French has been varied in the following particulars: that is to say, by substituting for Article XXVI in the said Convention as so recited in the said Act, the following Article:

ARTICLE XXVI.

The present Convention shall begin to take effect on the 1st of July 1862; its duration is fixed at three years and a half. It shall remain in full force if notice for its termination be not given in the course of the month of July of the third year, and then notice can be given only in the course of the month of July of each succeeding year.

In case of such notice being given it shall cease eighteen months afterwards.

Nevertheless the Governor-General of British India in Council shall, in conformity with the Act of the 19th of September 1856, relative to immigration to British Colonies, have the power to suspend at any time emigration to any one or more of the French Colonies, in the event of his having reason to believe that in any such Colony proper measures have not been taken for the protection of the Emigrants immediately upon their arrival or during their residence therein or for their safe return to India, or to provide a return passage to India for any such Emigrants at or about the time at which they are entitled to such return passage.

In case, however, the power thus reserved to the Governor-General of British India should at any time be exercised, the French Government shall have the right immediately to terminate the whole Convention if they should think proper to do so.

But in the event of the determination of the present Convention, from whatever cause, the stipulations relative to Indian subjects of Her Britannic Majesty introduced into the French Colonies shall be maintained in force in favor of the said Indian subjects until they shall either have been sent back to their own country, or have renounced their right to a return passage to India."

And also by the addition of the two following Articles which were not comprised in the Convention or recited in the said Act, that is to say—

"ARTICLE XXVII.

The present Convention shall be ratified, and the ratifications shall be exchanged at Paris in four weeks, or sooner if possible.

ADDITIONAL ARTICLE.

His Majesty the Emperor of the French having stated that, in consequence of the order which he gave long ago that no more African Emigrants should be introduced into the Island of Re-union, that Colony has, since last year, had to obtain laborers from India and China; and Her Britannic

Majesty having, by Convention signed on the 25th of July 1860, between Her Majesty and His Majesty the Emperor of the French, authorized the Colony of Re-union to recruit six thousand laborers in Her Indian possesions, it is agreed that the Convention of this date shall take effect forthwith with regard to the said Colony of Re-union.

The present Additional Article shall have the same force and validity as if it were inserted word for word in the Convention signed this day. It shall be ratified, and the ratifications shall be exchanged at the same time as those of the Convention."

And whereas the said Convention, with such alterations and additions as aforesaid, together with such additional Article, has been duly signed, ratified, and confirmed:

It is declared and enacted as follows:—

Act XLVI of 1860 to be applicable to the Convention as signed and ratified.

All the provisions of Act XLVI of 1860 *(to authorize and regulate the Emigration of Native Laborers to the French Colonies)* shall be and remain in full force notwithstanding that the Convention therein recited had been so altered and added to before the same was signed or ratified as aforesaid: and all such provisions, in so far as the same relate to the Convention recited in the said Act, shall be deemed to apply and shall apply to the said Convention as signed and ratified as aforesaid together with the additional Article thereof.

The Officer appointed to make the partition of an estate, shall exercise in such estate all the powers described in Act X of 1859 *(to amend the law relating to the recovery of Rent in the Presidency of Bengal,)* and determine all suits and differences triable under that law between landlord and tenant; and any cases relating to the estate which may be depending before any Collector or Deputy Collector during the time the partition is in progress may be transferred to such Officer for disposal.

Particulars to be contained in the paper of partition to be submitted by the Deputy Collector.

XLIII. When the Officer appointed to make the partition shall have completed the partition and allotted the public Revenue on each of the estates into which it is proposed that the estate shall be divided, he shall prepare and submit to the Collector a paper of partition showing how he proposes to divide the estate and to apportion the public revenue. This paper shall specify the names of the Mehals or villages included in each separate estate, the gross produce of each Mehal and village for the three years immediately preceding the year in which the partition is ordered to be made, the names of the parties to whom the several estates are allotted, and the proportion of the public revenue proposed to be assessed on each of such estates, with any remarks regarding the mode observed in selecting the lands included in each estate, and the accounts upon which the apportionment of the public revenue assessed thereon shall have been based, as may be necessary for the information of the Collector. The paper shall further contain a detail of the adjustments, if any, which shall have been made in respect to any tanks, places of worship, or other matters, as specified in the preceding Sections. The Officer appointed to make the partition shall also submit a map showing the several estates into which the estate is proposed to be divided.

A map of the partition to be also submitted.

Report to be submitted by Collector to the Commissioner.

XLIV. The Collector shall take into consideration the partition proposed by the Officer appointed to make the partition, and, after calling for any further information which he shall deem necessary and disposing of any objections which shall be taken to the partition and allotment of public revenue as proposed by such Officer, he shall submit a report to the Commissioner together with such of the papers of the case as shall appear to him essential. He shall also forward a list of the papers not sent. The Collector shall record his opinion whether the proposed partition should be confirmed or modified, and in the latter case he shall state the nature of the modification which in his opinion should be made.

Confirmation or modification of partition by Commissioner subject to appeal to the Board of Revenue.

XLV. The Commissioner shall either uphold the partition proposed by the Collector or modify the same. The decision of the Commissioner shall not be open to revision by the Civil Court, but shall be subject to appeal to the Board of Revenue. The Commissioner, before coming to a decision, may call for any additional papers, or direct any further inquiry that he shall consider necessary.

Procedure by Collector on receipt of order of Commissioner or of Board of Revenue on appeal.

XLVI. On the receipt of the order of the Commissioner, or, if an appeal be preferred to the Board of Revenue, then of the order passed on the appeal, the Collector shall cause the same to be published in his Office and in some conspicuous place in each of the estates separately constituted by such order. The Collector shall at the same time specify the date from which each of the estates shall be held to be a separate estate, and shall enter the several estates into which the estate has been divided in the Register of Estates paying revenue to Government. The Collector shall give the several proprietors possession of the estates allotted to them, and, if necessary, may avail himself of the assistance of the Magistrate in giving possession.

Procedure in cases of fraudulent or erroneous apportionment of the public revenue.

XLVII. In order to prevent collusion or error in the distribution of the public revenue assessed upon an estate which may be ordered to be divided into two or more distinct estates, if it shall be proved to the satisfaction of the Government within twelve years from and after the date of confirmation of the partition, that the public revenue was fraudulently or erroneously apportioned at the time of the partition, the Government shall have power to order a new allotment of the public revenue upon the several estates into which such estate may have been divided conformably to the principles prescribed in this Act, on an estimate

of the gross produce of each estate at the time of the partition, to be made agreeably to the best evidence and information which may be procurable respecting the same. Such order shall not be liable to be contested in the Civil Court. The parties whose estates may be declared to have been under-assessed shall be required to pay to the proprietors of the estates which shall have been over-assessed the sum in which they shall be found to have been over-assessed, and in default of payment the amount shall be leviable by the process prescribed for the recovery of arrears of rent or revenue.

Neglect or omission to bring a suit, to contest the right, title, &c., to any land while an estate is under attachment, to be a valid plea in bar of suit subsequently instituted.

XLVIII. If, during the time an estate is under attachment with a view to the partition of the same, any party shall neglect or omit to claim by a suit any right or title he may then have to the ownership or occupancy at a fixed rent of any land situated in such estate or any other interest therein, such neglect or omission shall be a valid plea in bar of any suit relating to such right, title, or interest, unless the party can satisfy the Court that there was good and sufficient reason for his neglect or omission to institute the suit at or before such time. Provided that this Section shall not bar any action for arrears of rent or the enhancement or alteration of rent.

Application for partition after decree of Court awarding proprietary right in a portion of an estate.

XLIX. Whenever any Court of Civil Judicature shall pass a decree awarding to any person the proprietary right in a portion of an estate paying revenue to Government, whether the portion so awarded shall consist of a fractional share in the whole or a part of the estate, or of specific lands, the decree-holder may apply to the Collector for a partition of the estate; and on the receipt of such application, the Collector shall proceed thereupon under the provisions of this Act, which are hereby declared applicable to such applications.

Union and separation of estates or of portions of estates in certain cases.

L. If two or more estates, which may have originally formed portions of the same estate, shall come into the possession of one person, such person shall be entitled to have such estates united and to hold them as a single estate; or if two or more persons shall have separate possession of their respective shares of an estate which was originally held as a joint undivided estate, such persons may apply to have their shares united and to hold them as one estate.

Application to be in writing, and Collector to comply with it if he sees no objection.

LII. The provisions of this Act, so far as they relate to the completion and confirmation or to the staying or quashing of the partition of an estate, may be applied at the discretion of the Collector in all cases of the partition of estates pending at the time of the passing of this Act.

Provisions of this Act may, as far as applicable, be applied to partition of estates held free from the payment of revenue.

LIII. The provisions of this Act may, in so far as the same are applicable, be applied by order of the local Government to the partition of any estate held free from the payment of Government revenue.

LIX. In the execution of the duties vested in the Board of Revenue by this Act, the Board shall be guided by such orders or instructions as they may from time to time receive from the local Government, to whom they shall apply in all cases which shall appear to the Board not to have been provided for by the existing law.

Territorial scope of Act.

STATEMENT OF OBJECTS AND REASONS.

The present law under which the partition of estates, held in joint tenancy, is made by the Revenue Officers of Government in the Presidency of Fort William in Bengal, has been found defective in respect to a very numerous class of estates in the North-Western Provinces of that Presidency, that is to say, estates the property of two or more persons the lands comprised in which are held partly in severalty and partly in common. The wording of the present law* precludes the application of its provisions to estates of this description, and even the lands in such estates which are held in common are considered not to be divisible under it.

* *Vide* Section 30 Regulation XIX. 1814 of the Bengal Code.

But a more serious objection to the existing law is to be found in the extremely dilatory character of the procedure which it lays down for the partition of a joint undivided estate. The nature of this procedure is such that it admits of constant impediments being thrown in the way of a partition by any person who has an object or an interest in obstructing or retarding the partition, and the consequence is, in the great majority of cases, almost intolerable delay.

The objects chiefly aimed at in the present Bill, are the removal of the defect in the present law, already noticed, and the introduction of a more simple and summary procedure which shall admit of the partition of an estate held in common tenancy being ordinarily effected within a comparatively short period, instead of being, as is not unfrequently the case at present, the work of several years if not of a long life.

It is a question whether the partition of very small estates should be allowed, the objection to the partition of such estates being the difficulty experienced in collecting the Revenue of Government from a number of small properties. But a Regulation was passed upwards of half a century ago (Regulation V. 1810) which seems to have recognised the right of every co-sharer in a joint undivided estate, whatever its extent, to have his share of the estate separated from the rest and to hold the same in severalty; and the right being conceded, it is only just and proper that the law should afford means for the enforcement of the right without difficulty, with reasonable expedition, and at a moderate cost. It is hoped that the present Bill will provide such means.

A table showing the arrangement and subject of the Sections of which the Bill consists is affixed to the Bill. To this table I beg to refer for the detailed provisions of the Bill.

It will be seen that Section LIII proposes to allow the provisions of the Bill to be applied, at the discretion of the local Government, to the partition of estates held free from the payment of Government revenue. The present law is restricted in its application to estates paying revenue to Government. The extension of the law, under certain circumstances, in the manner proposed, to rent-free estates is considered desirable in reference to some of the grants of estates or shares of estates which were made for services rendered during the eventful years of 1857 and 1858.

The Bill, as now framed, has been seen by the Members of the Sudder Board of Revenue at Allahabad, and is approved of by them. I believe I may say it has also the approval of the Honorable the Lieutenant-Governor of the North-Western Provinces, at whose instance the Bill is brought in.

In preparing the Bill, I received great assistance from Baboo Prosunno Coomar Tagore, the learned Clerk Assistant of the late Legislative Council.

The Bill, as it was originally drawn by me, was intended to apply to all the Regulation Districts of the Presidency of Fort William in Bengal; but on hearing that a separate Legislative Council was to be constituted for the Lower Provinces of Bengal, I at once determined to restrict the application of the Bill to the North-Western Provinces of that Presidency, and the Bill is now framed accordingly. I believe I have sufficient ground for saying that the alterations which the Bill proposes to make in the existing law as regards the North-Western Provinces are, for the most part, equally required for the Lower Provinces of Bengal; but the introduction of a Bill for Bengal obviously falls more properly within the province of the local Legislature than of the Council of the Governor-General of India.

STATEMENT OF OBJECTS AND REASONS.

THIS Bill was prepared and brought into the late Legislative Council at the request of the Government of India, for the purpose of extending to Rangoon, Moulmein, Tavoy, and Mergui the provisions of Municipal Law which now prevail in the Presidency Towns and the Straits' Settlement.

Some slight departures from the existing Law will be found in the Bill, but they are only such as the peculiar circumstances of the Towns, which it is now proposed to bring under the Municipal Acts, have called for.

Since this Bill was originally published for general information, petitions on the subject of it have been received from the inhabitants of the Towns to which it refers. These petitions will be laid before any Select Committee that may be nominated to report on this Bill.

THE following Bill was read in the Council of the Lieutenant-Governor of Bengal for the purpose of making Laws and Regulations on the 22nd March 1862, and was referred to a Select Committee who are to report thereon after the 26th of April next:—

A Bill to extend the jurisdiction of the Calcutta Court of Small Causes and to provide for the appointment of Assistant Judges of that Court.

Preamble.

WHEREAS it is expedient to increase the limit of the jurisdiction of the Calcutta Court of Small Causes held under Act IX of 1850, and whereas it is necessary to provide for the appointment of Assistant Judges of the said Court; It is enacted as follows:—

The Small Cause Court may take cognizance of suits for sums not exceeding one thousand Rupees.

I. The jurisdiction of the Court held or to be held in the Town of Calcutta under the said Act IX of 1850 shall extend to the recovery of any debt, damage, or demand not exceeding the sum of one thousand Rupees, and to all actions in respect thereof (except the several actions specified in the proviso in Section XXV of the same Act), and the several powers and provisions of the said Act and all rules, orders, and regulations which have been or may be made in pursuance of the said Act, shall extend to all debts, damages, and demands which may be sued for in the said Court not exceeding the sum of one thousand Rupees, and to all proceedings and judgments for the recovery of the same or otherwise in relation thereto respectively, as fully and effectually, to all intents and purposes as the same respectively are now, or may be applicable to debts, damages, and demands, within the present jurisdiction of the said Court.

The Small Cause Court may take cognizance of suits for sums exceeding one thousand Rupees, if the parties consent.

II. If both parties shall agree, by a memorandum signed by them or by their Attornies, that the said Court of Small Causes shall have power to try any action (not coming under the proviso in Section XXV of Act IX of 1850) in which the sum sought to be recovered shall exceed the sum of one thousand Rupees, then and in such case the said Court shall have jurisdiction and power to try such action. Provided always that the said parties or their Attornies shall state in their said memorandum of agreement, that they know such cause of action to be above the said sum, and provided that such memorandum shall be filed with the Clerk of the said Court at the time of filing the plaint of the plaintiff.

Proviso.

Judges shall reserve case for opinion of Supreme Court when they have doubts themselves or when either of the parties require them to do so.

III. In any cause of an amount to which jurisdiction is given to the Calcutta Court of Small Causes by this Act, the Judges of the said Court shall reserve any question of law or equity or any question as to the admission or rejection of any evidence, as to which they shall entertain any doubts or which they shall be requested by either party to the suit to reserve for the opinion of the Supreme Court, and shall give judgment contingent upon the opinion of the said Supreme Court on a case which they shall thereupon be entitled to state to the said Court. If only two Judges sit together and shall differ in opinion, the question on which they differ shall be so reserved. Provided always that when judgment contingent upon the opinion of the Supreme Court is given against a defendant, such defendant shall forthwith give security, to be approved by the Clerk of the Court, for the costs of the reference to the Supreme Court, and for the amount of the judgment; provided nevertheless, that such security, so far as regards the amount of the judgment, shall not be required in any case where the Judge of the Court of Small Causes who tried the suit shall have ordered the defendant to pay the amount of such judgment into the hands of the Clerk of the said Court, and the same shall have been paid accordingly; and the said Supreme Court may either order a new trial on such terms as it thinks fit, or may order judgment to be entered for either party, as the case may be, and may make such order with respect to the costs of reserving the question and stating the same for their opinion, and otherwise arising thereout or connected therewith, as such Supreme Court may think proper. And all orders made by the Supreme Court under this Section shall be final.

Proviso.

Costs of sending up the case to be at the discretion of the Supreme Court.

IV. The powers and provisions of Act VII of 1847 to regulate distresses for small rents in Calcutta shall be extended to the recovery of all arrears of rent not exceeding one thousand Rupees, and the Judges of the Calcutta Court of Small Causes under Act IX of 1850 shall be empowered to exercise within their jurisdiction the extended powers of the said Act VII of 1847: and the said Act shall be construed as if, instead of Calcutta and the Settlement of Fort William in Bengal, the limits of the jurisdiction of the Court had been therein mentioned, and the Judges of the Calcutta Court of Small Causes under Act IX of 1850 instead of the Commissioners of the Court therein mentioned, and the amount of one thousand Rupees instead of one hundred Rupees, and the forms containd in the Schedule annexed to the said Act VII of 1847 shall be altered accordingly, and shall refer to Act IX of 1850 and to this Act instead of Act VII of 1847.

The Small Cause Court to issue distresses for rents not exceeding 1,000 Rupees in extension of powers given under Act VII of 1847.

V. The powers and provisions of Section XCI of Act IX of 1850 are hereby extended so as to apply to the case of any person who shall hold or occupy any house, land, or tenement of which the value or the rent payable in respect thereof does not exceed the rate of one thousand Rupees, and the said Section XCI of Act IX of 1850 shall be read as if the words "five hundred" were omitted and the words "one thousand" substituted for them.

Law as to recovery of small tenements extended to cases not exceeding 1,000 Rupees.

VI. If any action shall after the passing of this Act be commenced in the Supreme Court, for any cause other than those specified in Section C of Act IX of 1850, for which a summons might have been taken out from a Court held under the said Act IX of 1850 or under this Act and a verdict shall be found for the plaintiff for a sum less than one thousand Rupees if the said action is founded on contract, or less than 500 Rupees if it is founded on wrong, the plaintiff shall have judgment to recover such sum only, and no costs, and if a verdict shall not be found for the plaintiff, the defendant shall be entitled to his costs as between attorney and client, unless in either case the Judge who shall try the case shall certify on the back of the record that by reason of the difficulty, novelty, or general importance of the case, or of some erroneous course of decisions in like cases in the Court of Small Causes, the action was fit to be brought in the Supreme Court.

No costs in cases brought in the Supreme Court when verdict is for less than 1,000 Rupees unless Judge certifies, &c.

VII. If any person shall bring any suit in the Supreme Court in respect of any grievance committed by the Clerk, Bailiff, or Officer of any Court held at Calcutta under Act IX of 1850, or under this Act, or under color or pretence of the process of the said Court, and upon the trial of the action no greater damages shall be found for the Plaintiff than the sum of one thousand Rupees, no costs shall be awarded to the plaintiff in such action unless the Judge shall certify in Court, upon the back of the record, that the action was fit to be brought in the Supreme Court.

In suit in Supreme Court against Officer of Court if no verdict for more than 1,000 Rupees, no costs allowed unless Judge shall certify, &c.

VIII. The fees to be taken by Barristers at Law and Attorneys practising in the said Court, in cases brought within the jurisdiction given by this Act, shall be as follows:—an Attorney shall be entitled to have or recover a sum not exceeding fifty-one Rupees for his fees and costs, and in no case shall any fee exceeding eighty-five Rupees be allowed for employing a Barrister as Counsel in the cause. The expense of employing a Barrister or an Attorney, or both a Barrister and an Attorney, either by plaintiff or defendant, shall not be allowed as costs, unless by order of the Judge, and the Judges of the said Court shall from time to time determine in what cases such expenses shall be so allowed.

Fees payable to Barristers and Attorneys in suits tried under this Act.

IX. There shall be payable in the Calcutta Court of Small Causes in every cause of an amount to which jurisdiction is given to the said Court by this Act, the fees set forth in the Schedule hereto annexed, besides the sum of two annas in the Rupee on the amount of the sum claimed, which fee shall be paid over to the same account as that to which the fees payable under Section XIX of Act IX of 1850 are paid over.

Fees payable to the Court of Small Causes in suits under this Act.

X. The Lieutenant-Governor of Bengal may appoint as many persons as may be necessary to be Assistant Judges of the said Court of Small Causes. Every such Assistant Judge shall in causes for an amount not exceeding fifty Rupees instituted under the provisions of Act IX of 1850 have the same jurisdiction and powers and shall be subject to the same rules in all respects as Judges of the said Court appointed under Section VIII of that Act. But no Assistant Judge shall have any jurisdiction whatever in any cause instituted for the recovery of an amount exceeding fifty Rupees.

Government may appoint Assistant Judges with jurisdiction in suits for sums not exceeding 50 Rupees.

XI. Of the Judges appointed under Section VIII of the said Act IX of 1850, the one who is a Barrister at law or Advocate of one the Supreme Courts of India or of the Court of Session of Scotland shall be styled the First Judge. The First Judge shall, subject to the approval of the Judges of the Supreme Court, make such arrangements as he shall think fit with regard to the distribution of the suits and of the general business of the Court among the various Judges thereof: and he may, subject to such approval, vary such arrangements from time to time. The First Judge shall forthwith report to the Judges of the Supreme Court, for their approval, any arrangement made by him under this Section, but such arrangement shall be of force until disapproved.

One of Judges appointed under Act IX of 1850 to be styled First Judge; and to arrange the distribution of business among the other Judges, &c.

And to report arrangements to Supreme Court for approval.

XII. In suits which have been heard by an Assistant Judge, all motions for a new trial or to alter or modify a judgment given or order made in the cause, and all new trials, shall be heard by the Assistant Judge who heard the same in the first instance,

New trials, &c., in cases heard by an Assistant Judge.

sitting together with the First Judge or such other one of the Judges appointed under Act IX of 1850 as the said First Judge shall empower to hear such motions and new trials.

This Act to be read as part of Act IX of 1850.

XIII. This Act and the said Act IX of 1850 shall be read and construed as one Act, as if the several provisions in the said Act contained, not inconsistent with the provisions of this Act, were repealed and re-enacted in this Act.

MARINE DEPARTMENT.

No. 136.

Fort William, the 13th March 1862.

The following Extract from a Report of a recent Survey of the Cocos Islands by Lieutenant Jackson, I. N., Commander of the Bengal Government Steam Vessel "Krishna," is published for general information :—

"On the morning of the 16th I hove to off Narcondam Island, with the peak bearing north (true) by Azimuth, and observed its longitude west of Fort Cornwallis Flagstaff, Penang, 6° 02′ 48″, and its latitude, deduced from observation at noon by means of two patent log distances, 13° 27′ 00″ north. The height above the level of the sea being 2,150 feet, and the variation 3° easterly.

From the above observations I find that Narcondam is placed about fourteen miles too far north in the Chart of the Bay of Bengal, published by Messrs. Allen and Company, in London, 8th September 1857. This is obviously an oversight, as the latitude here given agrees with that of former observers."

By Order,
John G. Reddie,
Offg. Secy. to the Govt. of India,

THE following Bill was read in the Council of the Lieutenant-Governor of Bengal for the purpose of making Laws and Regulations on the 22nd March 1862, and was referred to a Select Committee who are to report thereon after the 26th of April next :—

A Bill to extend the jurisdiction of the Calcutta Court of Small Causes and to provide for the appointment of Assistant Judges of that Court.

WHEREAS it is expedient to increase the limit of the jurisdiction of the Calcutta Court of Small Causes held under Act IX of 1850, and whereas it is necessary to provide for the appointment of Assistant Judges of the said Court; It is enacted as follows :—

Preamble.

I. The jurisdiction of the Court held or to be held in the Town of Calcutta under the said Act IX of 1850 shall extend to the recovery of any debt, damage, or demand not exceeding the sum of one thousand Rupees, and to all actions in respect thereof (except the several actions specified in the proviso in Section XXV of the same Act), and the several powers and provisions of the said Act and all rules, orders, and regulations which have been or may be made in pursuance of the said Act, shall extend to all debts, damages, and demands which may be sued for in the said Court not exceeding the sum of one thousand Rupees, and to all proceedings and judgments for the recovery of the same or otherwise in relation thereto respectively, as fully and effectually, to all intents and purposes as the same respectively are now, or may be applicable to debts, damages, and demands, within the present jurisdiction of the said Court.

The Small Cause Court may take cognizance of suits for sums not exceeding one thousand Rupees.

II. If both parties shall agree, by a memorandum signed by them or by their Attornies, that the said Court of Small Causes shall have power to try any action (not coming under the proviso in Section XXV of Act IX of 1850) in which the sum sought to be recovered

The Small Cause Court may take cognizance of suits for sums exceeding one thousand Rupees, if the parties consent.

shall exceed the sum of one thousand Rupees, then and in such case the said Court shall have jurisdiction and power to try such action. Provided always that the said parties or their Attornies shall state in their said memorandum of agreement, that they know such cause of action to be above the said sum, and provided that such memorandum shall be filed with the Clerk of the said Court at the time of filing the plaint of the plaintiff.

Proviso.

III. In any cause of an amount to which jurisdiction is given to the Calcutta Court of Small Causes by this Act, the Judges of the said Court shall reserve any question of law or equity or any question as to the admission or rejection of any evidence, as to which they shall entertain any doubts or which they shall be requested by either party to the suit to reserve for the opinion of the Supreme Court, and shall give judgment contingent upon the opinion of the said Supreme Court on a case which they shall thereupon be entitled to state to the said Court. If only two Judges sit together and shall differ in opinion, the question on which they differ shall be so reserved. Provided always that when judgment contingent upon the opinion of the Supreme Court is given against a defendant, such defendant shall forthwith give security, to be approved by the Clerk of the Court, for the costs of the reference to the Supreme Court, and for the amount of the judgment; provided nevertheless, that such security, so far as regards the amount of the judgment, shall not be required in any case where the Judge of the Court of Small Causes who tried the suit shall have ordered the defendant to pay the amount of such judgment into the hands of the Clerk of the said Court, and the same shall have been paid accordingly; and the said Supreme Court may either order a new trial on such terms as it thinks fit, or may order judgment to be entered for either party, as the case may be, and may make such order with respect to the costs of reserving the question and stating the same for their opinion, and otherwise arising thereout or connected therewith, as such Supreme Court may think proper. And all orders made by the Supreme Court under this Section shall be final.

Judges shall reserve case for opinion of Supreme Court when they have doubts themselves or when either of the parties require them to do so.

Proviso.

Costs of sending up the case to be at the discretion of the Supreme Court.

IV. The powers and provisions of Act VII of 1847 to regulate distresses for small rents in Calcutta shall be extended to the recovery of all arrears of rent not exceeding one thousand Rupees, and the Judges of the Calcutta Court of Small Causes under Act IX of 1850 shall be empowered to exercise within their jurisdiction the extended powers of the said Act VII of 1847: and the said Act shall be construed as if, instead of Calcutta and the Settlement of Fort William in Bengal, the limits of the jurisdiction of the Court had been therein mentioned, and the Judges of the Calcutta Court of Small Causes under Act IX of 1850 instead of the Commissioners of the Court therein mentioned, and the amount of one thousand Rupees instead of one hundred Rupees, and the forms contained in the Schedule annexed to the said Act VII of 1847 shall be altered accordingly, and shall refer to Act IX of 1850 and to this Act instead of Act VII of 1847.

The Small Cause Court to issue distresses for rents not exceeding 1,000 Rupees in extension of powers given under Act VII of 1847.

V. The powers and provisions of Section XCI of Act IX of 1850 are hereby extended so as to apply to the case of any person who shall hold or occupy any house, land, or tenement of which the value or the rent payable in respect thereof does not exceed the rate of one thousand Rupees, and the said Section XCI of Act IX of 1850 shall be read as if the words "five hundred" were omitted and the words "one thousand" substituted for them.

Law as to recovery of small tenements extended to cases not exceeding 1,000 Rupees.

VI. If any action shall after the passing of this Act be commenced in the Supreme Court, for any cause other than those specified in Section C of Act IX of 1850, for which a summons might have been taken out from a Court held under the said Act IX of 1850 or under this Act and a verdict shall be found for the plaintiff for a sum less than one thousand Rupees if the said action is founded on contract, or less than 300 Rupees if it is founded on wrong, the plaintiff shall have judgment to recover such sum only, and no costs, and if a verdict shall not be found for the plaintiff, the defendant shall be entitled to his costs as between attorney and client, unless in either case the Judge who shall try the case shall certify on the back of the record that by reason of the difficulty, novelty, or general importance of the case, or of some erroneous course of decisions in like cases in the Court of Small Causes, the action was fit to be brought in the Supreme Court.

No costs in cases brought in the Supreme Court when verdict is for less than 1,000 Rupees unless Judge certifies, &c.

VII. If any person shall bring any suit in the Supreme Court in respect of any grievance committed by the Clerk, Bailiff, or Officer of any Court held at Calcutta under Act IX of 1850, or under this Act, or under color or pretence of the process of the said Court, and upon the trial of the action no greater damages shall be found for the Plaintiff than the sum of one thousand Rupees, no costs shall be awarded to the plaintiff in such action unless the Judge shall certify in Court, upon the back of the record, that the action was fit to be brought in the Supreme Court.

In suit in Supreme Court against Officer of Court if no verdict for more than 1,000 Rupees, no costs allowed unless Judge shall certify, &c.

VIII. The fees to be taken by Barristers at Law and Attorneys practising in the said Court, in cases brought within the jurisdiction given by this Act, shall be as follows:—an Attorney shall be entitled to have or recover a sum not exceeding fifty-one Rupees for his fees and costs, and in no case shall any fee exceeding eighty-five Rupees be allowed for employing a Barrister as Counsel in the cause. The expense of employing a Barrister, or an Attorney, or both a Barrister and an Attorney, either by plaintiff or defendant, shall not be allowed as costs, unless by order of the Judge and the Judges of the said Court shall from time

to time determine in what cases such expenses shall be so allowed.

Fees payable to the Court of Small Causes in suits under this Act.

IX. There shall be payable in the Calcutta Court of Small Causes in every cause of an amount to which jurisdiction is given to the said Court by this Act, the fees set forth in the Schedule hereto annexed, besides the sum of two annas in the Rupee on the amount of the sum claimed, which fee shall be paid over to the same account as that to which the fees payable under Section XIX of Act IX of 1850 are paid over.

Government may appoint Assistant Judges with jurisdiction in suits for sums not exceeding 50 Rupees.

X. The Lieutenant-Governor of Bengal may appoint as many persons as may be necessary to be Assistant Judges of the said Court of Small Causes. Every such Assistant Judge shall in causes for an amount not exceeding fifty Rupees instituted under the provisions of Act IX of 1850 have the same jurisdiction and powers and shall be subject to the same rules in all respects as Judges of the said Court appointed under Section VIII of that Act. But no Assistant Judge shall have any jurisdiction whatever in any cause instituted for the recovery of an amount exceeding fifty Rupees.

One of Judges appointed under Act IX of 1850 to be styled First Judge; and to arrange the distribution of business among the other Judges, &c.

XI. Of the Judges appointed under Section VIII of the said Act IX of 1850, the one who is a Barrister at law or Advocate of one the Supreme Courts of India or of the Court of Session of Scotland shall be styled the First Judge. The First Judge shall, subject to the approval of the Judges of the Supreme Court, make such arrangements as he shall think fit with regard to the distribution of the suits and of the general business of the Court among the various Judges thereof: and he may, subject to such approval, vary such arrangements from time to time. This Act to be read as part of Act IX of 1850.

XIII. This Act and the said Act IX of 1850 shall be read and construed as one Act, as if the several provisions in the said Act contained, not inconsistent with the provisions of this Act, were repealed and re-enacted in this Act.
